Kenneth A. Kavale, Steven R. Forness

No One To Play With The Social Side Of Learning Disabilities:

No One to Play with Betty B. Osman, Henriette Blinder, 1995 Nobody don t wanna play with me Sound familiar In the backyard at home or the playground at school LD ADD youngsters are often cruelly snubbed in informal play groups To see a child socially isolated or rejected hurts caring adults partly perhaps because memories of their own painful childhood experiences are stirred up While it is neither possible nor even desirable to alleviate all the pain inherent in growing up obviously we can t merely sit back and watch the child suffer The right kind of intervention can have an impact Children s social quotients can be raised just as intelligence quotients can be improved when the learning environment changes for the better Social skills like academic subjects must be learned and can be taught This compassionate practical readable guide describes everyday social problems and situations and offers invaluable advice on how to deal with them effectively Among topics covered are getting along with other kids handling the social aspects of school group techniques and adolescent difficulties

The Nature of Learning Disabilities Kenneth A. Kavale, Steven R. Forness, 2012-12-06 The category of learning disabilities continues to be among the most contentious in special education Much of the debate and dissent emanates from a lack of understanding about its basic nature The failure to evolve a comprehensive and unified perspective about the nature of learning disabilities has resulted in the concept being lost The loss is best illustrated through the failure to answer this seemingly simple question What is a learning disability Using historical empirical theoretical conceptual and philosophical analyses this volume explores a number of problems and issues facing the field of learning disabilities The chapters cover historical influences definitional problems primary characteristics assessment practices theoretical development major themes research and measurement models and long term outcomes The goal is to explicate the nature of learning disabilities by analyzing what it was supposed to be what it has become and what it might be A predominant theme running through this text is the necessity for the field of learning disabilities to regain integrity by recapturing its essence

Nonverbal Learning Disabilities at Home Pamela Tanguay, 2000-12-15 This book explores the problems children with NLD may face and provides strategies for parents to help them cope and grow from preschool age through their challenging adolescent years The author provides solutions to the everyday challenges of the disorder from early warning signs and self care issues to social skills and personal safety

Nonverbal Learning Disabilities at School Pamela Tanguay, 2001-10-01 Topics such as finding the right school curriculum modifications and social and emotional issues experienced by children with NLD are covered The bulk of the book outlines specific teaching strategies from how to deal with essay questions to tips on helping the student master long division and ideas for improving reading comprehension

School Struggles Richard Selznick, 2025-09-12 School Struggles Dr Richard Selznick s follow up to the acclaimed The Shut Down Learner details a broader scope of potential problems faced by schoolchildren and offers techniques and insights to help them learn Dr Selznick explores reading and writing issues behavioral problems difficulties with organization social skills medication parents interactions
