No Common Ground:

No Common Ground Karen L. Cox, 2021-02-23 When it comes to Confederate monuments there is no common ground Polarizing debates over their meaning have intensified into legislative maneuvering to preserve the statues legal battles to remove them and rowdy crowds taking matters into their own hands These conflicts have raged for well over a century but they've never been as intense as they are today In this eye opening narrative of the efforts to raise preserve protest and remove Confederate monuments Karen L Cox depicts what these statues meant to those who erected them and how a movement arose to force a reckoning She lucidly shows the forces that drove white southerners to construct beacons of white supremacy as well as the ways that antimonument sentiment largely stifled during the Jim Crow era returned with the civil rights movement and gathered momentum in the decades after the Voting Rights Act of 1965 Monument defenders responded with gerrymandering and heritage laws intended to block efforts to remove these statues but hard as they worked to preserve the Lost Cause vision of southern history civil rights activists Black elected officials and movements of ordinary people fought harder to take the story back Timely accessible and essential *No Common Ground* is the story of the seemingly invincible stone sentinels that are just beginning to fall from their pedestals *Captive to Reason* Vincent

Cheung, 2014-11-26 This is a collection of articles on Christian philosophy and apologetics It answers a number of objections raised by some professing Christians against biblical metaphysics epistemology and apologetics It is a corrective to both evidentialism and counterfeit presuppositionalism Chapters include Occasionalism and Empiricism The Fatal Maneuver Professional Morons Power Apologetics and The Preacher Speaks Philosophy **The Parallax View** Slavoj

Zizek, 2009-02-13 In his long awaited magnum opus he theorizes the parallax gap in the ontological the scientific and the political and rehabilitates dialectical materialism *The Parallax View* is Slavoj Zizek's most substantial theoretical work to appear in many years Zizek himself describes it as his magnum opus Parallax can be defined as the apparent displacement of an object caused by a change in observational position Zizek is interested in the parallax gap separating two points between which no synthesis or mediation is possible linked by an impossible short circuit of levels that can never meet From this consideration of parallax Zizek begins a rehabilitation of dialectical materialism Modes of parallax can be seen in different domains of today's theory from the wave particle duality in quantum physics to the parallax of the unconscious in Freudian psychoanalysis between interpretations of the formation of the unconscious and theories of drives In *The Parallax View* Zizek with his usual astonishing erudition focuses on three main modes of parallax the ontological difference the ultimate parallax that conditions our very access to reality the scientific parallax the irreducible gap between the phenomenal experience of reality and its scientific explanation which reaches its apogee in today's brain sciences according to which nobody is home in the skull just stacks of brain meat a condition Zizek calls the unbearable lightness of being no one and the political parallax the social antagonism that allows for no common ground Between his discussions of these three modes Zizek offers interludes that

deal with more specific topics including an ethical act in a novel by Henry James and anti anti-Semitism The Parallax View not only expands i ek s Lacanian Hegelian approach to new domains notably cognitive brain sciences but also provides the systematic exposition of the conceptual framework that underlies his entire work Philosophical and theological analysis detailed readings of literature cinema and music coexist with lively anecdotes and obscene jokes *ASME Transactions* American Society of Mechanical Engineers,1920 *Faith after Foundationalism* D.Z. Phillips,2013-05-02 Foundationalism is the view that philosophical propositions are of two kinds those which need supporting evidence and those which in themselves provide the evidence which renders them irrefutable This book originally published 1988 describes the battle between foundationalism which places belief in God in the first category and various other approaches to the problem of faith Reformed Epistemology hermeneutics and sociological analysis In the concluding section of the book an examination of concept formation in religious belief is used to reinterpret the gap between the expressive power of language and the reality of God **Body - Language - Communication. system that have evolved in Strasbourg how the court works and how European human rights law is enforced both at the national and international level European human rights law is also placed into a useful comparative framework alongside human rights cases decided by courts in the United States Canada and elsewhere This third edition has been extensively updated to cover the major developments of recent years including the reform of the European Court of Human Rights and the expansion of the system to central and eastern Europe
