Nuevos Destinos:

Destinos turísticos: viejos problemas ¿Nuevas soluciones? Joaquín Saúl García Marchante, Miguel Ángel Troitiño Vinuesa, María García Hernández, 2008-09-01 Esta publicación recoge una cincuentena de aportaciones referidas al turismo al ocio y a los espacios de recreo. La potente capacidad transformadora relacionada con la actividad turística hace necesario debatir no solo sobre las características y problemáticas del desarrollo turístico de los últimos años sino también sobre la virtualidad de las estrategias y actuaciones acometidas con la finalidad de evaluar su impacto territorial económico y social. Tomando los destinos turísticos como principal eje argumental ponencias, experiencias de interés y comunicaciones plantean las complejas relaciones e interdependencias entre turismo y territorio en los destinos urbanos, los espacios rurales interior y los litorales. Se trata en suma de una aportación desde la Geografía orientada a propiciar una reflexión serena sobre el papel del turismo en las dinámicas territoriales y sobre las características de los territorios turísticos que estamos construyendo en estos comienzos del siglo XXI.

El Emprendimiento en América Latina Daniel Lederman, Julian Messina, Samuel Pienknagura, Jamele Rigolini, 2014-07-01 El emprendimiento es un determinante fundamental del crecimiento y la creación de empleo. Pese a que los emprendedores abundan en América Latina y el Caribe, las empresas de la región son más pequeñas y menos propensas a crecer e innovar que las de otras regiones. El crecimiento de la productividad lleva demasiadas veces siendo mediocre y el reciente periodo de auge de las materias primas no ha supuesto una excepción. Así pues, la presencia de emprendedores dinámicos es necesaria para impulsar la creación de puestos de trabajo de calidad y la aceleración del crecimiento de la productividad en la región. En *El emprendimiento en América Latina*, muchas empresas y poca innovación se estudia el panorama del emprendimiento en América Latina y el Caribe. El libro recurre a nuevas bases de datos que abordan cuestiones como la creación de empresas, las dinámicas empresariales, las decisiones de exportar y el comportamiento de las corporaciones multinacionales y sintetiza los resultados de un análisis exhaustivo del estatus, las perspectivas y los retos del emprendimiento en la región. Asimismo, el libro suministra herramientas útiles e información para ayudar a los profesionales y responsables de las políticas a identificar los ámbitos de las mismas que los gobiernos pueden explorar para impulsar la innovación e incentivar el emprendimiento transformador con potencial de crecimiento elevado.

enfoque holístico del destino turístico **Marketing y gestión de destinos turísticos** Josep Ejarque, 2016-03-03 La gestión y el marketing de un destino turístico de éxito no es el fruto de una receta mágica ni siquiera de una pequeña milagrosa. No existen. El éxito de un destino turístico se basa en el trabajo constante dedicación y capacidad de escucha autocrática y sobre todo en la voluntad de adaptarse a un entorno cambiante. La gestión y el marketing de los destinos turísticos necesita una estrategia precisa con objetivos que alcanzar y mucho sentido común. Este libro no pretende ser ni un manual completo ni la biblia de la gestión y el marketing de los destinos turísticos. No es el fruto de una investigación o estudio científico sino una guía para comprender mejor qué es y cómo se hace la gestión y el marketing de los destinos turísticos. Es un libro que refleja lo que se debe hacer y cómo hacerlo en la gestión y el marketing de los destinos turísticos desde una perspectiva práctica y pragmática. Aborda aspectos fundamentales de la gestión de un destino turístico desde las diversas estrategias de planificación para el desarrollo, construcción y reinversión del destino a las estrategias de marketing, imagen, posicionamiento y branding sin olvidarse de la promoción comercializadora de las ofertas y productos turísticos del destino. Dicha promoción comercializadora es la nueva frontera en la gestión y marketing de los destinos turísticos porque responde a los modos y tendencias de la demanda y fundamentalmente porque facilita y apoya la labor promocional y de comercialización de los operadores turísticos. La simple promoción del destino es ya historia. El mercado demanda y reclama la promoción del destino y de los productos de este de modo integral y coordinado. Se trata de poner en contacto la demanda con la oferta en modo innovador y con nuevas técnicas para obtener resultados satisfactorios. Es una obra que ofrece apoyo a todos los profesionales de la gestión y del marketing de los destinos turísticos a todos los que desean afrontar nuevos retos.

Antonio López García's Everyday Urban Worlds Benjamin Fraser, 2014-08-26 Antonio López García's Everyday Urban Worlds A Philosophy of Painting is the first book to give the famed Spanish artist the critical attention he deserves Born in Tomelloso in 1936 and still living in the Spanish capital today Antonio López has long cultivated a reputation for impressive urban scenes but it is urban time that is his real subject Going far beyond mere artist biography Benjamin Fraser explores the relevance of multiple disciplines to an understanding of the painter's large scale canvases Weaving selected images together with their urban referents and without ever straying too far from discussion of the painter's oeuvre method and reception by critics Fraser pulls from disciplines as varied as philosophy history Spanish literature and film cultural studies urban geography architecture and city planning in his analyses The book begins at ground level with one of the artist's most recognizable images the Gran Vía which captures the urban project that sought to establish Madrid as an emblem of modernity Here discussion of the artist's chosen painting style one that has been referred to as a hyperrealism is integrated with the central street's history the capital's famous literary figures and its filmic representations setting up the philosophical perspective toward which the book gradually develops Chapter two rises in altitude to focus on Madrid desde Torres Blancas an urban image painted from the vantage point provided by an iconic high rise in the north central area of the city Discussion of the Spanish capital's northward expansion complements a broad view of the artist's push into representations of landscape and allows for the exploration of themes such as political conflict social inequality and the accelerated cultural change of an increasingly mobile nation during the 1960s Chapter three views Madrid desde la torre de bomberos de Vallecas and signals a turn toward

political philosophy Here the size of the artist s image itself foregrounds questions of scale which Fraser paints in broad strokes as he blends discussions of artistry with the turbulent history of one of Madrid s outlying districts and a continued focus on urban development and its literary and filmic resonance Antonio Lpez Garcás Everyday Urban Worlds also includes an artist timeline a concise introduction and an epilogue centering on the artist s role in the Spanish film El sol del membrillo The book s clear style and comprehensive endnotes make it appropriate for both general readers and specialists alike

The Undocumented Everyday Rebecca M. Schreiber, 2018-03-13 Examining how undocumented migrants are using film video and other documentary media to challenge surveillance detention and deportation As debates over immigration increasingly become flashpoints of political contention in the United States a variety of advocacy groups social service organizations filmmakers and artists have provided undocumented migrants with the tools and training to document their experiences In The Undocumented Everyday Rebecca M Schreiber examines the significance of self representation by undocumented Mexican and Central American migrants arguing that by centering their own subjectivity and presence through their use of documentary media these migrants are effectively challenging intensified regimes of state surveillance and liberal strategies that emphasize visibility as a form of empowerment and inclusion Schreiber explores documentation as both an aesthetic practice based on the visual conventions of social realism and a state administered means of identification and control As Schreiber shows by visualizing new ways of belonging not necessarily defined by citizenship these migrants are remaking documentary media combining formal visual strategies with those of amateur photography and performative elements to create a mixed genre aesthetic In doing so they make political claims and create new forms of protection for migrant communities experiencing increased surveillance detention and deportation
