Mathematical Mastery in Young Children's Play Di Chilvers,2021-07-12 This book explains how young children develop mathematically in their earliest years and shows the support and teaching needed by adults to accelerate their progress and attainment helping them master mathematical concepts and skills The practical guidance has been carefully developed over a

number of years and is based on research undertaken with primary schools in Sheffield as part of the Talk for Maths Mastery initiative. It recognises that children's mathematical development is embedded within child-led play and connected to deeper levels of thinking and wider dispositions for learning. Maths is happening everywhere at any moment we just need to keep an open mind, open eyes and listen. Including case studies, links to practice and reflective questions, the chapters reveal what mastery orientation looks like from the children's perspective in their learning and covers children's serve and return conversational talk, mathematical babies and their developmental momentum, schematic patterns of thinking, mathematical mark making, child-led play, problem solving, creative and critical thinking, how adults can support children's mathematical talk, thinking and mastery. This book will help all early years practitioners and teachers working with children throughout the EYFS and KS1 build their understanding, knowledge, experience and confidence of engaging in early mathematics. *Drama 3-5* Debbie Chalmers, 2014-08-21. Would you like to offer constructive, creative and exciting new dramatic learning experiences to the children in your setting? The importance of using drama to promote active and creative learning in the early years is widely recognised and this fully updated second edition of *Drama 3-5* will guide and inspire practitioners in all settings, allowing them to lead drama with confidence and enthusiasm. Young children participating in well-planned drama activities learn to express themselves clearly and develop strong social skills, more self-confidence and a greater understanding of co-operation and team work. *Drama 3-5* contains a wide range of accessible activities and sample session plans drawn from the author's many years of extensive experience, which have all been fully and successfully tried and tested with children from 3-5 years. The book also explains the theory and value of all of the activities, as well as possible extensions and the ways in which they contribute to the learning objectives and goals of the Early Years Foundation Stage, allowing practitioners to encourage and assess children's progress. Key chapters include Building confidence, Encouraging social interaction, Mime and expression, Speech and language, Co-operation and teamwork, Performance skills. This book offers the tools and understanding needed for confident dramatic play and learning, making it an ideal companion to support every practitioner who wants to explore, develop and enjoy drama and have fun with their children. [Planning for Learning through Numbers](#) Jenni Clarke, 2012-08-02. Plan for six weeks of learning covering all six areas of learning and development of the EYFS through the topic of numbers. The Planning for Learning series is a series of topic books written around the Early Years Foundation Stage, designed to make planning easy. This book takes you through six weeks of activities on the theme of numbers. Each activity is linked to a specific Early Learning Goal and the book contains a skills overview so that practitioners can keep track of which areas of learning and development they are promoting. This book also includes a photocopiable page to give to parents with ideas for them to get involved with their children's topic, as well as ideas for bringing the six weeks of learning together. The weekly themes in this book include finding numbers outdoors, musical numbers, cooking with numbers, arty numbers, shopping with numbers and we love numbers. This book is a great way to bring numbers and early problem

solving and numeracy skills into all areas of the curriculum so children learn about them in a fun and unpressured way

Primary Huh: Curriculum conversations with subject leaders in primary schools John Tomsett, Mary Myatt, 2022-04-25 There's plenty to do when planning the curriculum in primary schools If it feels daunting then one of the most helpful things is to talk to other people about how they have developed the curriculum for their particular subject or key stage This is what John Tomsett and Mary Myatt have done After the secondary Huh Curriculum conversations between subject and senior leaders was published they were flooded with requests to produce a primary version They enlisted the help of renowned primary specialists Rachel Higginson Lekha Sharma and Emma Turner to have conversations with primary teachers and key stage coordinators who are doing great curriculum development work Each chapter provides insights into the importance of

individual subjects and the unique contribution each makes to pupils cognitive and personal development The subject chapters discuss the steps colleagues take to ensure that there is a coherent thread across the year groups as the discrete subjects deliver collectively the primary curriculum These conversations show how the craft of creating a rich challenging curriculum for every subject is not a quick fix This is a nuanced piece of work and there are many ways of approaching it Each chapter also contains links to subject associations and helpful resources Primary Huh has been written for subject leaders and key stage co ordinators it has also been written for senior leaders as they prepare to have supportive conversations with their colleagues who are responsible for curriculum development Primary Huh is offered as a prompt rather than the last word Informed debate is as they say the fuel of curriculum development And why have John and Mary called it Huh Well John discovered that Huh is the Egyptian god of endlessness creativity fertility and regeneration and they thought that was a pretty good metaphor for their work on the curriculum
