Number 2 Home Noreen Jones, 2002 The Japanese who migrated to Australia before 1901 were not only the prostitutes pimps and pearlers of popular fiction They were families farmers and fishermen entrepreneurs and itinerants With determination and ambition many of them successfully established themselves in their new home But the few who were granted citizenship were later stripped of the status and untold numbers made applications which were refused With the outbreak of World War II property and possessions were confiscated many were interned and most were denied permission to remain in the country when the war ended

Mobile Japanese Migrants to the Pacific West and East Etsuko Kato, 2023-12-01 This book explores self searching migrants a new group of indefinitely globally mobile people whose purpose of overseas stay is the search of true self and the work they really want to do using Japanese trans Pacific sojourners as the case study Utilizing testimonies collected from interviews with Japanese migrants in their twenties to forties who had entered the job market between the early 1990s and 2010 and left for the English speaking countries of Canada Australia and Singapore the book argues that their practices are both ubiquitous and unique the products of global and local contexts of a specific time As semiskilled migrants from an extra Western postindustrial country their struggles show a different picture of the West centric world power system from those experienced by migrant workers from the Global South Including extensive qualitative research and interview material collected over a 20 year period this book will be of huge interest to students and scholars of Japanese culture and society cultural anthropology and migration

The Outsiders Within Peta Stephenson, 2007 An engaging account of the ways in which over hundreds of years Indigenous and Asian people across northern and central Australia have traded intermarried and built hybrid communities It is also a disturbing expose of the persistent sometimes paranoid efforts of successive national governments to police marginalize and outlaw these encounters

Reopening the Opening of Japan Lewis Bremner, Manimpork Dotulong, Sho Konishi, 2023-10-30 The Opening of Japan has been central to the retelling of Japan s modern history Reopening the Opening of Japan fundamentally reconsiders what that historical moment entailed What did intensified connections between Japan and the world mean both inside and outside of the country and what does this tell us about Japan s historical significance on a global scale The chapters excavate a rich array of surprising cross border connections from the global trade in mummified mermaids to the Japanese Russian intellectual links underpinning the work of Akira Kurosawa Re thinking connectivity through non state transnational perspectives the book guides readers to new ways of doing and writing history Contributors are Lewis Bremner Natalia Doan Manimpork Dotulong Maki Fukuoka Eiko Honda Sho Konishi Mateja Kovacic Joel Littler Chinami Oka Yu Sakai Olga Solovieva and Warren Stanislaus

Japanese Doctors in White Australia John Lamb, 2025-06-02 Lamb tells the stories of an unusual collection of men who by being aliens in a largely unwelcoming country have been omitted from the historical narrative More than a dozen of these medical practitioners arrived and contributed to the welfare of Australian communities during the

hundred years prior to the dismantling of race based immigration policies and this book examines not only what they achieved but the political social and economic context in which they operated and the prejudice with which they dealt Through its forensic investigation of archival materials both in Japan and in Australia as well as contact with descendants of the men this study book throws unprecedented light on their trials and tribulations and on the factors most important in determining acceptance and performance in a discriminatory environment Moreover through its many illustrations explanations and general narrative it draws the reader into the personal lives of the doctors and what they faced At the same time its inclusion of detailed mortality and morbidity statistics and their analysis in conjunction with population and economic parameters will doubtless prove an important resource for medical historians In its depth of research and access to relevant information in both countries and languages this book contributes to Australia Japan relations and understanding and sets a new standard in cross cultural research A valuable resource for Australian and Japanese researchers and students of international immigration medical history the politics and character of racism Asian Studies and International Relations Migrant narratives further enjoy broad international appeal in countries including Asia the United States and Europe

National Approaches to the Administration of International Migration Peri E. Arnold, 2010 Within the time frame of the 17th century to the mid 20th century this book examines the migration experience of ten countries Australia Austria Belgium Great Britain Germany Greece Italy the Netherlands Spain and the United States each with an important history of international migration *Deported* Glenn Nicholls, 2007 Australia has one of the highest rates of deportation in the western world relative to population and deportation plays an important but neglected role in Australian immigration history Drawing on archival material case studies court decisions and parliamentary debates *Deported* presents the previously untold story of the use and misuse of deportation powers in Australia over the past 105 years *Pacific Exposures* Melissa Miles, Robin Gerster, 2018-12-19 Photography has been a key means by which Australians have sought to define their relationships with Japan From the fascination with all things Japanese in the late nineteenth century through the era of White Australia the bitter enmity of the Pacific War the path to reconciliation in the post war period and the culturally complicated bilateralism of today Australians have used their cameras to express a divided sense of conflict and kinship with a country that has by turns fascinated and infuriated The remarkable photographs collected and discussed here for the first time shed new light on the history of Australia's engagement with its most important regional partner *Pacific Exposures* argues that photographs tell an important story of cultural production response and reaction not only about how Australians have pictured Japan over the decades but how they see their own place in the Asia Pacific *Pacific Exposures* presents the first study of the photographic exchanges between Australia and Japan its photographers personalities motivations anxieties and tensions based on a diverse range of archival materials interviews and well chosen photographs Dr Luke Gartlan University of St Andrews *Pacific Exposures* will become a key text on Australia's interactions with Japan and the way that photographs can inform cross

cultural relations through their production consumption and circulation Prof Kate Darian Smith University of Tasmania

The Architecture of Confinement Anoma Pieris, Lynne Horiuchi, 2022-02-24 In this global and comparative study of Pacific War incarceration environments we explore the arc of the Pacific Basin as an archipelagic network of militarized penal sites Grounded in spatial physical and material analyses focused on experiences of civilian internees minority citizens and enemy prisoners of war the book offers an architectural and urban understanding of the unfolding history and aftermath of World War II in the Pacific Examples are drawn from Australia New Zealand Singapore Japan and North America The Architecture of Confinement highlights the contrasting physical facilities urban formations and material character of various camps and the ways in which these uncover different interpretations of wartime sovereignty The exclusion and material deprivation of selective populations within these camp environments extends the practices by which land labor and capital are expropriated in settler colonial societies practices critical to identity formation and endemic to their legacies of liberal democracy

Women, Crime and Social Harm Maureen Cain, Adrian Howe, 2008-11-03 This book of eleven chapters and an Introduction is by and about women the harms and crimes to which they are subjected as a result of global social processes and their efforts to take control of their own futures The chapters explore the criminogenic and damaging consequences of the policies of the global financial institutions as well as the effects of growing economic polarisation both in pockets of the developed world and most markedly in the global south Reflecting on this evidence in the Introduction the editors necessarily challenge existing criminological theory by expanding and elaborating a conception of social harm that encompasses this range of problems and exposes where new solutions derived from criminological theory are necessary A second theme addresses human rights from the standpoint of indigenous women minority women and those seeking refuge Inadequate and individualised as the human rights instruments presently are for most of these women a politics of human rights emerges as central to the achieving of legal and political equality and protection from individual violence Women in the poorest countries however are sceptical as to the efficacy of rights claims in the face of the depredations of international and global capital and the social dislocation produced thereby Nonetheless this is a hopeful book emphasising the contribution which academic work can make provided the methodology is appropriately gendered and sufficiently sensitive in its guiding ideology and techniques to hear and learn from the all too often glocalised other But in the end there is no solution without politics and in both the opening and the closing sections of this book there are chapters which address this What continues to be special about women's political practice is the connection between the groundedness of small groups and the fluidity and flexibility of regional and international networks the effective politics of the global age This book then is a new criminology for and by women a book which opens up a new criminological terrain for both women and men and a book which cannot easily be read without an emotional response

Migration as Transnational Leisure Jun Nagatomo, 2014-11-27 In Migration as Transnational Leisure The Japanese Lifestyle Migrants in Australia Jun Nagatomo discusses a new type of migration in which

lifestyle is at the core of middle class aspirations to migrate Traditionally international migration has been commonly seen as resulting from economic political and religious causes However this book studies an intriguing new dynamic between the social transformation and the Japanese engagement with tourism and migration Since the 1990s when Japan was struggling with the recession increasing numbers of young middle class Japanese began to drift from the safe and assured life course model and chose to live abroad This book explores how lifestyle values affect migration decision of Japanese migrants in Australia and settlement processes in the migration destination *Selling Sex* Raelene Frances,2007 Provides a history of prostitution in Australia from before European colonisation and situates this history within an international context of labour migration and policy formation This work draws on archival research and interviews to chart the ways in which prostitution contributed to women s economic survival and to colonisation The Routledge Handbook of Religion, Gender and Society Caroline Starkey,Emma Tomalin,2021-12-30 In an era which many now recognise as post secular the role that religions play in shaping gender identities and relationships has been awarded a renewed status in the study of societies and social change In both the Global South and the Global North in the 21st century religiosity is of continuing significance not only in people s private lives and in the family but also in the public sphere and with respect to political and legal systems The Routledge Handbook of Religion Gender and Society is an outstanding reference source to these key topics problems and debates in this exciting subject area Comprising over 40 chapters by a team of international contributors the Handbook is divided into 3 parts Critical debates for religions gender and society theories concepts and methodologies Issues and themes in religions gender and society Contexts and locations Within these sections central issues debates and problems are examined including activism gender analysis intersectionality and feminism oppression and liberation equality bodies and embodiment space and place leadership and authority diaspora and migration marriage and the family generation and aging health and reproduction education violence and conflict ecology and climate change and the role of social media The Routledge Handbook of Religion Gender and Society is essential reading for students and researchers in religious studies and gender studies The Handbook will also be very useful for those in related fields such as cultural studies area studies politics sociology anthropology and history **Asian/Pacific Book Development** ,2002 Diaspora, the Australasian Experience Cynthia Vanden Driesen,Ralph Crane,2005 Contributed articles presented at the conference organized by Association for the Study of Australasia in Asia **Migrant Nation** Paul Longley Arthur,2017-12-15 Focusing on particular historical blind spots by telling stories of individuals and groups that did not fit the favoured identity mould the essays in Migrant Nation work within the gap between Australian image and experience and offer fresh insights into the other side of identity construction The volume casts light on the hidden face of Australian identity and remembers the experiences of a wide variety of people who have generally been excluded neglected or simply forgotten in the long running quest to tell a unified story of Australian culture and identity Drawing upon memories letters interviews and documentary fragments as well as rich archives the

authors have in common a commitment to give life to neglected histories and thus to include in an expanding and open ended national narrative people who were cast as strangers in the place that was their home **Unexpected Encounters** Michael Ackland, Pamela M. Oliver, 2007 Telling the personal stories of Australians in Japan and Japanese in Australia this book explores issues of race identity and ambition in times of war and peace The essays collected here illuminate a variety of fascinating lives and individual achievements from trade to literature and the arts the media and the justice system For over 150 years people have been shaped by and contributed to the breadth strength and diversity of the Australia Japan relationship As the editors and their contributors contend a transnational relationship is ultimately constituted by hundreds of untold seesawing and yet fruitful personal encounters that overcome prejudice and blur the boundaries set by official and unofficial racial mores publisher **The Pearl Frontier** Julia T. Martínez, Adrian Vickers, Clem Guthro, 2015-05-31

Remarkable for its meticulous archival research and moving life stories The Pearl Frontier offers a new way of imagining Australian historical connections with Indonesia This compelling view from below of maritime mobility demonstrates how in the colonial quest for the valuable pearl shell Australians came to rely on the skill and labor of Indonesian islanders drawing them into their northern pearling trade empire From the 1860s onward the pearl shell industry developed alongside British colonial conquests across Australia's northern coast and prompted the Dutch to consolidate their hold over the Netherlands East Indies Inspired by tales of pirates and priceless pearls the pearl frontier witnessed the maritime equivalent of a gold rush with traders entrepreneurs and willing workers coming from across the globe But like so many other frontier zones it soon became notorious for its reliance on slave like conditions for Indigenous and Indonesian workers These allegations prompted the imposition of a strict regime of indentured labor migration that was to last for almost a century before giving way to international criticism in the era of decolonization The Pearl Frontier invites the reader to step outside the narrow confines of national boundaries to see seafaring peoples as a continuous population moving and in communication in spite of the obstacles of politics warfare and language Instead of the mythologies of racial purity propagated by settler colonies and European empires this book dissects the social and economic life of the port cities around the Australian Indonesian maritime zone and lays open the complex cosmopolitan relationships which shaped their histories and their present situations Julia Martínez and Adrian Vickers bring together their expertise on Australian and Indonesian history to challenge the isolationist view of Australia's past This book explores how Asian migration and the struggle against the restrictive White Australia policy left a rich legacy of mixed Asian Indigenous heritage that lives on along Australia's northern coastline This book is an important contribution to studies of the coastal or Pasisir culture of Southeast Asia that situates the local cultures in a regional context and demonstrates how Indonesian maritime peoples became part of global migration flows as indentured laborers It offers a hitherto untold story of Indonesian diaspora in Australia and reveals a degree of Indian Pacific interconnectedness that forces us to rethink the construction of regional boundaries and national borders *Journal of*

Asian History, 2003 **Religion and Identity in the Indian Ocean World** Joshua Esler, Mark Fielding, 2025-09-18 This is a ground breaking volume on the role of religion as a major force of cohesion across the Indian Ocean region A diverse range of experts present a case for conceptualizing religion as an enabler of not only shared religious identities throughout the Indian Ocean world but multiple shared identities mediated through religion particularly as religion intersects with other manifestations of human society in this part of the world This theme is explored through six major religious traditions many of which originated in the Indian Ocean region and all of which have played major roles throughout its history and to the present day These traditions include Judaism Christianity Islam Hinduism Jainism and Buddhism With this breadth and coverage of these traditions and their role in unifying communities from East Africa to Western Australia including those belonging to nations north of that expanse of ocean this book is a pioneering work on the multi religious identities of the region
