## Nuns Blood:

*Buddhist Nuns in Taiwan and Sri Lanka* Wei-Yi Cheng, 2007-01-24 Taking a comparative approach this fieldwork based study explores the lives and thoughts of Buddhist nuns in present day Taiwan and Sri Lanka The author examines the postcolonial background and its influence on the modern situation as well as surveying the main historical economic and social factors which influence the position of nuns in society Based on original research including interviews with nuns in both countries the book examines their perspectives on controversial issues and in particular those concerning the status of women in Buddhism Concerns discussed include allegedly misogynist teachings relating to women s inferior karma that they cannot become Buddhas and that nuns have to follow additional rules that monks do not Bridging the gap between feminist theory and the reality of women in religion the book makes a distinct contribution to the study of women in Buddhism by focusing on nuns from both of the main wings of Buddhism Theravada and Mahayana as well as furthering feminist studies of Buddhism and religion in general

*Taking Medicine* Kristin Burnett, 2011-07-01 The buffalo hunter the medicine man and the missionary continue to dominate the history of the North American west even though historians have recognized women s role as both colonizer and colonized since the 1980s Kristin Burnett helps to correct this imbalance by investigating the convergence of Aboriginal and settler therapeutic regimes in the Treaty 7 region from the perspective of women Although the imperial eye focused on medicine men Aboriginal women played important roles as healers and caregivers and the knowledge and healing work of both Aboriginal and settler women brought them into contact But as settlement increased and the colonial regime hardened informal encounters in domestic spaces gave way to more formal one sided interactions in settler run hospitals and nursing stations By revealing Aboriginal and settler women s contributions to the development of health care in southern Alberta *Taking Medicine* challenges traditional understandings of colonial medicine and nursing in the contact zone

The matter of

miracles Helen Hills, 2021-02-02 This book investigates baroque architecture through the lens of San Gennaro's miraculously liquefying blood in Naples. This vantage point allows a bracing and thoroughly original rethink of the power of baroque relics and reliquaries. It shows how a focus on miracles produces original interpretations of architecture, sanctity and place which will engage architectural historians everywhere. The matter of the baroque miracle extends into a rigorous engagement with natural history, telluric philosophy, new materialism theory and philosophy. The study will transform our understanding of baroque art and architecture, sanctity and Naples. Bristling with new archival materials and historical insights, this study lifts the baroque from its previous marginalisation to engage fiercely with materiality and potentiality and thus unleash baroque art and architecture as productive and transformational.

**Goodnight Sweet Prince** David Dickinson, 2011-09-01 Mystery surrounds the death of Queen Victoria's grandson. England 1892. Victoria, Queen and Empress, is in the 54th year of her reign when her grandson, Prince Eddy, eldest son of the Prince of Wales, is found slaughtered in his bed at Sandringham. Terrified of more royal scandal, the Prince of Wales and his spin doctors decide to cover up the facts and the murder is disguised as death by influenza. Lord Francis Powerscourt, an Irish investigator, is privately asked to find the killer. His quest takes him on a journey through the prince's debauched and dissolute past across Europe to the misty waterways of Venice where, amidst scandal and suicide, Powerscourt finally unravels the mystery of the sweet prince's last goodnight. PRAISE FOR THE BOOK In this excellent novel, Dickinson weaves a tale of blackmail and murder among the royals late in Victoria's reign; the characters and the plot soar upwards and carry us in their wake. Powerscourt's debut in this intoxicating book is the start of a gilded life in the archives of crime. James Naughtie

**Women in Early Indian Buddhism** Alice Collett, 2014 This volume is a broad ranging comparative study with translations of texts, sections of texts and textual fragments that are concerned with women in early Indian Buddhism, including study of texts in Gandhari, Sanskrit, Pali, Chinese, Tibetan and Sinhala.

**Healing Spaces** Esther M. Sternberg MD, 2010-09-30 Sternberg explores the marvelously rich nexus of mind and body, perception and place. The book shows how a Disney theme park or a Frank Gehry concert hall, a labyrinth or a garden can trigger or reduce stress, induce anxiety or instill peace.

Primary Sources and Asian Pasts Peter C. Bisschop, Elizabeth A. Cecil, 2020-11-09 This conference volume unites a wide range of scholars working in the fields of history, archaeology, religion, art and philology in an effort to explore new perspectives and methods in the study of primary sources from premodern South and Southeast Asia. The contributions engage with primary sources including texts, images, material artefacts, monuments as well as archaeological sites and landscapes and draw needed attention to highly adaptable, innovative and dynamic modes of cultural production within traditional idioms. The volume works to develop categories of historical analysis that cross disciplinary boundaries and represent a wide variety of methodological concerns. By revisiting premodern sources, *Asia Beyond Boundaries* also addresses critical issues of temporality and periodization that attend established categories in Asian Studies such as the Classical Age or the Gupta Period. This volume represents the culmination of the European Research Council (ERC)

Synergy project Asia Beyond Boundaries Religion Region Language and the State a research consortium of the British Museum the British Library and the School of Oriental and African Studies in partnership with Leiden University

**Princely Brothers and Sisters** Jonathan R. Lyon, 2013-01-15 In *Princely Brothers and Sisters* Jonathan R Lyon takes a fresh look at sibling networks and the role they played in shaping the practice of politics in the Middle Ages Focusing on nine of the most prominent aristocratic families in the German kingdom during the Staufen period 1138 1250 Lyon finds that noblemen and to a lesser extent noblewomen relied on the cooperation and support of their siblings as they sought to maintain or expand their power and influence within a competitive political environment Consequently sibling relationships proved crucial at key moments in shaping the political and territorial interests of many lords of the kingdom Family historians have largely overlooked brothers and sisters in the political life of medieval societies As Lyon points out however siblings are the contemporaries whose lives normally overlap the longest More so than parents and children husbands and wives or lords and vassals brothers and sisters have the potential to develop relationships that span entire lifetimes The longevity of some sibling bonds therefore created opportunities for noble brothers and sisters to collaborate in especially potent ways As Lyon shows cohesive networks of brothers and sisters proved remarkably effective at counterbalancing the authority of the Staufen kings and emperors Well written and impeccably researched *Princely Brothers and Sisters* is an important book not only for medieval German historians but also for the field of family history

*Alcohol, Gender and Culture* Dimitra Gefou-Madianou, 2002-01-04 Europeans constitute 12 and a half per cent of the world's population but consume 50 per cent of the recorded world production alcohol and this consumption plays a significant role in the cultural religious and social identities of these countries The contributors show how different groups define the proper use of alcohol how State policies may effect drinking behaviour and highlight how beverages and comestibles must be seen in relation to each other From this is it shown how important socio cultural distinctions are made between and within communities gender relations ethnic groups and socio economic groups and within religious ideologies what one drinks how one drinks with whom and where all influence not how alcoholic substances are regarded but how social relations are experienced *Alcohol Gender and Culture* clearly demonstrates how the social construction of drinking may provide an analytical tool with which to approach different socio cultural groups and illustrates how any cultural group can be compared to another by its attitudes to alcohol It will be invaluable reading for students and lecturers of anthropology cultural history and gender studies
