

NUREMBERG DIARY

G. M. GILBERT

Nuremberg Diary

Vladimir Petrović

Nuremberg Diary:

Nuremberg Diary Gustav M. Gilbert, 1995 **Nuremberg Diary** G. M. Gilbert, 2006 The diary by G M Gilbert Ph D formerly prison psychologist at the Nuremberg Trial of the Nazi War criminals *The Nazi and the Psychiatrist* Jack El-Hai, 2013-09-10 NOW THE MAJOR MOTION PICTURE NUREMBERG In 1945 an improbable relationship between the fallen Reichsmarschall Hermann Goering and ambitious US Army physician Douglas Kelley becomes a hazardous quest into the nature of evil amid the devastation of Europe at the end of World War II In 1945 after his capture at the end of the Second World War Hermann G ring arrived at an American run detention center in war torn Luxembourg accompanied by sixteen suitcases and a red hatbox Joining him in the detention center were fifty one senior Nazis of whom G ring was the dominant figure To ensure that the captives were fit for trial at Nuremberg the US army sent an ambitious army psychiatrist Captain Douglas M Kelley to supervise and evaluate them To Kelley it was the professional opportunity of a lifetime to discover a distinguishing trait among these arch criminals that would mark them as psychologically different from the rest of humanity But Kelley s quest would prove to be a dangerous one The more he spoke with the Nazi captives the more he began to understand and appreciate their perspective and the more he would fall for their charms *The Emergence of Historical Forensic Expertise* Vladimir Petrović, 2016-10-26 This book scrutinizes the emergence of historians participating as expert witnesses in historical forensic contribution in some of the most important national and international legal ventures of the last century It aims to advance the debate from discussions on whether historians should testify or not toward nuanced understanding of the history of the practice and making the best out of its performance in the future Law and War Peter H. Maguire, 2010 This is a revised edition of Law and war an American story published in 2000 T p verso *Nazis after Hitler* Donald M McKale, 2023-06-14 The stories of thirty war criminals who escaped accountability from a historian praised for his well written scrupulously researched work The New York Times This deeply researched book traces the biographies of thirty typical perpetrators of the Holocaust some well known some obscure who survived World War II Donald M McKale reveals the shocking reality that the perpetrators were rarely if ever tried or punished for their crimes and nearly all alleged their innocence in Germany s extermination of nearly six million European Jews He highlights the bitter contrasts between the comfortable postwar lives of many war criminals and the enduring suffering of their victims and how in the face of exhaustive evidence showing their culpability nearly all claimed ignorance of what was going on and insisted they had done nothing wrong McKale ends the book with a haunting question whether life would be different today if the Allies had pursued Holocaust criminals more aggressively after WWII History buffs and students of the Holocaust will be fascinated Publishers Weekly Gripping and important reading Eric A Johnson author of What We Knew Anatomy of Malice Joel E. Dimsdale, 2016-05-28 An eminent psychiatrist delves into the minds of Nazi leadership in a fresh look at the nature of wickedness and at our attempts to explain it Sir Simon Wessely Royal College of Psychiatrists When the ashes had settled

after World War II and the Allies convened an international war crimes trial in Nuremberg a psychiatrist Douglas Kelley and a psychologist Gustave Gilbert tried to fathom the psychology of the Nazi leaders using extensive psychiatric interviews IQ tests and Rorschach inkblot tests The findings were so disconcerting that portions of the data were hidden away for decades and the research became a topic for vituperative disputes Gilbert thought that the war criminals malice stemmed from depraved psychopathology Kelley viewed them as morally flawed ordinary men who were creatures of their environment Who was right Drawing on his decades of experience as a psychiatrist and the dramatic advances within psychiatry psychology and neuroscience since Nuremberg Joel E Dimsdale looks anew at the findings and examines in detail four of the war criminals Robert Ley Hermann Goring Julius Streicher and Rudolf Hess Using increasingly precise diagnostic tools he discovers a remarkably broad spectrum of pathology Anatomy of Malice takes us on a complex and troubling quest to make sense of the most extreme evil In this fascinating and compelling journey a respected scientist who has long studied the Holocaust asks probing questions about the nature of malice I could not put this book down Thomas N Wise MD Johns Hopkins University School of Medicine This harrowing tale and detective story asks whether the Nazi War Criminals were fundamentally like other people or fundamentally different T M Luhrmann author of How God Becomes Real

The Quest for the Nazi Personality Eric A. Zillmer, Molly Harrower, Barry A. Ritzler, Robert P. Archer, 2013-10-31 Half a century after the collapse of the Nazi regime and the Third Reich scholars from a range of fields continue to examine the causes of Nazi Germany An increasing number of young Americans are attempting to understand the circumstances that led to the rise of the Nazi party and the subsequent Holocaust as well as the implication such events may have for today as the world faces a resurgence of neo Nazism ethnic warfare and genocide In the months following World War II extensive psychiatric and psychological testing was performed on over 200 Nazis in an effort to understand the key personalities of the Third Reich and of those individuals who just followed orders In addressing these issues the current volume examines the strange history of over 200 Rorschach Inkblot protocols that were administered to Nazi war criminals and answers such questions as Why the long delay in publishing protocols What caused such jealousies among the principals How should the protocols be interpreted Were the Nazis monsters or ordinary human beings This text delivers a definitive and comprehensive study of the psychological functioning of Nazi war criminals both the elite and the rank and file In order to apply a fresh perspective to understanding the causes that created such antisocial behavior these analyses lead to a discussion within the context of previous work done in social and clinical psychology Subjects discussed include the authoritarian personality altruism obedience to authority diffusion of responsibility and moral indifference The implications for current political events are also examined as Neo Nazism anti-Semitism and ethnic hate are once again on the rise While the book does contain some technical material relating to the psychological interpretations it is intended to be a scholarly presentation written in a narrative style No prior knowledge of psychological testing is necessary but it should be of great benefit for those interested

in the Rorschach Inkblot test or with a special interest in psychological testing personality assessment and the history of psychology It is also intended for readers with a broad interest in Nazi Germany

How Hitler Evolved the Traditional Army Establishment Andrew Sangster, Pier-Paolo Battistelli, Pier Paolo Battistelli, 2024-08-30 An examination of Hitler's key military generals and their contributions and failures to the Germany military Under the surveillance of General von Seeckt the Germans re-established their military which Hitler utilised for his aggression of recovering Germany's military greatness This book explores some of the leading military figures The often ignored Field Marshal Keitel is explored to see if there were any substance in the Allied belief that this Chief of the OKW was the driving force behind initial German success or was he merely Hitler's lackey and bureaucrat He was derided by his contemporaries because of his unstinting Prussian obedience to Hitler This sense of total compliance was also reflected by General Paulus who although obedient was reluctant to carry out Hitler's barbaric orders relating to Jews and prisoners but otherwise was obedient and trusting of Hitler even though he knew it would lead to military disaster It took time in a Russian prison camp to turn him against the once adored German dictator where he eventually became anti-Nazi In striking contrast to the failed Paulus Field Marshal Manstein is examined He was a skilled strategist and tactician and proved this in his victory in France He lacked the social sophistication of many other leading military commanders but he was one of the very few who had the courage to challenge Hitler's military directions and decisions He was eventually dismissed by Hitler and postwar wrote two books to regain his reputation despite the fact he was convicted of war crimes and whether he deserves a pedestal remains with the reader

The Warlord and the Renegade James Wyllie, 2007-02-01 There is a continuing interest in the history of Hitler's Third Reich This is a quirky untold story of Hitler's Third Reich that uncovers the Goring brothers' bizarre relationship It is illustrated with many rare archive photographs

Evil and International Relations R. Jeffery, 2007-12-25 This book seeks to determine what is meant by evil when used to describe actors and events in international politics Focusing on the history of evil in western secular and religious thought it reintroduces a classical understanding of evil as the means to which we seek to understand otherwise meaningless human suffering

Smersh Dr. Vadim Birstein, 2013-11-01 SMERSH is the award-winning account of the top secret counterintelligence organisation that dealt with Stalin's enemies from within the shadowy recesses of Soviet government As James Bond's nemesis in Ian Fleming's novels SMERSH and its operatives were depicted in exotic duels with 007 rather than fostering the bleak oppression and terror they actually spread in the name of their dictator Stalin drew a veil of secrecy over SMERSH's operations in 1946 but that did not stop him using it to terrify Red Army dissenters in Leningrad and Moscow or to abduct and execute suspected spooks often without cause across mainland Europe Formed to mop up Nazi spy rings at the end of the Second World War SMERSH gained its name from a combination of the Russian words for Death to Spies Successive Communist governments suppressed traces of Stalin's political hit squad now Vadim Birstein lays bare the surgical brutality with which it exerted its influence as part of the paranoid regime both within the Soviet Union and in

the wider world SMERSH was the most mysterious and secret of organisations this definitive and magisterial history finally reveals truths that lay buried for nearly fifty years **The Nazis, the Vatican, and the Jews of Rome** Patrick J.

Gallo,2023-02-15 On October 16 1943 the Jews of Rome were targeted for arrest and deportation The Nazis the Vatican and the Jews of Rome examines why and more importantly how it could have been avoided featuring new evidence and insight into the Vatican s involvement At the time Rome was within reach of the Allies but the overwhelming force of the Wehrmacht Gestapo and SS in Rome precluded direct confrontation Moral condemnations would not have worked nor would direct confrontation by the Italians Jewish leadership or even the Vatican Gallo underscores the necessity of determining what courses of actions most likely would have spared Italian Jews from the gas chambers Examining the historical context and avoiding normative or counterfactual assertions this book draws upon archival sources ranging from diaries to intelligence intercepts in English Italian and German With antisemitism on the rise today and the last remaining witnesses passing away it is essential to understand what happened in 1943 The Nazis the Vatican and the Jews of Rome grapples with this particular awful episode within the larger horrifying story of the Holocaust Despite the inadequacy of memory we must continue to attempt to make sense of the inexplicable **Hitler's People** Richard J Evans,2024-08-13 Named a Best Book of the Year by

Kirkus Reviews and Air Mail A fascinating and instructive book elegantly written and perceptive Wall Street Journal Kaleidoscopic A fascinating exploration of individual agency that never loses sight of the larger context Just the kind of probing nuanced and unsparing study to help us think things through The New York Times Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated out from Hitler to the inner and outer circles of the regime s leadership one of our greatest historians answers the enduring question how does a society come to carry out a program of unspeakable evil Richard Evans author of the acclaimed The Third Reich Trilogy and over two dozen other volumes on modern Europe is our preeminent scholar of Nazi Germany Having spent half a century searching for the truths behind one of the most horrifying episodes in human history in Hitler s People he brings us back to the original site of the Nazi movement namely the lives of its most important members Working in concentric circles out from Hitler and his closest allies Evans forms a typological framework of Germany society under Nazi rule from the top down With a novelist s eye for detail Evans explains the Third Reich through the personal failings and professional ambitions of its members from its most notorious deputies like Goebbels the regime s propagandist and Himmler the Holocaust s chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten like the schoolteacher Julius Streicher and the actress Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler s People lays bare the inner and outer lives of the characters whose choices led to the deaths of millions Nearly a century after Hitler s rise the leading nations of the West are once again being torn apart by a will to power By telling the stories of these infamous lives as human lives Evans asks us to grapple with the complicated nature of complicity showing us that the distinctions between individual

and collective responsibility and even between pathological evil and rational choice are never easily drawn

American Hangman French L. MacLean, 2025-06-06 The first biography of MSgt John C Woods infamous US Army hangman of the Nuremberg trials MacLean meticulously separates fact from the mythology surrounding this enigmatic figure This is a follow on book to The Fifth Field winner of the 2013 Richard G Trefry Award from the Army Historical Foundation

Visualizing Atrocity Valerie Hartouni, 2012-08-20 Taking Hannah Arendt s account of the 1961 trial of Nazi official Adolf Eichmann as its point of departure this book reassesses the myths that shape our understanding of the Nazi genocide as well as totalitarianism s broader features These myths are tied to the atrocity imagery that emerged with the liberation of the concentration camps and played an evidentiary role in the post war trials of perpetrators At the 1945 Nuremberg Tribunal particular practices of looking were first established and later institutionalized through Eichmann s trial in Jerusalem as part of the fabric of historical fact These ways of seeing have come to constitute a visual rhetoric that drives contemporary mythmaking about how we know genocide and what is permitted to count as such In contrast Arendt s claims about the banality of evil work to disrupt this visual rhetoric

The Inkblots Damion Searls, 2017 An NPR Best Book of the Year A New York Post Best Book of the Year A Times Thought Book of the Year An Irish Independent Best Book of the Year The captivating untold story of Hermann Rorschach and his famous inkblot test In 1917 working alone in a remote Swiss asylum psychiatrist Hermann Rorschach devised an experiment to probe the human mind a set of ten carefully designed inkblots For years he had grappled with the theories of Freud and Jung while also absorbing the aesthetic movements of the day from Futurism to Dadaism A visual artist himself Rorschach had come to believe that who we are is less a matter of what we say as Freud thought than what we see After Rorschach s early death his test quickly made its way to America where it took on a life of its own Co opted by the military after Pearl Harbor it was a fixture at the Nuremberg trials and in the jungles of Vietnam It became an advertising staple a clich in Hollywood and journalism and an inspiration to everyone from Andy Warhol to Jay Z The test was also given to millions of defendants job applicants parents in custody battles and people suffering from mental illness or simply trying to understand themselves better And it is still used today In this first ever biography of Rorschach Damion Searls draws on unpublished letters and diaries and a cache of previously unknown interviews with Rorschach s family friends and colleagues to tell the unlikely story of the test s creation its controversial reinvention and its remarkable endurance and what it all reveals about the power of perception Elegant and original *The Inkblots* shines a light on the twentieth century s most visionary synthesis of art and science

Goering R. J. Overy, 2003

Americanization and Anti-americanism Alexander Stephan, 2007-08-01 The ongoing discussions about globalization American hegemony and September 11 and its aftermath have moved the debate about the export of American culture and cultural anti Americanism to center stage of world politics At such a time it is crucial to understand the process of culture transfer and its effects on local societies and their attitudes toward the United States This volume presents Germany as a

case study of the impact of American culture throughout a period characterized by a totalitarian system two unusually destructive wars massive ethnic cleansing and economic disaster Drawing on examples from history culture studies film radio and the arts the authors explore the political and cultural parameters of Americanization and anti Americanism as reflected in the reception and rejection of American popular culture and more generally in European American relations in the American Century

Hermann and Albert Goering James Wyllie, 2011-09-30 They were the most unlikely siblings one Adolf Hitler's most trusted henchman the other a fervent anti Nazi Hermann Goering was a founder member of the Nazi Party who became commander of the Luftwaffe ordering the terror bombing of civilians and prompting the use of slave labour in his factories His brother Albert loathed Hitler's regime and saved hundreds possibly thousands across Europe from Nazi persecution He deferred to Hermann as head of the family but spent nearly a decade working against his brother's regime If he had been anyone else he would have been imprisoned or executed Despite their extreme and differing beliefs Hermann sheltered his brother from prosecution and they remained close throughout the war Here for the first time James Wyllie brings Albert out of the shadows and explores the extraordinary relationship of the Goering brothers
