Nursery World Of Dr Blatz:

The Nursery World of Dr Blatz Jocelyn Motyer Raymond, 1991 **Nursery World of Dr. Blatz** Jocelyn Motyer Raymond, 1991-12-15 In 1925 Blatz established St George's school for child study associated with the University of Toronto. The school consisted of two divisions: one was Parent Education, a research program created to educate parents in the newest techniques of child rearing. **The Nurture of Nature** Sharon Wall, 2010-01-01 Thousands of children attended summer camps in twentieth-century Ontario. Did parents simply want a break or were broader developments at play? *The Nurture of Nature* explores the history of summer camps and sheds light on a wider phenomenon: the divided consciousness that informs modern assumptions about nature, technology, and identity. Wall examines how two competing tendencies—antimodern nostalgia and modern sensibilities about the landscape—child rearing and identity played out in the camp's interaction with nature, its class and gendered dimensions, its engagement with emerging ideologies of childhood, and in the politics of race inherent in its Indian programming. *The Nurture of Nature* offers a fascinating discussion of the summer camp's contribution to modern social life that will appeal to students and practitioners of the history of childhood, the natural environment, and recreation, or anyone who has been packed off to camp and wants to explore why. **Ring Around the Maple** Cynthia R. Comacchio, Neil Sutherland, 2024-10-29 *Ring Around the Maple* is about the condition of children in Canada from roughly 1850 to 2000, a time during which the modern increasingly disrupted traditional ways. Authors Cynthia R. Comacchio and Neil Sutherland trace the lives of children over this long century with a view to synthesizing the rich interdisciplinary literature that has emerged since the 1970s. Integrated into this synthesis is the authors' new research into many often seemingly disparate archival and published primary sources. Emphasizing how the child and childhood are sociohistoric constructs and employing age analytically and relationally, they discuss the constants and the variants in their historic dimensions. While childhood tangibly modernized during these years, it remained far from universal experience due to identifiers of race, gender, culture, region, and intergenerational adaptations that characterize the process of growing up. This work highlights children's perspectives through close critical readings of diaries, correspondence, memoirs, interviews, oral histories, and autobiographies, many buried in obscure archives. It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations, Métis, and Inuit children with those of children from a number of settler groups. *Ring Around the Maple* makes use of photographs, catalogues, advertisements, government publications, musical recordings, radio shows, television shows, material goods, documentary and feature films, and other such visual and aural testimony. Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children. This book is generously illustrated with photographs and ephemera carefully selected to reflect children's lives, conditions, interests, and obligations. It will be of special interest to historians and social scientists interested in children and the culture of childhood, but will also appeal to readers who enjoy the little stories that together make up our collective

history especially when those are told by the children who lived them *Normalizing the Ideal* Mona Lee Gleason,1999-01-01 Postwar insecurity about the stability of family life became a platform to elevate the role of psychologists in society Their ideal of normal as the healthy goal for society marginalizing and silencing those who did not fit the model **Canadian Men and Masculinities** Wayne Martino,Christopher John Greig,2012 Canadian Men and Masculinities Historical and Contemporary Perspectives is a provocative new volume that examines men and masculinity across Canadian history and culture and sets it against the broader context of neoliberal globalization This edited collection adopts a multi perspective social inquiry and interdisciplinary approach and takes into careful consideration the intersections of the social and historical construction of gender with race social class sexuality bodily abilities and other social justice factors The chief aim of this book is to examine from historical and contemporary perspectives the production and performance of men boys and embodied masculinity within the Canadian context Within this framework Canadian Men and Masculinities explores a range of issues including modern fatherhood black male athleticism indigenous masculinities wrestling and body building This volume will be a valuable resource for general readers and professionals in sociology history education and social and gender studies **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1992 A Diversity of Women Joy Parr,1995-01-01 Our perception of women s roles has changed dramatically since 1945 In this collection Joy Parr has brought together ten studies from a variety of disciplines examining changing ideas about women Mariana Valverde writes about teenage girls in the immediate postwar years and finds that stereotypes of a supposedly simple secure politically quiescent and sexually conformist life do not really hold Joy Parr follows women shoppers of the early 1950s in their sometimes comical encounters with male designers manufacturers and retailers in search of the tools and totems of modernity for their homes Increasingly these homes were in suburban subdivisions whose pleasures and possibilities for women Veronica Strong Boag reconsiders Joan Sangster reminds us that wage earning mothers were numerous in the fifties and sixties and through a juxtaposition of their own stories with contemporary studies tells much about these self denying women s lives Franca Iacovetta discusses the experiences of immigrant and refugee women in northwestern and south central Ontario experiences that were interpreted through their starkly different European wartime memories Based upon her work among the rural women of southwestern Ontario Nora Cebotarev charts the changes that transformed farm families and finances from the sixties to the eighties Ester Reiter compares the recollections of women who had worked together during the 1960s in an auto parts plant in the Niagara Peninsula with contemporary newspaper accounts of a strike and leads us into a complex narrative of gender and militancy Nancy Adamson reconsiders the diversity of feminist organizing within the province over the decades since second wave feminism began she tracks the different needs and paths that brought women to the women s liberation movement and the ways in which their feminist analysis arose from their experience as community activists Linda Cardinal writes about Franco Ontarian women charting

Boys in the Pits Robert McIntosh, 2000-10-17 *Boys in the Pits* shows the rapid maturity of the boys and their role in resisting exploitation In what will certainly be a controversial interpretation of child labour Robert McIntosh recasts wage earning children as more than victims showing that they were individuals who responded intelligently and resourcefully to their circumstances *Boys in the Pits* is particularly timely as despite the United Nations Convention on the Rights of the Child accepted by the General assembly in 1989 child labour still occurs throughout the world and continues to generate controversy McIntosh provides an important new perspective from which to consider these debates reorienting our approach to child labour explaining rather than condemning the practice Within the broader social context of the period where the place of children was being redefined as and limited to the home school and playground he examines the role of changing technologies alternative sources of unskilled labour new divisions of labour changes in the family economy and legislation to explore the changing extent of child labour in the mines

variety of methodological approaches *Contesting Bodies and Nation in Canadian History* includes essays on many themes that engage with the larger historical relationship between the body and nation medicine and health fashion and consumer culture citizenship and work and more The contributors reflect on the intersections of bodies with the concept of nationhood as well as how understandings of the body are historically contingent The volume is capped off with a critical introductory chapter by the editors on the history of bodies and the development of the body as a category of analysis *NFB Kids* Brian J. Low, 2006-01-01 Imagine a society that exists solely in cinema this book explores exactly that Using a half century of films from the archival collection of the National Film Board *NFB Kids Portrayals of Children* by the National Film Board of Canada 1939 1989 overcomes a long standing impasse about what films may be credibly said to document Here they document not reality but social images preserved over time the NFB Society an evolving cinematic representation of Canadian families schools and communities During the postwar era this society in cinema underwent a profound change in its child rearing and schooling philosophies embracing modern notions based upon principles espoused by the American mental hygiene movement Soon after the introduction of these psychological principles into NFB homes in 1946 and schools in 1956 there was a subtle transformation in adult child relations which progressively over time narrowed the gulf of power between generations and diminished the socializing roles of the NFB parents and teachers *NFB Kids* is a pioneering study within a new field of academic research cinema ethnography It adds to the growing body of knowledge about the function and the considerable impact of psychiatry and psychology in the post war social reconstruction of Canadian society and social history It will be of interest to academics over a broad spectrum of disciplines and to anyone thinking about the advancing arbitrary power of the cinematic state **Social Fabric Or Patchwork Quilt** Jeff Keshen, Raymond Benjamin Blake, 2006-01-01 Both historical and contemporary features of Canadian social welfare are explored in this wide ranging and in depth collection *Social Fabric or Patchwork Quilt* explores the evolution of the Canadian social welfare state from a system based upon voluntarism and philanthropy to one in which the State s involvement has increased considerably It also shows how the roles of governments at all levels have changed in recent times Chapters describe the developing Canadian welfare state from Confederation to the present Beginning with an integrative framework in the general introduction the selected essays represent many perspectives chronological regional multidisciplinary and ideological An important feature of this collection is the consideration of providers and recipients Such wide ranging outlooks are possible given the diverse backgrounds of contributors which include historians sociologists social workers public policy experts and political scientists As well as historical and sociological studies topics include key programs discussed in detail the quality of services received by principal target groups new directions in research some contributions even revisit foundational older works and key government documents *The Secure Child* Richard Volpe, 2010-01-01 *The Secure Child* Timeless Lessons In Parenting and Childhood Education was designed to contribute meaning to the adage what was old is new again Just as ideas in child psychology

shifted in the 1960s from a focus on behavior to cognitive stages we are currently seeing a shift away from stages of development toward an emphasis on the interplay between children and the world around them Specifically the book offers practical insights into how children can be helped to cope with their changing worlds These insights emerged in the 1930s a time of social and economic upheaval much like today This collection of original papers by former students and colleagues of William E Blatz the renowned psychologist and pediatrician known as the Dr Spock of Canada makes a vital contribution by bringing forward and examining his work in the context of contemporary ideas about human development parenting and education The collection forms a prologue to an included guide written by Blatz and colleagues The Expanding World of the Child The previously unpublished work articulates a comprehensive functional approach to parenting and childhood education The unique format of this book will make it useful for courses in parenting childhood education as well scholarship in child psychology personality theory and socialization
