

The North Wind doth blow,
And we shall have snow,
And what will poor Robin
do then
poor thing.

He will hop to the barn,
And to keep himself warm,
Will hide his head under
his wing:
poor thing.

Borders Hastings Donnan, Thomas M. Wilson, 2021-03-10 Borders are where wars start as Primo Levi once wrote But they are also bridges that is sites for ongoing cultural exchange Anyone studying how nations and states maintain distinct identities while adapting to new ideas and experiences knows that borders provide particularly revealing windows for the analysis of self and other In representing invisible demarcations between nations and peoples who may have much or very little in common borders exert a powerful influence and define how people think as well as what they do Without borders whether physical or symbolic nationalism could not exist nor could borders exist without nationalism Surprisingly there have been very few systematic or concerted efforts to review the experiences of nation and state at the local level of borders Drawing on examples from the US and Mexico Northern Ireland Israel and Palestine Spain and Morocco as well as various parts of Southeast Asia and Africa this timely book offers a comparative perspective on culture at state boundaries The authors examine the role of the state ethnicity transnationalism border symbols rituals and identity in an effort to understand how nationalism informs attitudes and behaviour at local national and international levels Soldiers customs agents smugglers tourists athletes shoppers and prostitutes all provide telling insights into the power relations of everyday life and what these relations say about borders This overview of the importance of borders to the construction of identity and culture will be an essential text for students and scholars in anthropology sociology political science geography nationalism and immigration studies
