Current Bibliographies in Medicine, 1988 Cumulated Index Medicus, 1975 **Current Bibliography of Epidemiology**, 1975 *Catalog* Food and Nutrition Information Center (U.S.), 1974 **Health and Welfare during Industrialization** Richard H. Steckel, Roderick Floud, 2008-04-15 In this unique anthology Steckel and Floud coordinate ten essays that bring a new perspective to inquiry about standard of living in modern times These papers are arranged for

international comparison and they individually examine evidence of health and welfare during and after industrialization in eight countries the United States Britain Sweden the Netherlands France Germany Japan and Australia The essays incorporate several indicators of quality of life especially real per capita income and health but also real wages education and inequality And while the authors use traditional measures of health such as life expectancy and mortality rates this volume stands alone in its extensive use of new anthropometric data information about height weight and body mass index that indicates changes in nations well being Consequently Health and Welfare during Industrialization signals a new direction in economic history a broader and more thorough understanding of what constitutes standard of living
