Nutritional Support of the Seriously Ill Patient R. S. Winters, 1983 **Evidence-Based Guidelines for Nutritional Support of the Critically Ill: Results of a Bi-National Guideline Development Conference** Gordon S. Doig, 2005-09-01 The purpose of this guidelines initiative was to develop or update and validate an evidence based feeding guideline for critically ill patients A widely accepted methodology was adopted which requires the identification of previously developed and validated evidence based guidelines The process then specifies a methodology for identifying and assimilating evidence that may be used to change or update the previously validated guidelines An extensive literature search was conducted closeout date April 2003 Four hundred and sixty five full text papers were retrieved and reviewed The only evidence based guideline for feeding critically ill patients that had been validated in an RCT was identified Martin et al 2004 When evaluated in a cluster randomised trial including 499 patients from 14 hospitals the adoption of this guideline resulted in a 10% reduction in mortality p 0 058 and an average decrease in hospital stay of 10 days p 0 003 The process and evidence used to support and update this guideline is presented in this document The final ratified guideline was evaluated in a 27 hospital cluster randomised trial conducted in Australia and New Zealand **Advanced Monitoring and Procedures for Small Animal**

Emergency General Surgery in Geriatrics Rifat Latifi, Fausto Catena, Federico Coccolini, 2021-03-29 There is a growing need for a book on emergency general surgery in the elderly as adults age 65 and older are the fastest growing segment of the population worldwide and their number is expected to double to 89 million between now and 2050 Based on these changing demographics it is expected that there will be a concurrent rise in the demand for a variety of surgical services including vascular surgery with a projected growth of 31% and general surgery with a projected growth of 18% as well as in all sub disciplines of surgery thoracic cardiac oncology hepatobiliary transplant plastic colorectal orthopedic gynecologic urology and neurosurgery In addition older surgical patients often require a different level of care than younger patients during the preoperative intraoperative and postoperative phases Many of our geriatric population have multiple chronic illnesses beyond the one for which surgery is required and therefore are prone to developing postoperative complications functional decline loss of independence and other undesirable outcomes In response this book offers surgeons geriatrists and nurses state of the art surgical approaches and essential information on the complex perioperative care of the elderly

Care of the Critically Ill Patient Jack Tinker, Warren M. Zapol, 2012-12-06 Nine years have passed since the first edition of Care of the Critically Ill Patient was published As its editors Maurice Rapin and I were fortified by the many positive and helpful comments of reviewers and readers the work appeared to have fulfilled our original aims and objectives Intensive care medicine has of course advanced and changed in many ways since 1982 and it therefore seemed appropriate to consider the preparation of a second edition Encouraged by the reception of the first and the timely prompting of the publishers we began in 1986 to prepare for a new edition Caring for critically ill patients is of universal concern and we were therefore delighted when Warren Zapol joined us as C n editor widening our international base The three of us subsequently spent many happy and productive times together planning the content priorities scale and contributions for the new edition A great tragedy then overcame us Maurice Rapin died suddenly His death deprived us of a true friend and colleague who had been an international pioneer during the development of intensive care medicine I will always remember with affection and professional pride the many hours he and I worked together in preparing the first edition of this book and also as founding

editors of the now firmly established journal *Intensive Care Medicine* An obituary written by Warren Zapol that appeared in the journal follows the Preface
