Childhood, Education and the Stage in Early Modern England Richard Preiss, Deanne Williams, 2017-05-02 What did childhood mean in early modern England To answer this question this book examines two key contemporary institutions the school and the stage The rise of grammar schools and universities and of the professional stage featuring boy actors reflect the culture's massive investment in children In this collection an international group of well respected scholars examines how the representation of children by major playwrights and poets reflected the period's educational and cultural values This book contains chapters that range from Shakespeare and Ben Jonson to the contemporary plays of Tom Stoppard and that explore childhood in relation to classical humanism medicine art and psychology revealing how early modern performance and educational practices produced attitudes to childhood that still resonate to this day Literature, Gender and Politics During the English Civil War Diane

Purkiss, 2005-07-14 In this innovative study Diane Purkiss illuminates the role of gender in the English Civil War by focusing on ideas of masculinity rather than on the role of women which has hitherto received more attention Historians have tended to emphasise a model of human action in the Civil War based on the idea of the human self as rational animal Purkiss reveals the irrational ideological forces governing the way seventeenth century writers understood the state the monarchy the battlefield and the epic hero in relation to contested contemporary ideas of masculinity She analyses the writings of Marvell Waller Herrick and the Caroline elegists as well as in newsbooks and pamphlets and pays particular attention to Milton's complex responses to the dilemmas of male identity This study will appeal to scholars of seventeenth century literature as well as those working in intellectual history and the history of gender *The Clique*, 1979 **New Voices of Muslim**

North-African Migrants in Europe Cristián H. Ricci, 2019-08-26 New Voices of Muslim North African Migrants in Europe captures the experience in writing of a fast growing number of individuals belonging to migrant communities in Europe The book follows attempts to transform postcolonial literary studies into a comparative translingual and supranational project Cristián H Ricci frames Moroccan literature written in European languages within the broader context of borderland studies The author addresses the realm of a literature that has been practically absent from the field of postcolonial literary studies i.e. Neerlandophone or Gay Muslim literature The book also converses with other minor literatures and theories from Sub-Saharan Africa as well as Asians and Latino as in the Americas that combine histories of colonization labor migration and enforced exile Style is Matter Leland De la Durantaye, 2007 How should we read Lolita The beginning of an answer is

that we should read it the way all great works deserve to be read with attention and intelligence But what sort of attention should we pay and what sort of intelligence should we apply to a work of art that recounts so much love so much loss so much thoughtlessness and across which flashes something we might be tempted to call evil To begin with we should read with the attention and intelligence we call empathy A point on which all readers can agree is that great literature offers us a lesson in empathy it encourages us to feel with the strange and the familiar the strong and the weak the vulgar and the cultivated the young and the old the lover and the beloved It urges us to see our own fates as connected to those of others to link the starry sky we see above us with whatever moral laws we might sense within from Style is Matter Some of my characters are no doubt pretty beastly but I really don't care they are outside my inner self like the mournful monsters of a cathedral facade demons placed there merely to show that they have been booted out Vladimir Nabokov Strong Opinions With this quote Leland de la Durantaye launches his elegant and incisive exploration of the ethics of art in the fiction of Vladimir Nabokov Focusing on Lolita but also addressing other major works especially Speak Memory and Pale Fire the author asks whether the work of this writer whom many find cruel contains a moral message and if so why that message is so artfully concealed Style is Matter places Nabokov's work once and for all into dialogue with some of the most basic issues concerning the ethics of writing and of reading itself De la Durantaye argues that Humbert's narrative confession artfully seduces the reader into complicity with his dark fantasies and even darker acts until the very end where he expresses his bitter regret for what he has done In this sense Lolita becomes a study in the danger of art the artist's responsibility to the real world and the perils and pitfalls of reading itself In addition to Nabokov's fictions de la Durantaye also draws on his nonfiction writings to explore Nabokov's belief that all genuine art is deceptive as is nature itself Through de la Durantaye's deft and compelling writing we see that Nabokov learned valuable lessons in mimicry and camouflage from the intricate patterns of the butterflies he adored

Education of the Senses Peter Gay, 1999 The most learned as well as the wittiest survey of human sexuality ever to be published New York Times

Album Rescue Series Tim Dalton, 2015-10-16 This album rescue series book evolved from long debates with friends family and colleagues as to the merits of various unloved and mistreated albums These discussions lead to committing our thoughts to paper and rescuing various albums that the press and general public considered to be far from exemplary of a particular artist This book rights those wrongs The album rescue series book is a contributive piece of work by music and media scholars each of whom take a unique approach to rescuing an album they love Taken from back cover

The Ludic Self in Seventeenth-Century English Literature Anna K. Nardo, 1991-09-03. This book argues that play offered Hamlet, John Donne, George Herbert, Andrew Marvell, Robert Burton, and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self. Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self, the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation.
