from depictions of European iconography rendered in powerful indigenous forms to fearsome minkondi or power figures serve as an assertion of enduring majesty in the face of upheaval and richly illustrate the book's powerful thesis. *The Leopard, the Lion, and the Cock* Matthew Stanard, 2019-04-15 Thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960 The degree to which the late colonial era affected Europe has been long underappreciated and only recently have European countries started to acknowledge not having come to terms with decolonisation In Belgium the past two decades have witnessed a growing awareness of the controversial episodes in the country's colonial past This volume examines the long term effects and legacies of the colonial era on Belgium after 1960 the year the Congo gained its independence and calls into question memories of the colonial past by focusing on the meaning and place of colonial monuments in public space The book foregrounds the enduring presence of empire in everyday Belgian life in the form of permanent colonial markers in bronze and stone lieux de mémoire of the country's history of overseas expansion By means of photographs and explanations of major pro colonial memorials as well as several obscure ones the book reveals the surprising degree to which Belgium became infused with a colonialist spirit during the colonial era Another key component of the analysis is an account of the varied ways in which both Dutch and French speaking Belgians approached the colonial past after 1960 treating memorials variously as objects of veneration with indifference or as symbols to be attacked or torn down The book provides a thought provoking reflection on culture colonialism and the remainders of empire in Belgium after 1960

Stanard, 2012-01-01 Belgium was a small neutral country without a colonial tradition when King Leopold II ceded the Congo his personal property to the state in 1908 For the next half century Belgium not only ruled an African empire but also through widespread enduring and eagerly embraced propaganda produced an imperialist minded citizenry Selling the Congo is a study of European pro empire propaganda in Belgium with particular emphasis on the period 1908-60 Matthew G Stanard questions the nature of Belgian imperialism in the Congo and considers the Belgian case in light of literature on the French British and other European overseas empires Comparing Belgium to other imperial powers the book finds that pro empire propaganda was a basic part of European overseas expansion and administration during the modern period Arguing against the long held belief that Belgians were merely reluctant imperialists Stanard demonstrates that in fact many Belgians readily embraced imperialistic propaganda Selling the Congo contributes to our understanding of the effectiveness of twentieth century propaganda by revealing its successes and failures in the Belgian case Many readers familiar with more popular histories of Belgian imperialism will find in this

book a deeper examination of European involvement in central Africa during the colonial era      **The Creative Circle** African Literature Association. Meeting, African Literature Association, 2003 The theme of the 2001 African Literature Association conference translation encompasses more than the movement of expression from one language to another it not only includes the translation of one culture to another but also the translating of the particularities of historical and personal experience into the broader context of humanity Includes the four addresses given at the conference on this topic by Nadine Gordimer Assia Djebar Emmanuel Dongala and Nuruddin Farah      **The Routledge Dictionary of Anthropologists** Gerald Gaillard, 2004-06-01 This detailed and comprehensive guide provides biographical information on the most influential and significant figures in world anthropology from the birth of the discipline in the nineteenth century to the present day Each of the fifteen chapters focuses on a national tradition or school of thought outlining its central features and placing the anthropologists within their intellectual contexts Fully indexed and cross referenced The Routledge Dictionary of Anthropologists will prove indispensable for students of anthropology      *Farmington Plan Newsletter*, 1968      *African Dilemma Tales* William Bascom, 2011-04-20 No detailed description available for African Dilemma Tales      **Colonial Architecture and Urbanism in Africa** Fassil Demissie, 2016-12-05 Colonial architecture and urbanism carved its way through space ordering and classifying the built environment while projecting the authority of European powers across Africa in the name of science and progress The built urban fabric left by colonial powers attests to its lingering impacts in shaping the present and the future trajectory of postcolonial cities in Africa Colonial Architecture and Urbanism explores the intersection between architecture and urbanism as discursive cultural projects in Africa Like other colonial institutions such as the courts police prisons and schools that were crucial in establishing and maintaining political domination colonial architecture and urbanism played a pivotal role in shaping the spatial and social structures of African cities during the 19th and 20th centuries Indeed it is the cultural destination of colonial architecture and urbanism and the connection between them and colonialism that the volume seeks to critically address The contributions drawn from different interdisciplinary fields map the historical processes of colonial architecture and urbanism and bring into sharp focus the dynamic conditions in which colonial states officials architects planners medical doctors and missionaries mutually constructed a hierarchical and exclusionary built environment that served the wider colonial project in Africa
