Critical Cartography of Art and Visuality in the Global Age Anna Maria Guasch Ferrer, Nasheli Jimenez Val, 2014-10-17 Critical Cartography of Art and Visuality in the Global Age poses fundamental questions and pinpoints topical discussions central to the field of contemporary art studies in the global age Resulting from a series of conversations that took place at the international conference Critical Cartography of Art and Visuality in the Global Age Barcelona 2013 the volume brings together current debates in cultural and identity based art histories as a means of expanding the territory of contempor

Performing Digital David Carlin, Laurene Vaughan, 2016-03-03 Digital technologies have transformed archives in every area of their form and function and as technologies mature so does their capacity to change our understanding and experience of material and performative cultural production There has been an exponential explosion in the production and consumption of video online and yet there is a scarcity of knowledge and cases about video and the digital archive This book seeks to address that through the lens of the project Circus Oz Living Archive This project provides the case study foundation for the articulation of the issues challenges and possibilities that the design and development of digital archives afford Drawn from eight different disciplines and professions the authors explore what it means to embrace the possibilities of digital technologies to transform contemporary cultural institutions and their archives into new methods of performance representation and history

Cinema and Art as Archive Aa. Vv., 2015-03-11 T00:00:00+01:00 As Jacques Derrida wrote in 1995 while considering Archive Fever nothing is less reliable or less clear today than the word archive Nevertheless the historic cultural dimension of the contemporary discursive practices in cinema and art develops in the semantic openendedness of the term in the repositioning of the idea of archive The individual disciplines involved in one such field history of cinema and art theory of cinema and art aesthetics semiotics philology etc begin to open up to questioning the notion of archive even in negative in other words what after Michel Foucault the archive is not or does not seem to be The archive is not the library of libraries or encyclopedia it is not memory it is not museum it is not a database In recent years the attention focused on such ideas has not so much highlighted the impulses turns and specific forms of art art archive as it has revealed in many ways how the archive concerns us in the interrelation of aesthetic political ethical and legal levels among various disciplinary fields

(No) Memory Jorinde Seijdel, 2004 How can cultural heritage be made accessible without resisting new developments or turning city and countryside into a museum What is the impact of the media and digital storage techniques on the social and historic process of remembrance And what is the role of art in all this Here leading authors artists architects and theorists answer these and other questions through numerous essays some photographic book reviews and project documentation of works that address issues of progress and remembrance

Counter-Memorial Aesthetics Veronica Tello, 2016-10-20 Restrictive border protection policies directed toward managing the flow of refugees coming into neoliberal democracies and out of failing nation states are a defining feature of contemporary politics In this

book Verónica Tello analyses how contemporary artists such as Tania Bruguera Isaac Julien Rosemary Laing Dinh Q L Dierk Schmidt Hito Steyerl Lyndell Brown and Charles Green negotiate their diverse subject positions while addressing and taking part in the production of images associated with refugee experiences and histories Tello argues that their practices which manifest across a range of contexts including Cuba the United States Australia and Europe represent an emergent global paradigm of contemporary art counter memorial aesthetics Counter Memorial Aesthetics Tello argues is characterized by its conjunction of heterogeneous signifiers and voices of many times and places generating an experimental non teleological approach to the construction of contemporary history which also takes into account the complex disorienting spatial affects of globalization Spanning performance art experimental history painting aftermath photography and video installation counter memorial aesthetics bring to the fore Tello argues how contemporary refugee flows and related traumatic events critically challenge and conflict with many existing tired if not also stubborn notions of national identity borders history and memory Building on the writings of such thinkers as Michel Foucault and Jacques Rancière this book offers a useful concept of counter memory for the twenty first century It shows how counter memorial aesthetics is not only central to the nexus of contemporary art and refugee histories but also how it can offer a way of being critically present with many other often interrelated global crises in the contemporary era

Derivas Anna Maria Guasch ,2022-01-24 El presente libro ofrece una reflexión sobre el arte a través de sus derivas es decir los movimientos que anidan en la creación y que hacen que en el arte actual quepan todas las maneras A lo largo de sus capítulos no solo se considera la creación propiamente dicha sino también la disciplina de la Historia del arte sus límites y la necesidad de plantear nuevos métodos y estrategias de lectura Y ello a partir de un modo de entender el conocimiento a través de intercambios de saberes entre disciplinas afines o no en lugar de querer encapsularlo en un nicho y delimitado campo Son estos saberes reticulares los que explican las mencionadas derivas que partiendo de un núcleo central que podría resumirse en un análisis de la teoría y la historia del arte global de las dos últimas décadas se diversifican en múltiples visiones no jerárquicas que dan cuenta de los contextos en los que se generan y operan En definitiva este texto desarrolla una serie de líneas de fuga que desde la crítica de arte los Estudios Visuales el concepto de archivo o el de globalización tanto convergen como divergen buscando un movimiento continuo y en último término generan un espacio común desde el que reconocer que tanto o más importante que el arte que nuestro momento global concibe lo es la manera de analizarlo de narrarlo de comunicarlo y de hacerlo extensible a una audiencia activa y participativa

Materializing Memory in Art and Popular Culture Laszlo Muntean,Liedeke Plate,Anneke Smelik,2016-12-08 Memory matters It matters because memory brings the past into the present and opens it up to the future But it also matters literally because memory is mediated materially Materiality is

the stuff of memory Meaningful objects that we love or hate function not only as aide mmoire but are integral to memory Drawing on previous scholarship on the interrelation of memory and materiality this book applies recent theories of new materialism to explore the material dimension of memory in art and popular culture The book s underlying premise is twofold on the one hand memory is performed mediated and stored through the material world that surrounds us on the other hand inanimate objects and things also have agency on their own which affects practices of memory as well as forgetting Chapters 1 4 and 5 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3 0 license
