Open Jenny Block, 2009-02-10 Finally a book about open marriage that grapples with the problems surrounding monogamy and fidelity in an honest heartfelt and non fringe manner Jenny Block is your average girl next door a suburban wife and mother for whom married life never felt quite right While many books on this topic presuppose that the reader is ready to embrace an alternative lifestyle Block operates from the assumption that most couples who are curious about or engaged in open marriages are in fact more like her normal people who question whether monogamy is right for them good people who love their spouses but want variation capable parents who are not deviant just because they choose to be honest about their desires Open challenges our notions of what traditional marriage looks like and presents one woman's journey down an uncertain path that ultimately proves open marriage is a viable option for her and others

Evolution Versus Revolution Melvyn L. Fein, 2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a

classical revolution is in our future **Conjugal Spirituality** Mary Anne McPherson Oliver,1994 Mary Anne Oliver develops an alternate to celibate religious practices drawing from the experience of couples and diverse sources in the Christian tradition This work explores the dynamics of conjugal love Sexual Ethics Stanley James Grenz,1997-01-01 In this biblically grounded study Stanley Grenz synthesizes theology ethics and current medical research to offer an evangelical perspective on the profound role that sexuality does and should play in our lives today He calls for Christians to live a biblical sexual ethic in the contemporary world at the same calling on the church to recognize that its mandate includes being a reconciling community one that proclaims God s grace to all **Designer Relationships** Mark Michaels,2015-09-08 Contemporary relationships are in a state of rapid evolution These changes can and should empower people with the opportunity to develop partnerships based on their own sexualities understandings and agreements This makes it possible to create what Kenneth Haslam founder of the Kinsey Institute s Polyamory Archive has called designer relationships Designer relationships may encompass people who bond emotionally but not sexually people who agree to be non exclusive single people who have occasional lovers or friends with benefits multiple partner configurations where long term bonds exist among all or some partnerships in which people are kinky and that make room to explore kink The possibilities are limitless and thinking about a partnership as something people can craft allows for flexibility and change Relationships can open and close or have varying degrees and kinds of openness as circumstances demand In the context of a designer relationship decisions are made mutually consciously and deliberately Best selling authors and nationally known relationship experts Patricia Johnson and Mark A Michaels are exemplars of this life choice and have studied polyamory for over 20 years This book explains exactly how you and your loved ones can design your own life and love **Getting Loose** Sam Binkley,2007-04-27 Examines the changing character of American consumer culture in the 1960s 70s and late 20th century generally driven by changing forms of identity notably a loosening of the self by which Binkley means to evoke a wide range of identity pr Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1974 *Post-Liberalism* Melvyn L. Fein,2017-09-08 Liberalism is dying despite its superficial appearance of vigor Most of its adherents still believe it is the wave of the future but they are clinging to a sinking dream So says Melvyn L Fein who argues that liberalism has made countless promises almost none of which have come true Under its auspices poverty was not eliminated crime did not diminish the family was not strengthened education was not improved nor was universal peace established These failures were not accidental they flow directly from liberal contradictions In Post Liberalism Fein demonstrates why this is the case Fein contends that an inverse force rule dictates that small communities are united by strong forces such as personal relationships and face to face hierarchies while large scale societies are integrated by weak forces such as technology and social roles As we become a more complex techno commercial society the weak forces become more dominant This necessitates greater decentralization in direct opposition to the centralization that liberals celebrate Paradoxically this

suggests that liberalism as an ideology is regressive rather than progressive If so it must fail Liberals assume that some day under their tutelage these trends will be reversed but this contradicts human nature and history s lessons According to Fein we as a species are incapable of eliminating hierarchy or of loving all other humans with equal intensity Neither as per Emile Durkheim are we able to live in harmony without appropriate forms of social cohesion *How Can We Commit The Unthinkable?* Israel W.
