

NKJV CONCORDANCE

This concordance indexes over 4,000 words, phrases, and proper nouns with over 35,000 concordance facts from the Bible which they are used in the NKJV. Words and phrases are tabularized with concordance positions, in which the word or phrase, bolded and italicized, stands for the entire word or phrase. Phrases are cross tabularized with the word or phrase except the first.

Proper nouns are defined by distinctive phrases and linguistic references. If a name applies to more than one person, or group, the different identities are distinguished by a dash.

The first number in parentheses following each heading indicates the chapter that word, phrase, or proper noun appears in the Bible. The second number indicates the number of verses in which it appears. Words that appear in phrases are also listed in the index for that word's entry. For example the phrase "with your mouth" appears five times in the Bible, but the word "with" appears 31 times in 31 verses, which includes the five occurrences and seven of the phrase "with your mouth".
