Open Ceilings Women Of Power Outside The Paradigm:

Open Ceilings Connie Miller Burton,1995-09-01 **Michelangelo's Secret Anatomy Book** Sue Tatem,2013-07-18

Michelangelo used images of human anatomy throughout his work Nearly the entire body is there albeit in pieces Michelangelo began his career with extensive dissections of human corpses and ended his career talking about illustrating an anatomy book He was hinting as the anatomy was already there in his art Perhaps at the time he made the art he worried that it was too dangerous for his own person to reveal the secular anatomy theme At the time Renaissance scholars were studying human anatomy and trying to work out how the organs functioned Many of them like Leonardo da Vinci and Vesalius self published using their art Herein are some of Michelangelo s self published contributions human anatomy in his art and self portraits in the Sistine Chapel paintings and sculpture **Who's Who of American Women 2004-2005** Inc. Marquis Who's Who,Who's Who Marquis,2004-06 A biographical dictionary of notable living women in the United States of America *Communicative Understandings of Women's Leadership Development* Elesha L. Ruminski,Annette Holba,2012-01-01 *Communicative Understandings of Women s Leadership Development From Ceilings of Glass to Labyrinth Paths* edited by Elesha L Ruminski and Annette M Holba intertwines the disciplines of communication studies leadership studies and women s studies to offer theoretical and practical reflection about women s leadership development in academic organizational and political contexts Women s leadership development exists at the intersection of consciousness raising communication competence and education to increase one s knowledge and practice of leadership which makes the weaving together of these three disciplines important Thus *Communicative Understandings of Women s Leadership Development* claims a space for women s leadership studies and acknowledges the paradigmatic shift from discussing women s leadership using the glass ceiling phenomenon to what Eagly and Carli 2007 identify as the labyrinth of leadership Recognizing this metaphoric shift is crucial because many women now develop leadership amid the postmodern flux of organizational change hierarchical top down systems are being eroded in lieu of transformational collaborative even improvisational leadership processes Women s leadership studies is emerging as a fruitful interdisciplinary area that reframes the debate about whether we live work and learn within a third wave feminist or post feminist context While this area might include feminist theorizing it also might not emphasize such epistemologies For this reason Ruminski and Holba s edited collection explores and highlights a variety of feminist and non feminist intersections and is thus an important and timely contribution to both marking where we are with women s leadership development in higher education and how women can further develop themselves as leaders *Women, Power, and the Academy* Mary-Louise Kearney,2000 Many nations affirm the principle of gender equality As women continue to advance in most walks of life the impression that equality has been reached and that gender issues no longer pose real problems has naturally gained ground Yet many cultural economic and social barriers remain Although as many women as men possess the skills necessary to shape social and economic development women are

still prevented from fully participating in decision making processes The papers collected in this volume focus on universities as one of the key institutions providing women with the education and leadership skills necessary for their advancement Equally important is the role universities play in the shaping of a society's cultural fabric and consequently of attitudes towards women and their place in society Both aspects are examined in this volume on the basis of a number of case studies carried out in western and non western societies IJER Vol 14-N4 International Journal of Educational Reform,2006-04-25 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world

Mind the Backlash: Gender Discrimination and Sexism in Contemporary Societies Hilde Coffe, Susan Banducci, Marta Fraile, Jessica Fortin-Rittberger, Amy Alexander, 2023-09-26 Decades of campaigns and policy efforts have brought significant progress in women s economic and political status and pushed gender equality up the global policy agenda The goal of gender equality however still remains largely out of reach as illustrated by the recent wave of women s protests against sexual harassment assault and gender violence e g MeToo movement Some European countries e g Poland Hungary and Lithuania have even seen their performance on gender equality backslide in recent years and in parallel to calls for increased equality a wave of mobilisation against gender equality has appeared in the public discourse Conservative authoritarian and populist voices in many democracies are now contesting the equal participation of men and women in society under the auspices of a war on gender ideology This backlash against women s empowerment carries considerable implications for anti discrimination laws policies protecting women against domestic violence reproductive health and the establishment of gender quotas Given the backlash against gender observed in various countries around the globe we argue that now is a critical time to revisit and

broaden our knowledge about gender discrimination gender equality and sexism Our proposed Research Topic will provide a gender perspective to illustrate and understand the recent illiberal turn in politics in a variety of contexts Taking a comparative approach we aim at improving our understanding of how sexism discrimination and gender equality operate at the societal level and how they shape broader social and political views At the individual level we will study the current seemingly opposing forces for and against gender equality by analysing the antecedents predispositions experiences and motivations explaining and underpinning these attitudes towards different ways of gender equality sexism and discrimination
