Heritage Conservation and Recreation Service,1978 *National Urban Recreation Study*,1978 **Saving Spaces** John H. Sprinkle, Jr.,2018-07-17 Saving Spaces offers an historical overview of the struggle to conserve both individual parcels of land and entire landscapes from destruction in the United States John Sprinkle Jr identifies the ways in which the identification evaluation and stewardship of selected buildings and landscapes reflect contemporary American cultural values Detailed case studies bring the text to life highlighting various conservation strategies and suggesting the opportunities challenges and consequences of each Balancing close analyses with a broader introduction to some of the key issues of the field Saving Spaces is ideal for students and instructors of historic preservation **A Land Use Decision Methodology for Environmental Control** Kirk Wickersham,Roger P. Hansen,Albert G. Melcher,1975 **Urban Transportation Research and Planning, Current Literature**,1971 **EPA-600/5**,1974-02 **MetroGreen** Donna Erickson,2012-09-26 In metropolitan areas across the country you can hear the laments over the loss of green space to new subdivisions and strip malls But some city residents have taken unprecedented measures to protect their open land and a growing movement seeks not only to preserve these lands but to link them in green corridors Many land use and urban planning professionals along with landscape architects and environmental advocates have joined in efforts to preserve natural areas MetroGreen answers their call for a deeper exploration of the latest thinking and newest practices in this growing conservation field In ten case studies of U S and Canadian cities paired for comparative analysis Toronto and Chicago Calgary and Denver and Vancouver and Portland among them Erickson looks closely at the motivations and objectives for connecting open spaces across metropolitan areas She documents how open space networks have been successfully created and protected while also highlighting the critical human and ecological benefits of connectivity MetroGreen s unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation Studies in Environment Maury Selden,Lynn G. Llewellyn,1973 **Dictionary Catalog of the Department Library** United States. Department of the Interior. Library,1969 U.S. Environmental Protection Agency Library System Book Catalog United States. Environmental Protection Agency. Library Systems Branch,1975 *The Bulldozer in the Countryside* Adam Rome,2001-04-23 The concern today about suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic *The Bulldozer in the Countryside*

was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl **Housing and Planning References** ,1972 *Studies in Environment* Benno Kimmelman,1973 **FWS/OBS.** ,1978 **Trends** ,1978 *Planning, Current Literature* ,1970
