In this book, music intersects with wellness and aging as humans adapt to life changes, stay engaged, remain creative, and achieve self-actualization. Along with discussion of cutting-edge research, the book presents stories and interviews from everyday people as well as professional and non-professional musicians. It discusses individual and social wellness, age-related and pathological changes in health, music therapies, personal resilience and growth, interpersonal and community relationships, work and retirement, spirituality, and the psychology of aging.
