Quest for Self-Love J.D. Rockefeller, 2015-11-23 Hate those big brown eyes Wrinkled skin And not so great body physique SELF ACCEPTANCE is what you need Accept the way you are PERIOD Otherwise it can hold you back from becoming an improved version of yourself Now the question is do you accept who you are This is one of the questions that many people find hard to answer If not cling to hope because self acceptance is something that can be nurtured There's no any part of you and your body that you should feel dreaded of because every single detail of you is totally unique and that's what makes you perfect However self improvement is also one of the limelight of self acceptance In order to keep climbing the ladder to self success an individual needs to love his or her full existence Self acceptance can serve as an individual stepping stone towards developing one's life It does not necessarily mean that we have to be stagnant in what we have and what we are As we all know no one is perfect Therefore there would always be a room for self improvement As a rule we must break boundaries that hinder us from taking the path towards having a progressive version of ourselves In this document brace yourself to a newer height of self acceptance self improvement and self love as you reflect and ponder on the sheer power of positive affirmations for a dramatic transformation of your viewpoints in life
