Banks, Matthew B. Cox, Caroline Dadas, 2019-04-15 *Re Orienting Writing Studies* is an exploration of the intersections among queer theory rhetoric and research methods in writing studies Focusing careful theoretical attention on common research practices this collection demonstrates how queer rhetorics of writing composing textual analysis history assessment and embodiment identity significantly alter both methods and methodologies in writing studies The chapters represent a diverse set of research locations and experiences from which to articulate a new set of innovative research practices While the humanities have engaged queer theory extensively research methods have often been hermeneutic or

interpretive At the same time social science approaches in composition research have foregrounded inquiry on human participants but have often struggled to understand where lesbian gay bisexual transgender and queer people fit into empirical research projects Re Orienting Writing Studies works at the intersections of humanities and social science methodologies to offer new insight into using queer methods for data collection and queer practices for framing research Contributors Chanon Adsanatham Jean Bessette Nicole I Caswell Michael J Faris Hillery Glasby Deborah Kuzawa Maria Novotny G Patterson Stacey Waite Stephanie West Puckett **Loves Immortal Dream of World Peace** SeaJay

How to Suppress Women's Writing Joanna Russ,2018-04-17 Are women able to achieve anything they set their minds to In How to Suppress Women s Writing award winning novelist and scholar Joanna Russ lays bare the subtle and not so subtle strategies that society uses to ignore condemn or belittle women who produce literature As relevant today as when it was first published in 1983 this book has motivated generations of readers with its powerful feminist critique What is it going to take to break apart these rigidities Russ s book is a formidable attempt It is angry without being self righteous it is thorough without being exhausting and it is serious without being devoid of a sense of humor But it was published over thirty years ago in 1983 and there s not an enormous difference between the world she describes and the world we inhabit Jessa Crispin from the foreword A book of the most profound and original clarity Like all clear sighted people who look and see what has been much mystified and much lied about Russ is quite excitingly subversive The study of literature should never be the same again Marge Piercy Joanna Russ is a brilliant writer a writer of real moral passion and high wit Adrienne Rich

The Cambridge Companion to Gay and Lesbian Writing Hugh Stevens,2011 In the last two decades lesbian and gay

studies have transformed literary studies The Cambridge Companion to Gay and Lesbian Writing introduces readers to important concepts methods and cultural and historical debates relevant to the study of sexuality and literature The In-between of Writing Eleanor Honig Skoller,1993 Examines works by three very different writers to explore the relation of experience to literary experiment *Plato, Derrida, and Writing* Jasper Neel,2016-05-14 Winner Mina P Shaughnessy Prize Achieving the remarkable feat of linking composition theory deconstruction and classical rhetoric this book has been admirably summarized by the theorist G Douglas Atkins who writes This lively and engaging informed and informative book constitutes an important contribution Though its field is most obviously composition composition theory and pedagogy part of its importance derives from the way it transcends disciplinary boundaries to bear on writing in general I know of no book that so fully and well discusses and evaluates the implications of deconstruction for composition and pedagogy That it goes beyond deconstruction rather than merely applying it increases its importance and signals a clear contribution to the understanding of writing Jasper Neel analyzes the emerging field of composition studies within the epistemological and ontological debate over writing precipitated by Plato who would have us abandon writing entirely and continued by Derrida who argues that all human beings are written This book offers a three part exploration of that debate In the first part a deconstructive reading of Plato s Phaedrus Neel shows the elaborate sleight of hand that Plato must employ as he uses writing to engage in a semblance of spoken dialogue The second part describes Derrida s theory of writing and presents his famous argument that the history of truth of the truth of truth has always been the debasement of writing and its repression outside full speech A lexicon of nine Derridean terms the key to his theory of writing is also included At the end of this section Neel turns deconstruction against itself demonstrating that Derridean analysis collapses of its own weight The concluding section of the book juxtaposes the implications of Platonic and Derridean views of writing warning that Derrida s approach may lock writing inside philosophy The conclusion suggests that writing may be liberated from philosophical judgment by turning to Derrida s predecessors the sophists particularly Protagoras and Gorgias Drawing on Protagoras s idea of strong discourse Neel shows that sophistry is the foundation of democracy Strong discourse is public discourse which though based on probability and not truth remains persuasive over a long period of time to a great number of people This publicly tested discourse exists only among competitors never alone but its ability to remain persuasive even when surrounded by other discourses enables the ideas of democracy to emerge and then keeps democracy alive Skimmed Books About Writing vol.1 C.S.
