Opening Up Education Toru Iiyoshi, M.S. Vijay Kumar, 2010-09-24 Experts discuss the potential for open education tools resources and knowledge to transform the economics and ecology of education Given the abundance of open education initiatives that aim to make educational assets freely available online the time seems ripe to explore the potential of open education to transform the economics and ecology of education Despite the diversity of tools and resources already available from well packaged course materials to simple games for students self learners faculty and educational institutions we have yet to take full advantage of shared knowledge about how these are being used what local innovations are emerging and how to learn from and build on the experiences of others Opening Up Education argues that we must develop not only the technical capability but also the intellectual capacity for transforming tacit pedagogical knowledge into commonly usable and visible knowledge by providing incentives for faculty to use and contribute to open education goods and by looking beyond institutional boundaries to connect a variety of settings and open source entrepreneurs These essays

by leaders in open education describe successes challenges and opportunities they have found in a range of open education initiatives They approach from both macro and micro perspectives the central question of how open education tools resources and knowledge can improve the quality of education The contributors from leading foundations academic institutions associations and projects discuss the strategic underpinnings of their efforts first in terms of technology then content and finally knowledge They also address the impact of their projects and how close they come to achieving a vision of sustainable transformative educational opportunities that amounts to much more than pervasive technology Through the support of the Carnegie Foundation for the Advancement of Teaching an electronic version of this book is openly available under a Creative Commons license at The MIT Press Web site <http://mitpress.mit.edu> Contributors Richard Baraniuk Randy Bass Trent Batson Dan Bernstein John Seely Brown Barbara Cambridge Tom Carey Catherine Casserly Bernadine Chuck Fong Ira Fuchs Richard Gale Mia Garlick Gerard Hanley Diane Harley Mary Huber Pat Hutchings Toru Iiyoshi David Kahle M S Vijay Kumar Andy Lane Diana Laurillard Stuart Lee Steve Lerman Marilyn Lombardi Phil Long Clifford Lynch Christopher Mackie Anne Margulies Owen McGrath Flora McMartin Shigeru Miyagawa Diana Oblinger Neeru Paharia Cheryl Richardson Marshall Smith Candace Thille Edward Walker David Wiley *The American and English Encyclopaedia of Law* David Shephard Garland, Lucius Polk McGehee, James Cockcroft, 1907 *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954*, 1990 *Everybody's Magazine*, 1922 **An Essay on the Archaeology of Popular English Phrases and Nursery Rhymes** John Bellenden Ker, 1834 **Message from . . . the Governor General, with Reports on Geological Survey Presented to the Legislative Assembly ...** Geological Survey of Canada, 1873 Vols for 1853 56 1877 78 1882 84 include atlases **Talent Development, Existential Philosophy and Sport** Kenneth Aggerholm, 2014-12-05 Why don't young athletes in sport just quit Starting with this question and drawing on existential philosophy phenomenology and hermeneutics *Talent Development Existential Philosophy and Sport* seeks a deeper understanding of the experience of being a talented young sportsperson striving to become an elite athlete As an alternative to conventional approaches to talent development governed by a worldview of instrumental rationality the book introduces key ideas from educational philosophy to describe talent development through the concept of elite Bildung It pursues an existential understanding of developing in sport as a process of freedom self transcendence striving for excellence and building up habits The book highlights a range of ambiguous and intriguing existential phenomena most prominently wonder question expression humour and repetition and reveals an existential layer of meaning within talent development in sport which can facilitate the process of becoming an elite athlete and give young athletes a number of reasons not to quit By deepening our understanding of performance and development in sport and the process of becoming an elite player this book is important reading for any serious student or researcher working in the philosophy of sport sports coaching sports development sport psychology or applied sport science **Competence Management for Open Innovation** Joachim

Hafkesbrink, H. Ulrich Hoppe, Johann H. Schlichter, 2010 Medium and small sized enterprises are increasingly reliant on innovation to be successful A new paradigm to exploit joint forces for creating innovative products and services is Open Innovation in which companies open specific phases of their innovation process to collaboration with others in order to profit from novel ideas or alternative external paths to market Especially in the field of the digital economy which is highly innovation driven successful examples of value creating open partnerships can be found customers researchers or partners join the innovation process and thus may complement a necessary competency portfolio that a single company may be unable to provide Managing and facilitating Open Innovation processes does however require appropriate competencies and experiences In that regard support in terms of infrastructure and analytical frameworks can be very helpful and even necessary This book includes theories tools and support mechanisms that were presented at the International Symposium on Support for Open Innovation processes Researchers and practitioners active in the field of Open Innovation describe their experiences and ideas in this area The first part of the book elucidates several approaches to support the management of Open Innovation processes Special attention is given to the topics of competence development and management awareness and the reputation of Open Innovation community members and the implementation of the Open Innovation paradigm in enterprises Furthermore social software based services to foster and facilitate the Open Innovation process are proposed The second part of the book focuses on case studies in Open Innovation conducted within SMEs in the digital economy sector Three case studies on Web 2.0 learning Open Source Innovation and Virtual Worlds platforms are introduced and analysed with theoretical frameworks that are described in the first part of the book
