Opera Quae Exstant Omnia Prosaica

Kees Teszelszky

Opera Quae Exstant Omnia Prosaica:

The Holy Crown and the Hungarian Estates Kees Teszelszky, 2023-04-17 This book is about one of the most important elements of the political narratives in the history of Hungary in past and present the Holy Crown of Hungary. This object is one of the most widely used symbols of modern Hungarian nationalism in our times and has been in use for ages in political culture. Surprisingly less is known how the meaning of the crown has changed over the centuries and how this influenced the development of national identity in the early modern period. Starting point is that the medieval doctrine of the holy crown is a modern invention. Teszelszky's research concentrates on the relation between the change in the meaning of this crown and the construction of an early modern national identity between 1572 and 1665. Using a constructivist method of research the author shows how the Habsburg ruler and the Hungarian estates legitimised their political program through an image of the crown and the Hungarian political community. In a short period between the end of 1604 and 1613 during a rebellion in Hungary a war with the Ottomans and a strife between Emperor Rudolf II and his brother Archduke Matthias the medieval tradition of the holy crown was revived and redeveloped by Hungarian and foreign historiographers into an ideology which is still present today.

A Divided Hungary in Europe Gábor Almásy, 2015-01-12 Despite fragmentation heterogeneity and the continuous pressure of the Ottoman Empire early modern divided Hungary witnessed a surprising cultural flourishing in the sixteenth century and maintained its common cultural identity in the seventeenth century. This could hardly have been possible without intense exchange with the rest of Europe. This three volume series about early modern Hungary divided by Ottoman presence approaches themes of exchange of information and knowledge from two perspectives namely exchange through traditional channels provided by religious educational institutions and the system of European study tours. Volume 1 Study Tours and Intellectual Religious Relationships and the less regular channels and improvised networks of political diplomacy. Volume 2 Diplomacy Information Flow and Cultural Exchange. A by product of this exchange of information was the changing image of early modern Hungary and Transylvania which is presented in the third and in some aspects concluding volume of essays. Volume 3 The Making and Uses of the Image of Hungary and Transylvania. Unlike earlier approaches to the same questions these volumes draw an alternative map of early modern Hungary. On this map the centre periphery conceptions of European early modern culture are replaced by new narratives written from the perspective of historical actors and the dominance of Western Hungarian relationships is kept in balance due to the significance of Hungary's direct neighbours most importantly the Ottoman Empire.

The Kingdom of Hungary and the Habsburg Monarchy in the Sixteenth Century Géza Pálffy, 2009 G za P lffy traces the complex relations between Hungary and the Habsburgs including the integration of the country into a conglomerate central European state ruled from Vienna and Prague. Focusing on institutions and symbols of sovereignty P lffy demonstrates how Hungary was integrated into a larger monarchy yet at the same time preserved its independence and

the power and influence of its upper estates Her argument challenges the traditional view that early modern Hungary resisted and rebelled against the Hapsburgs **Quae extant omnia opera** Quintus Horatius Flaccus,1831 *Caii Cornelii Taciti Opera quae extant omnia* Publius Cornelius Tacitus,1843 **Quae extant Opera omnia** Ovidius Naso,1824 Quae extant omnia opera Marcus Tullius Cicero,1830 **Titi Livii Patavini Opera quae extant omnia ex recensione G.
