Volume 3 Albrecht Classen, 2015-08-31 A follow up publication to the Handbook of Medieval Studies this new reference work turns to a different focus medieval culture Medieval research has grown tremendously in depth and breadth over the last decades Particularly our understanding of medieval culture of the basic living conditions and the specific value system prevalent at that time has considerably expanded to a point where we are in danger of no longer seeing the proverbial forest for the trees The present innovative handbook offers compact articles on essential topics ideals specific knowledge and concepts defining the medieval world as comprehensively as possible The topics covered in this new handbook pertain to issues such as love and marriage belief in God hell and the devil education lordship and servitude Christianity versus Judaism and Islam health medicine the rural world the rise of the urban class travel roads and bridges entertainment games and sport activities numbers measuring the education system the papacy saints the senses death and money **Emperor of the World** Anne A. Latowsky, 2013-02-15 Emperor of the World traces the curious history of the story of the alliances forged by Charlemagne while visiting Jerusalem and Constantinople revealing how the memory of the Frankish Emperor was manipulated to shape the institutions of kingship and empire in the High Middle Ages The legend incorporates apocalyptic themes such as the succession of world monarchies at the End of Days and the prophecy of the Last Roman Emperor Charlemagne's apocryphal journey to the East increasingly resembled the eschatological final journey of the Last Emperor who was expected to end his reign in Jerusalem after reuniting the Roman Empire prior to the Last Judgment Latowsky finds that the writers who incorporated this legend did so to support or in certain cases to criticize the imperial pretensions of the regimes under which

they wrote Latowsky removes Charlemagne's encounters with the East from their long presumed Crusading context and shows how a story that began as a rhetorical commonplace of imperial praise evolved over the centuries as an expression of Christian Roman universalism

Ambiguities of War: A Narratological Commentary on Silius Italicus' Battle of Ticinus (Sil. 4.1-479) Elisabeth Schedel, 2022-09-19 This Narratological Commentary on Silius Battle of Ticinus lays bare the narrative form of the text by addressing numerous narratological aspects including plot development focalization space and intertextuality The book also focuses on the phenomenon of ambiguity with its dynamic processes of un strategic production perception and resolution Ambiguity is a central feature of the Punica because of the epic's constant oscillation between fact and fiction it treats the changing fortunes of war and the tension between Rome and Carthage which Silius translates into a moment of poetical equilibrium by his paradoxical problematization of triumph in defeat and defeat through triumph
