An Encyclopedia of Quotations About Music Nat Shapiro,2012-12-06 Writing about music about what it is and what it means is akin to describing the act of love Somehow the reduction of the experience to an unblushingly detailed exposition of how

where when and why who does what to whom from prelude to resolution loses everything in the translation The other extreme the one wherein the writer in desperation resorts to metaphor with or without benefit of meter and rhyme most often results in imagery that is banal vulgar inane obscure pretentious and almost always insufferably romantic To achieve good and accurate writing about music is as rare an accomplishment as expert wine tasting lion taming diamond cutting truffie finding and if one just happens to be an unconverted Mohican brave deer tracking Only the intuitive the pure the sensual and the intrepid need apply Professional musicians often evidence a fixed tendency either to rudely ignore or else to actively despise those of us who bravely try to understand define and describe their art To many composers and instrumentalists those outsiders nonmusicians who have the temerity to discuss anything more abstract than the digital dexterity of a fiddler the particular vanity of a conductor or the wage scales for overtime recording sessions are judged worthy only of contempt or at the most patronizing tolerance Music means itself insists one of the contributors to the collection that follows and many practitioners of the art of organized sound would prefer to leave it at that
