Operation Babylon Jewish Clandestine Activity In The Middle East 1946 51

ראובן שניר

Operation Babylon Jewish Clandestine Activity In The Middle East 1946 51:

An Alliance Against Babylon John K. Cooley, 2005-02-20 The ruins of ancient Babylon still stand in Iraq They are a reminder that today's conflict is only one of many that have engulfed the country and the wider Middle East over the centuries John Cooley a former correspondent for ABC News and the Christian Science Monitor argues that America's new invasion and occupation of Iraq marks a turning point in the West's relationship with the Arab world and alters the balance of power within the Middle East He argues that the crucial factor in this new development is the relationship between Israel and the United States Examining today's problems from this unique perspective Cooley covers a broad sweep of history from biblical Babylonian times until now He shows how US and Israeli interests in the Middle East were contradictory at first He explains how and why the US-Israel alliance gradually evolved Drawing from unpublished sources as well as from John Cooley's personal encounters with principal players such as David ben Gurion the Shah of Iran Anwar al Sadat King Hussein of Jordan and Saddam Hussein himself this book gives a uniquely valuable perspective on the complex history of Iraq and why it continues to be at the heart of world affairs

Anglo-American Diplomacy and the Palestinian Refugee Problem, 1948-51 S. Waldman, 2016-01-12 This volume examines British and US attitudes towards the means and mechanisms for the facilitation of an Arab-Israeli reconciliation focusing specifically on the refugee factor in diplomatic initiatives It explains why Britain and the US were unable to reconcile the local parties to an agreement on the future of the Palestinian refugees

In Ishmael's House Martin Gilbert, 2010-08-24 From one of the most popular historians writing today comes a book as fascinating as the bestsellers of Karen Armstrong and Reza Aslan In this captivating chronicle Martin Gilbert shines new light on a controversial dilemma in the modern world the troubled relationship between Jews and Muslims Beginning at the dawn of Islam and sweeping from the Atlantic Ocean to the mountains of Afghanistan Gilbert presents the first popular and authoritative history of Jewish peoples under Muslim rule He confronts with wisdom and compassion the stormy events in their dramatic story including anti-Zionist movements and the forced exodus to Israel He also gives special attention to the twentieth century and to the current political debate about refugee status and restitution Throughout Gilbert weaves a compelling narrative of perseverance struggle and renewal marked by surprising moments of tolerance and partnership A monumental and timely book *Jews under Muslim Rule* is a crowning achievement that confirms Martin Gilbert as one of the foremost historians of our time

The Arabs and the Holocaust Gilbert Achcar, 2010-04-13 An unprecedented and judicious examination of what the Holocaust means and doesn't mean in the Arab world one of the most explosive subjects of our time There is no more inflammatory topic than the Arabs and the Holocaust the phrase alone can occasion outrage The terrain is dense with ugly claims and counterclaims one side is charged with Holocaust denial the other with exploiting a tragedy while denying the tragedies of others In this pathbreaking book political scientist Gilbert Achcar explores these conflicting narratives and considers their role in today's Middle East dispute He analyzes the various Arab

responses to Nazism from the earliest intimations of the genocide through the creation of Israel and the destruction of Palestine and up to our own time critically assessing the political and historical context for these responses Finally he challenges distortions of the historical record while making no concessions to anti-Semitism or Holocaust denial Valid criticism of the other Achcar insists must go hand in hand with criticism of oneself Drawing on previously unseen sources in multiple languages Achcar offers a unique mapping of the Arab world in the process defusing an international propaganda war that has become a major stumbling block in the path of Arab Western understanding **Three Worlds** Avi Shlaim, 2023-06-08 In July 1950 Avi Shlaim only five and his family were forced into exile fleeing their beloved Iraq to the new state of Israel Remarkable Max Hastings THE SUNDAY TIMES Today the once flourishing Jewish community of Iraq at one time numbering over 130 000 and tracing its history back 2 600 years has all but vanished Why so One explanation speaks of the timeless clash between Arab and Jewish civilisations and a heroic Zionist mission to rescue Eastern Jews from backward nations and unceasing persecution Avi Shlaim tears up this script His parents had many Muslim friends in Baghdad and no interest in Zionism As anti-Semitism surged in Iraq the Zionist underground fanned the flames Yet when Iraqi Jews fled to Israel they faced an uncertain future their history was rewritten to serve a Zionist narrative This memoir breathes life into an almost forgotten world Weaving together the personal and the political Three Worlds offers a fresh perspective on Arab Jews caught in the crossfire of Zionism and nationalism A TLS AND NEW STATESMAN BOOK OF THE YEAR 2023 A NOVARA BEST BOOK OF 2024 A beautifully written book which artfully blends the personal with the political Justin Marozzi SPECTATOR Three Worlds by the Oxford historian of the modern Middle East Avi Shlaim is an often enchanting memoir of his childhood in Baghdad A gripping account A lost world in Iraq is brilliantly brought back to life in this fascinating memoir David Abulafia FINANCIAL TIMES *Spies of No Country* Matti Friedman, 2020-02-04 Wondrous Compelling Piercing The New York Times Book Review Award winning writer Matti Friedman's tale of Israel's first spies has all the tropes of an espionage novel including duplicity betrayal disguise clandestine meetings the bluff and the double bluff but it's all true The four spies were young Jewish and born in Arab countries In 1948 at the outbreak of war in Palestine they went undercover in Beirut spending two years running sabotage operations and sending crucial intelligence back home It was dangerous work Of the dozen members of their ragtag unit five would be caught and executed but the remainder would emerge as the nucleus of the Mossad Israel's vaunted intelligence agency Journalist and award winning author Matti Friedman's masterfully told and meticulously researched tale of Israel's first spies reads like an espionage novel but it's all true *Spies of No Country* is about the slippery identities of these spies but it's also about the complicated identity of Israel a country that presents itself as Western but in fact has more citizens with Middle Eastern roots just like the spies of this fascinating narrative **Terrorism and Hostage-taking in the Middle-East** Walid Amin Ruwayha, 1990 Forfatteren der er araber beskriver terrorisme og gidseltagning i Mellem sten Bogens hovedtese er at den egentlige terrorisme er

statsterrorisme ud vet af den vestlige verden anført af USA og Israel

Clipping the Clouds Marc Dierikx, 2008-06-30 Mixing in elements of pop culture Dierikx provides a chronological history of the evolution of air travel He covers the significant challenges and developments in air transportation for a specific period starting with how and why aviation came to play an important role in international politics and economic relations He follows with an examination of how improvements in technology influenced existing concepts of distance created new travel patterns and what effect the growth in numbers of passenger and cargo had on air transportation Finally Dierikx looks at how airlines have become increasingly detached from national interests and state control concluding with an overview of the current state of air travel and a description of the role air transportation played in the creation of a global society At the beginning of the twenty first century it is difficult to imagine our world without aircraft Airplanes are everywhere and rapid air transport has become one of the necessities of our time Yet one of the peculiarities of powered flight is that it has stayed in the public focus for over a century *Clipping the Clouds* looks at the history of aviation in a challenging new way covering not just the technology but the way aviation has interacted with society since its very beginnings Mixing in pop culture each chapter opens and closes with an excerpt from a movie that depicts elements of air transport illustrating the chapter's theme Dierikx provides a chronological history of the evolution of air travel since 1919 He covers the significant challenges and developments in air transportation for each of four chronological periods starting with how and why aviation came to play an important role in international politics and economic relations He follows with an examination of how improvements in technology influenced existing concepts of distance created new travel patterns and what effect the growth in numbers of passenger and cargo had on air transportation Finally Dierikx looks at how airlines have become increasingly detached from national interests and state control concluding with an overview of the current state of air travel and a description of the role air transportation has played in the creation of a global society
