Operation Scorpio:

Spinegrinder Clive Davies, 2015-03-06 First came video and more recently high definition home entertainment through to the internet with its streaming videos and not strictly legal peer to peer capabilities With so many sources available today s fan of horror and exploitation movies isn t necessarily educated on paths well trodden Universal classics 1950s monster movies Hammer as once they were They may not even be born and bred on DAWN OF THE DEAD In fact anyone with a bit of technical savvy quickly becoming second nature for the born clicking generation may be viewing MYSTICS IN BALI and S S EXPERIMENT CAMP long before ever hearing of Bela Lugosi or watching a movie directed by Dario Argento In this world H G Lewis so called godfather of gore carries the same stripes as Alfred Hitchcock master of suspense SPINEGRINDER is one man s ambitious exhaustive and utterly obsessive attempt to make sense of over a century of exploitation and cult cinema of a sort that most critics won t care to write about One opinion 8 000 reviews or thereabouts *Drug World* Ronald Barnes, 2012-10-31 The world for JC was inescapable it seemed like the more he ran from the life style of selling drugs the more it came in his life After losing his two sons mother to drug world he fell in love with the woman of his dreams He thought he was off to a beautiful future with his family until his past caught up with him and sent him to prison After prison that dreadful life style that he feared came in his life like a quiet storm Before he could realize what had happen to his life after prison he was caught up in drug world and couldnt get out The drug world is a heartless and selfish business it has no respect for life or anything in it This book does not sugar coat any aspect of this life style at any level what so ever its the plain truth and if you think for one minute you can stand the test of time in drug world Youre a fool because the life style aint nothing but sadness and pain **Security** Howard Safir, Ellis Whitman, 2004-10-01 From counterterrorism to tracking criminals by satellite Security gives an expert s tour of twenty first century law enforcement Former NYPD commissioner Howard Safir reveals the tools methods and science that police officers use to reduce crime and track and apprehend criminals including surveillance crime scene evidence DNA profiling narcotics and quality of life enforcement With the dedication of 40 000 police officers and using these tools over the last four years of the Giuliani administration the NYPD under Safir was able to decrease the crime rate in New York City to a level not seen since the 1960s with major crimes reduced by over a third and the murder rate cut almost in half To illustrate the law enforcement successes in New York Safir uses real life crime stories to outline the tactics used by the Zodiac Killer the investigation of Sante and Kenneth Kimes for the murder of socialite Irene Silverman and the apprehension of the killers responsible for the massacre at a Wendy s in Queens And Safir gives a behind the scenes look at some of the NYPD s more recent controversies including the shooting of Amadou Diallo and the assault on Haitian immigrant Abner Louima But Security is more than a look into the inner workings of the NYPD This book gives valuable insight into how methods of law enforcement are needed to prevent terrorism drawing on the NYPD s experience catching two potential subway bombers to protect our homeland with a precise look at the USA

Patriot Act and biometric technologies and to keep our streets and homes safe from Safir's Model Block Program to CompStat to the controversial yet successful Street Crime Unit In these troubling times of terror warnings and high alert levels Security is a clear-eyed look at police tactics and an important citizen's guide to the role that law enforcement on all levels plays in our daily lives

The New Medical Astrology Mario Kertscher, 2025-02-25 The teaching of a New Medical Astrology is an attempt to bring medicine and astrology closer together again While medicine has continued to develop and gain new insights into the organs classical medical astrology has hardly developed at all in the last 2000 years since the doctrine that Aries begins with the head and Pisces ends with the feet After 40 years of thorough research the New Medical Astrology is now based on 12 vital organ systems within the head and torso which correspond to the 12 signs of the zodiac Unlike in Hippocrates time more than 2000 years ago the arms and legs do not play a major role in the new classification as they do not represent vital organs This work is a new connection between the psychological astrology human anatomy psychosomatics and eye diagnosis This textbook forms the basis for learning astrology New Medical Astrology and at the same time forms a bridge to the psychosomatic explanations of illnesses in relation to the individual zodiac signs The intention was to write a textbook in an easily understandable way and to avoid confusing foreign or technical terms that too difficult to understand This makes it equally suitable for learning teaching or just exploring for both young and old explorers of astrology
