The Future of African Peace Operations Cedric De Coning, Linnéa Gelot, John Karlsrud, 2016-03-15 Facing threats ranging from Islamist insurgencies to the Ebola pandemic African regional actors are playing an increasingly vital role in safeguarding peace and stability across the continent But while the African Union has demonstrated its ability to deploy forces on short notice and in difficult circumstances the challenges posed by increasingly complex conflict zones have revealed a widening divide between the theory and practice of peacekeeping With the AU's African Standby Force becoming fully operational in 2016 this timely and much needed work argues that responding to these challenges will require a new and distinctively African model of peacekeeping as well as a radical revision of the current African security framework The first book to provide a comprehensive overview and analysis of African peace operations *The Future of African Peace Operations* gives a long overdue assessment of the ways in which peacekeeping on the continent has evolved over the past decade It will be a vital resource for policy makers researchers and all those seeking solutions and insights into the immense security challenges which Africa is facing today

We Few Nick Brokhausen, 2018-04-03 A Green Beret's gripping memoir of American Special Forces in Southeast Asia during the Vietnam War. In 1970 on his second tour to Vietnam, Nick Brokhausen served in Recon Team Habu. CCN Officially it was known as the Studies and Observations group. In fact, this Special Forces squad which Brokhausen calls an unwashed profane ribald joyously alive fraternity undertook some of the most dangerous and suicidal reconnaissance missions ever in the enemy-controlled territory of Cambodia and Laos. But they didn't infiltrate the jungles alone. They fought alongside the Montagnards, oppressed minorities from the mountain highlands trained by the US military in guerilla tactics, armed, accustomed to the wild and fully engaged in a war against the North Vietnamese. Together, this small unit formed the backbone of ground reconnaissance in the Republic of Vietnam, racking up medals for valor but at a terrible cost. In colorful military jargon laced prose leavened by gallows humor, Brokhausen pulls few punches describing what it was like to navigate remote jungle terrain under the constant threat of enemy fire. A smartly written insider's view of one rarely seen Vietnam War battleground.

Booklist An exceptionally raw look at the Vietnam War just at the apex of its unpopularity. This battle-scarred memoir is an excellent tribute to the generation that fought, laughed and died in Southeast Asia.

Rhodesian Air Force Operations Preller Geldenhuys, 2014-11-29 This book records the operations of the Rhodesian Air Force. It includes a log of over 1100 airstrikes carried out as well as maps where most of these strikes have been meticulously plotted. The maps are in full colour. Numerous photographs illustrate the text. The author has produced a comprehensive account of the Air Force role in the war in Rhodesia, Zimbabwe. The work includes one of the most detailed summaries of Rhodesian military operations to have been published and in this respect serves as an excellent work or reference to those historians and collectors of militaria. It is a book that fills in much detail. A comprehensive index is included. To the very end, the Air Force kept up its valiant task of securing the airspace for the troops, the BSAP, the farmers and industry. All in all, this is a highly readable, extremely detailed account of the Air Force's part in the war against terrorism.

Zawadi Esther N. Mwangi, 2006-10-14 Zawadi was right: a puny woman who was still a political armature operating from the equally punitive Zanzibar would not have interested a mighty giant like America. There was a deeper reason for their interest in Africa in general that went far before Zawadi's time. In a futuristic world, an extraordinary woman named Zawadi becomes the first president of a united Africa. She lives in an undated anything-goes era during which the world is inundated by transgenic madness. Zawadi discovers that America, in cahoots with Argentinean Mafiosi, hired her best friend to try and stop Zawadi from becoming president. But their reasons are economical: vast oil deposits caused by a shift of the earth's crust have collected underneath Africa. Coveting this oil wealth, America wants to hasten the formation of a world government. Can Zawadi successfully lead her country through this global challenge? Replete with futuristic technologies including laser-operated pest control and air crafts that have a capacity to stop in midair, Zawadi takes an
