Series: Implosion Of Corruption Elias Do Amaral Viana, 2024-02-13 That s an excellent question Each ending presents a unique narrative and a different perspective on the events of the Corruption Implosion series It is up to readers and viewers to reflect on the developments presented in each ending and decide which resonates most with their own convictions and interpretations of events The first ending with the arrest of The Myth it can be seen as a demonstration of justice being done and the holding of a powerful figure accountable for his actions This can send a message that no one is above the law regardless of their status or political power The second ending with The Guy being arrested again and a popular uprising against his dictatorship it highlights the dangers of authoritarianism and the importance of constant vigilance by civil society to protect democracy The third ending with the arrest of Supreme Court Ministers The Greek being the first suggests a rupture in the judicial system and the exposure of a network of corruption that reached the highest levels of power This can be interpreted as a call for reform and renewal of democratic institutions Each finale offers a unique insight into the current state of politics and justice in Brazil and it is up to viewers to decide which resonates most with their worldview and their hopes for the country s future Pastor and Writer Elias do Amaral Viana

Pacifying the Homeland Brendan McQuade, 2019-08-06 The United States has poured over a billion dollars into a network of interagency intelligence centers called fusion centers These centers were ostensibly set up to prevent terrorism but politicians the press and policy advocates have criticized them for failing on this account So why do these security systems persist Pacifying the Homeland travels inside the secret world of intelligence fusion looks beyond the apparent failure of

fusion centers and reveals a broader shift away from mass incarceration and toward a more surveillance and police intensive system of social regulation. Provided with unprecedented access to domestic intelligence centers, Brendan McQuade uncovers how the institutionalization of intelligence fusion enables decarceration without fully addressing the underlying social problems at the root of mass incarceration. The result is a startling analysis that contributes to the debates on surveillance, mass incarceration, and policing and challenges readers to see surveillance, policing, mass incarceration, and the security state in an entirely new light. Criminal-States and Criminal-Soldiers Robert J. Bunker, 2014-05-01. The United States and her allies have found themselves plunged into a war over humanity's future social and political organization with criminal challengers to the nation state form. These new wars are currently being fought globally with Al Qaeda in Iraq with shifting coalitions of criminal gangs, insurgents, and Jihadi groups and throughout the Americas with the Maras, the first group of 3rd GEN Gangs to emerge. More new wars are poised to develop and the on going ones are far from over with more attacks upon the homelands of the US and her allies expected. This cutting edge book looks initially at the theoretical and legal side of criminal state and criminal soldier emergence and growth before focusing on criminal states and criminal soldiers themselves with particular attention paid to Al Qaeda, Hizballah, Mara Salvatrucha, MS-13, Caliphate, and Mahdi. Concerns Islamic Fundamentalist Use of Beheadings, Criminalization of Russian State Security, Nuclear Materials Trafficking, and Outlaw Private Security Firms. With the contributions from international experts, this book makes for critical reading for political scientists and criminal justice students and researchers, policy makers, and military and law enforcement practitioners. This book was previously published as a special issue of *Global Crime*. **FBI Law Enforcement Bulletin**, 2009.

Tax Politics and Policy Michael Thom, 2017-02-03. Taxes are an inescapable part of life. They are perhaps the most economically consequential aspect of the relationship between individuals and their government. Understanding tax development and implementation, not to mention the political forces involved, is critical to fully appreciating and critiquing that relationship. *Tax Politics and Policy* offers a comprehensive survey of taxation in the United States. It explores competing theories of taxation's role in civil society, investigates the evolution and impact of taxes on income, consumption, and assets, and highlights the role of interest groups in tax policy. This is the first book to include a separate look at sin taxes on tobacco, alcohol, marijuana, and sugar. The book concludes with a look at tax reform ideas, both old and new. This book is written for a broad audience, from upper level undergraduates to graduate students in public policy, public administration, political science, economics, and related fields, and anyone else that has ever paid taxes. Compilation of Hearings on Islamist Radicalization. United States. Congress. House. Committee on Homeland Security, 2012.

Religious Wave Dana AlThani, 2017-04-13 Radical Islam is usually only seen through the eyes of outsiders Whether in the newspaper on television or in social media the face of radical Islam is portrayed as a zealous insurgent destined to spread terror and suffering But for one man seeking the will of God his path was simply a dream to become holy Religious Wave A Radical Islamists Journey to Peace shares an insiders view of the personal testimony of Hassana man who wished otherwise but found himself destined to follow a road to radicalism From a young life in Lebanon to terrorist training camps in Iraq Hassans journey was beset with questions of family faith friendship and politics And while his recruitment to a movement shaped his views and implicated him in extreme terrorist acts Hassan took the initiative to alter his views and correct his ways On the outside radical Islam is extreme frightening and revolutionary But for one insider the real revolution would be challenging his apparent destiny and leaving a unique mark that is far from where he began

Blood Profits Vanessa Neumann, 2017-12-05 International smuggling has exploded deepening and accelerating the collaboration of transnational organized crime and terrorist groups. Attacks like the Charlie Hebdo and Bataclan shootings in Paris, the kidnappings and murders by Boko Haram in Nigeria and the San Bernardino shooting were partially funded by seemingly harmless illegal goods such as cheap cigarettes, smuggled oil, prostitution, fake Viagra, fake designer bags, and even bootleg DVDs. But how can this be? In *Blood Profits*, Vanessa Neumann, an expert on dismantling illicit trade, explains how purchasing illegal goods translates to supporting organized crime and terrorists. Neumann shows how the effects of the collapsed Iron Curtain, USSR scientists and intelligence agents left without work, regional trade pacts, the dissipation of the East versus West mentality, and new age technology have all led to an intricate network of illegal trade. She leads the reader through a variety of cases, both by geography and by industry, selecting industries where illicit trade is generally poorly understood, before extracting lessons learned into some policy recommendations that we can all embrace. Harpoon

Nitsana Darshan-Leitner, Samuel M. Katz, 2017-11-07 A revelatory account of the cloak and dagger Israeli campaign to target the finances fueling terror organizations, an effort that became the blueprint for U.S. efforts to combat threats like ISIS and drug cartels. ISIS boasted 2.4 billion of revenue in 2015, yet for too long the global war on terror overlooked financial warfare as an offensive strategy. Harpoon, the creation of Mossad legend Meir Dagan, directed spies, soldiers, and attorneys to disrupt and destroy money pipelines and financial institutions that paid for the bloodshed perpetrated by Hamas, Hezbollah, and other groups. Written by an attorney who worked with Harpoon and a bestselling journalist, Harpoon offers a gripping story of the Israeli-led effort, now joined by the Americans, to choke off the terrorists' oxygen supply: money via unconventional warfare.

Cookbook for a New Europe Richard Segal, 2012-01-12 To serve society or humanity? It's been fourteen years since the basketball mad detective Fran O'Brien captured the urban bomber Lavi, who has since moved to Spain and rehabilitated himself beyond recognition. Fran is fresh off a two-year sabbatical during which he tended to 11-year-old Ben, the family comedian, and 17-year-old Alice, with yes as much attitude as you'd expect. His estranged boss Karl has retired, and Fran must learn to deal with the new brass, no small task itself. His first assignment is to investigate an act of alleged political corruption, which seems more wild goose chase than duck in a barrel, leading him to question his decision to return to work. After an extended family culinary expedition to Budapest, Fran's nine-to-five job takes him almost to Albany and to Central America, where he must untangle the mother of all webs. His wife, local family doctor Darby, goes along for the ride, and oh, pita coladas to die for. For a detective and amateur gourmet chef like no other, *Cookbook for a New Europe* is a ride Fran certainly didn't expect. He's been fiercely focused for years, but a spate of unintended yet momentous events unfolds once he gives free rein to his emotions and his recipes. *An Assessment of the Tools Needed to Fight the Financing of Terrorism*, United States.
