History of United States' *An Army at Dawn* Rick Atkinson, 2007-05-15 WINNER OF THE PULITZER PRIZE AND NEW YORK TIMES BESTSELLER

In the first volume of his monumental trilogy about the liberation of Europe in World War II Pulitzer Prize winner Rick Atkinson tells the riveting story of the war in North Africa The liberation of Europe and the destruction of the Third Reich is a story of courage and enduring triumph of calamity and miscalculation In this first volume of the Liberation Trilogy Rick Atkinson shows why no modern reader can understand the ultimate victory of the Allied powers without a grasp of the great drama that unfolded in North Africa in 1942 and 1943 That first year of the Allied war was a pivotal point in American history the moment when the United States began to act like a great power Beginning with the daring amphibious invasion in November 1942 *An Army at Dawn* follows the American and British armies as they fight the French in Morocco and Algeria and then take on the Germans and Italians in Tunisia Battle by battle an inexperienced and sometimes poorly led army gradually becomes a superb fighting force Central to the tale are the extraordinary but fallible commanders who come to dominate the battlefield Eisenhower Patton Bradley Montgomery and Rommel Brilliantly researched rich with new material and vivid insights Atkinson's narrative provides the definitive history of the war in North Africa

Neptune Craig L. Symonds, 2014-04-10 Seventy years ago more than six thousand Allied ships carried more than a million soldiers across the English Channel to a fifty mile wide strip of the Normandy coast in German occupied France It was the greatest sea borne assault in human history The code names given to the beaches where the ships landed the soldiers have become immortal Gold Juno Sword Utah and especially Omaha the scene of almost unimaginable human tragedy The sea of crosses in the cemetery sitting today atop a bluff overlooking the beaches recalls to us its cost Most accounts of this epic story begin with the landings on the morning of June 6 1944 In fact however D Day was the culmination of months and years of planning and intense debate In the dark days after the evacuation of Dunkirk in the summer of 1940 British officials and soon enough their American counterparts began to consider how and where and especially when they could re enter the European Continent in force The Americans led by U S Army Chief of Staff General George C Marshall wanted to invade as soon as possible the British personified by their redoubtable prime minister Winston Churchill were convinced that a premature landing would be disastrous The often sharp negotiations between the English speaking allies led them first to North Africa then into Sicily then Italy Only in the spring of 1943 did the Combined Chiefs of Staff commit themselves to an invasion of northern France The code name for this invasion was Overlord but everything that came before including the landings themselves and the supply system that made it possible for the invaders to stay there was code named Neptune Craig L Symonds now offers the complete story of this Olympian effort involving transports escorts gunfire support ships and landing craft of every possible size and function The obstacles to success were many In addition to divergent strategic views and cultural frictions the Anglo Americans had to overcome German U boats Russian impatience

fierce competition for insufficient shipping training disasters and a thousand other impediments including logistical bottlenecks and disinformation schemes Symonds includes vivid portraits of the key decision makers from Franklin Roosevelt and Churchill to Marshall Dwight Eisenhower and Admiral Sir Bertram Ramsay who commanded the naval element of the invasion Indeed the critical role of the naval forces British and American Coast Guard and Navy is central throughout In the end as Symonds shows in this gripping account of D Day success depended mostly on the men themselves the junior officers and enlisted men who drove the landing craft cleared the mines seized the beaches and assailed the bluffs behind them securing the foothold for the eventual campaign to Berlin and the end of the most terrible war in human history
