Among the Firsts: Lieutenant Colonel Gerhard L. Bolland's Unconventional War Matthew T. Bolland, 2022-05-19 In his own words the war of the doubly pioneering Lt Col Gerhard L Bolland 82nd Airborne paratrooper on D Day and senior OSS

field operative on Operation Rype Unconventional warfare tactics can have a considerable effect on the outcome of any war During World War II the United States government developed and employed two new methods of fighting The first was the development of paratroop units as they were first called The second was the formation of a covert and sabotage operations branch called the Office of Strategic Services OSS Lt Colonel Bolland was involved in both of these firsts During the D Day invasion he parachuted behind enemy lines jumping out of the 82nd Airborne lead aircraft with General James Gavin After fighting with the 507th Parachute Infantry Regiment for thirty three days straight he returned to England and became involved with the OSS Scandinavian Section He served as Field Commander for their Operation code named Rype This was the only American military undertaking albeit covert in Norway during the entire course of the war As a young boy growing up in rural western Minnesota Bolland got his military start with the Minnesota National Guard before being accepted to West Point solely on merit His military career lasted seventeen years Lt Colonel Bolland ended up with numerous decorations including the Norwegian Liberation Medal and Citation the Bronze Star for valor the French Fouragerre of Croix de Guerre with Palms and posthumously the Congressional Gold medal awarded to the OSS Society on behalf of all former OSS members that served during the war His story reveals the struggles successes failures and ultimate victories detailing what went right and what went wrong with these new unconventional methods of fighting A Covert Affair Jennet Conant, 2011-11 A stunning account of Julia Child's early life as an OSS agent in the Far East **Encyclopedia of United States National Security** Richard J. Samuels, 2006 Covers the origin development and results of all major national security policies over the last seven decades A thoroughly interdisciplinary work the encyclopedia views national security from a historical economic political and technological perspective The Lady Is a Spy: Virginia Hall, World War II Hero of the French Resistance (Scholastic Focus) Don Mitchell, 2019-03-26 The Lady Is a Spy is the audacious and riveting true story of Virginia Hall America's greatest spy and unsung hero brought to vivid life by acclaimed author Don Mitchell When Hitler invaded Poland on September 1 1939 Virginia Hall was traveling in Europe Which was dangerous enough but as fighting erupted across the continent instead of returning home she headed to France In a country divided by freedom and fascism Virginia was determined to do her part for the Allies An ordinary woman from Baltimore MD she dove into the action first joining a French ambulance unit and later becoming an undercover agent for the British Office of Strategic Services Working as part of the intelligence network she made her way to Vichy coordinating Resistance movements sabotaging the Nazis and rescuing Allied soldiers She passed in plain sight of the enemy and soon found herself at the top of their most wanted list But Virginia cleverly evaded discovery and death often through bold feats and daring escapes Her covert operations capture of Nazi soldiers and risky work as a wireless telegraph operator greatly contributed to the Allies eventual win Twenty-First Century Military Innovation Marcus Schulzke, 2022-09-07 Contemporary war is as much a guest for decisive technological organizational and doctrinal superiority before the fighting starts as it is an effort to destroy enemy

militaries during battle Armed forces that are not actively fighting are instead actively reengineering themselves for success in the next fight and imagining what that next fight may look like Twenty First Century Military Innovation outlines the most theoretically important themes in contemporary warfare especially as these appear in distinctive innovations that signal changes in states warfighting capacities and their political goals Marcus Schulzke examines eight case studies that illustrate the overall direction of military innovation and important underlying themes He devotes three chapters to new weapons technologies drones cyberweapons and nonlethal weapons two chapters to changes in the composition of state military forces private military contractors and special operations forces and three chapters to strategic and tactical changes targeted killing population centric counterinsurgency and degradation Each case study includes an accessible introduction to the topic area an overview of the ongoing scholarly debates surrounding that topic and the most important theoretical implications.
