Opportunism and the Collapse of the Second International Vladimir Il'ich Lenin,1976 *Opportunism and the Collapse of the Second International* Vladimir Il'ich Lenin,1973 *Lenin On Revolutionary Situation* Erdogan A,2020-08-04
Assessment of Objective and Subjective Conditions Selected from LENIN and STALIN **Leninism** Neil Harding,1996 In this volume Neil Harding presents the first comprehensive reinterpretation of Leninism to be produced in many years Challenging much of the conventional wisdom regarding Leninism s effectiveness as a mobilizing body of ideas its substance and its origins and evolution Harding offers both a controversial exposition of this ideology and a critical engagement with its consequences for the politics of contemporary communism Rather than tracing the roots of Leninism to the details of Lenin s biography Harding shows how it emerged as a revolutionary Marxist response to the First World War and to the perceived treachery the support of that war by social democratic leaders The economics politics and philosophy of Leninism he argues were rapidly theorized between 1914 and 1918 and deeply imprinted with the peculiarities of the wartime experience Its complementary metaphysics of history and science was as intrinsic to its confidence and sureness of purpose as it was to its contempt for democratic practice and tolerance But as Harding also shows although Leninism articulated a complex and coherent critique of capitalist civilization and held a powerful appeal to a variety of constituencies it was itself caught in a timewarp that fatally limited its capacity to adapt This book will engage not only Russian and Soviet specialists but also readers concerned with the varieties of twentieth century socialism **Imperialist War and the Bolsheviks** Erdogan A,2022-08-12 1st and 2nd Imperialist Wars and the approach of Bolsheviks *The Radical Review* ,1917 **Lenin and the End of Politics** A. J. Polan,1984-01-01 *Rationality Standards of Social Life* Zbigniew Drozdowicz,2013 The standards of rationality are treated in this book as certain regulators of social life They are compared to the rudders of the great vessels constituted by social communities The diversity exhibited by those standards do not only result from the differences of time and space of their implementation but also from the differences in the sets of ideas put forward by the leading social thinkers accompanied by the different characteristics of their designated audiences Series Development in Humanities Vol 7
