Plunkett's Investment & Securities Industry Almanac Jack W. Plunkett,2008 The investment and securities industry is rebounding from the dismal markets of the early 2000s Improved corporate profits low interest rates and efforts to improve corporate governance have led the way despite recent scandals in the mutual funds industry Meanwhile the investment industry is increasingly a global business This is partly due to the needs of multinational corporations to list their stocks or issue debt in more than one nation For example ADRs American Depositary Receipts are increasingly popular instruments Cross border investments and acquisitions continue at a rapid pace Discount brokerages are enjoying improved levels of trading while investment banks are developing new ways to create lucrative fees This carefully researched book which includes a database of leading companies on CD ROM is a complete investments securities and asset management market research and business intelligence tool everything you need to know about the business of investments including 1 Investment banking 2 Stock brokers 3 Discount brokers 4 Online brokers 5 Significant trends in financial information technologies 6 Asset management 7 Stock ownership by individuals and households 8 401 k s and pension plans 9 Mutual funds 10 ETFs Exchange traded funds 11 ECNs Electronic Communication Networks 12 Developments at the NYSE and other exchanges The book includes a complete chapter of vital industry statistics an industry glossary a complete list of industry contacts such as industry associations and government agencies and our in depth profiles of more than 300 leading firms in the investment and asset management business A CD ROM database of these firms is included with the book

Security Games Colin Bennett,Kevin Haggerty,2012 Security Games Surveillance and Control at Mega Events addresses the impact of mega events such as the Olympic Games and the World Cup on wider practices of security and surveillance Mega Events pose peculiar and extensive security challenges The overwhelming imperative is that nothing should go wrong There are however an almost infinite number of things that can go wrong producing the perceived need for pre emptive risk assessments and an expanding range of security measures including extensive forms and levels of surveillance These measures are delivered by a security industrial complex consisting of powerful transnational corporate governmental and military actors eager to showcase the latest technologies and prove that they can deliver spectacular levels of security Mega

events have thus become occasions for experiments in monitoring people and places And as such they have become important moments in the development and dispersal of surveillance as the infrastructure established for mega events are often marketed as security solutions for the more routine monitoring of people and place Mega events then now serve as focal points for the proliferation of security and surveillance They are microcosms of larger trends and processes through which as the contributors to this volume demonstrate we can observe the complex ways that security and surveillance are now implicated in unique confluences of technology institutional motivations and public private security arrangements As the exceptional conditions of the mega event become the norm Security Games Surveillance and Control at Mega Events therefore provides the glimpse of a possible future that is more intensively and extensively monitored
