Situating Social Theory May, Tim, Powell, Jason, 2008-08-01 This edition examines the implications of recent developments challenges and disputes that have become important to debates in social theory including new commentaries on key authors It also explores the extent to which how we situate social theory may need re examining *The Rhetorical Emergence of Culture* Christian Meyer, Felix Girke, 2011-05-01 Just as rhetoric is founded in culture culture is founded in rhetoric the first half of this central statement from the International Rhetoric Culture Project is abundantly evidenced It is the latter half that this volume explores how does culture emerge out of rhetorical action out of seemingly dispersed individual actions and interactions The contributors do not rely on rhetorical text alone but engage the situational bodily and often antagonistic character of cultural and communicative practices The social situation itself is argued to be the fundamental site of cultural creation as will driven social processes are shaped by cognitive dispositions and shape them in turn Drawing on expertise in a variety of disciplines and regions the contributors critically engage dialogical approaches in their emphasis on how a view from rhetoric changes our perception of people's intersubjective and conjoint creation of culture *Social Work* Jan Fook, 2022-09-23 Now 20 years since its first publication Jan Fook returns to update her seminal

text Celebrating the ageless ideals of the profession this book throws a life belt to all social work students and professionals looking to engage with the critical tradition of social work to improve their understanding and practice Part One Critical Potential and Current Challenges sets the historical and current contexts for critical social work introducing you to what critical social work is and what it means for practice Part Two Rethinking Ideas unpicks the major concepts associated with critical social work including knowledge power discourse identity and difference and how these need to be rethought in new contexts Part Three Redeveloping Practices illustrates how these new ideas can inform new practices proving you with all the tools you need to deliver flexible responsible and responsive social work practice

Self- and Other-Reference in Social Contexts Minna Nevala, Minna Palander-Collin, 2024-03-15 The chapters in this volume study the construction representation and negotiation of a variety of social roles through self and other reference markers or the discussion of reference as a tool for identification The chapters uncover new insights both from a historical and present day perspective and show how positioning the self and other varies what kind of reference choices language users make and what follows from these choices The data come from a variety of public texts private encounters and questionnaires and the methodologies range from macro to micro perspectives including combinations of qualitative close reading and quantitative corpus methods and synchronic and diachronic perspectives The findings enhance our understanding and use of reference practices in the context of global institutional political and multicultural as well as media texts

Emotion and Social Structures Christian von Scheve, 2014-07-16 The past decades have seen significant advances in the sociological understanding of human emotion Sociology has shown how culture and society shape our emotions and how emotions contribute to micro and macro social processes At the same time the behavioral sciences have made progress in understanding emotion at the level of the individual mind and body Emotion and Social Structures embraces both perspectives to uncover the fundamental role of affect and emotion in the emergence and reproduction of social order How do culture and social structure influence the cognitive and bodily basis of emotion How do large scale patterns of feeling emerge And how do emotions promote the coordination of social action and interaction Integrating theories and evidence from disciplines such as psychology cognitive science and neuroscience Christian von Scheve argues for a sociological understanding of emotion as a bi directional mediator between social action and social structure This book will be of interest to students and scholars of the sociology of emotion microsociology and cognitive sociology as well as social psychology cognitive science and affective neuroscience

Social Conflict within and between Groups Carsten K. W. De Dreu, 2014-05-09 Intergroup competition and conflict create pervasive problems in human society giving rise to such phenomena as prejudice terrorism ethnic cleansing and interstate war Citizens policy makers social workers schoolteachers and politicians wrestle with these problems and with difficult questions these issues pose What causes conflict to escalate How should we manage conflict within communities and also in society at large Is conflict always bad or does it have other more beneficial consequences Social Conflict within and

between Groups provides an overview of contemporary research from the social sciences on these questions It brings together the research output of a number of leading researchers in psychology management and economics sociology and political science and draws on the outcomes of ten prominent research programs conducted over the past five years The chapters cover a range of fascinating topics including prejudice and discrimination in multi ethnic societies and conflict and negotiation in the field of industrial relations The authors also consider the possibilities for intervention at the interpersonal intergroup and societal level This is the first volume to provide an interdisciplinary overview of the various scientific approaches to studying the origins and consequences of social conflict It will be of great interest to researchers graduates and upper level undergraduate students from across the social and behavioural sciences

The Social Psychology of Tolerance Maykel Verkuyten, 2022-11-29 This highly topical book is the first of its kind to provide a comprehensive theoretical and empirical discussion of the social psychology of tolerance exploring the importance and drawbacks of a focus on tolerance and discussing how tolerance can be stimulated in a range of contexts The importance of tolerance for a diverse equal and open society is increasingly recognized by social and behavioural scientists When people are aware of salient differences and disagree about the value of various viewpoints and ways of life the question of tolerance arises Not only in relation to religious cultural ideological and viewpoint differences but also concerning everyday things such as annoying habits of one's partner the views and behaviour of one's children disagreements at work and neighbourhood hassles Verkuyten uses concrete examples to discuss the various reasons for why tolerance is vital for peaceful communities especially in our increasingly diverse and polarized world Providing a thorough examination of the social psychology of tolerance this is a valuable text not only to social psychologists but to a range of students and scholars in the social and behavioural sciences more broadly

Nonprofit Organizations Helmut K. Anheier, 2014-04-16 In this new edition of his popular textbook Nonprofit Organizations Theory Management Policy Helmut K Anheier has fully updated revised and expanded his comprehensive introduction to this field The text takes on an international and comparative dimensions perspective detailing the background and concepts behind these organizations and examining relevant theories and central issues Anheier covers the full range of nonprofit organizations service providers membership organizations foundations community groups in different fields such as arts and culture social services and education He introduces central terms such as philanthropy charity community social entrepreneurship social investment public good and civil society whilst explaining how the field spills over from public management through nonprofit management and public administration The previous edition won the Best Book Award at the American Academy of Management in 2006 Nonprofit Organizations Theory Management Policy is an ideal resource for students on undergraduate and postgraduate courses in both Europe and North America

Humanist Realism for Sociologists Terry Leahy, 2017-01-20 Recent critiques treat humanism as a mistaken value framework Indeed the concept of human nature is in fact essential for sociology but is often being denied at the same

time as it appears without acknowledgement While classic authors can show us how to connect an ethics with a concept of human nature current humanists must tackle the sociobiological view of human nature and interrogate humanism in the light of the ecological crisis Humanist Realism for Sociologists both explains and explores some of the main arguments surrounding humanism put forward by classic social theorists such as Aristotle Marx and Weber as well as more contemporary authors such as Braidotti Oakley Weedon Firestone Connell Flyvbjerg Foucault and Bourdieu A must have tool for understanding how value perspectives cannot be eliminated from the social sciences this book is essential for undergraduates postgraduates and postdoctoral researchers interested in the fields of sociology anthropology women s studies social work human geography political philosophy and ecology Mental Health, Social Mirror William R. Avison, Jane D. McLeod, Bernice A. Pescosolido, 2007-08-19 In 2004 the discipline of sociology celebrated the 100th anniversary of the founding of the American Sociological Association In 2005 the Section on Medical Sociology celebrated 50 years since the formation of the Committee on Medical Sociology within the ASA And in 2003 the Section on the Sociology of Mental Health celebrated ten years since its founding within the American branch of the discipline This brief accounting marks the American based or nizational landmarks central to concerns about how social factors shape the mental health problems individuals face as well as the individual and system responses that follow This history also lays a trail of how the focus on mental health and illness has narrowed from a general concern of the discipline to a more intense substantively focused community of scholars targeting a common set of specific theoretical and empirical questions While mental health and illness figured prominently in the writings of classical sociologists contemporary sociologists often view research on mental health as peripheral to the real work of the discipline The sentiment real or perceived is that the sociology of mental health along with its sister medical sociology may be in danger of both losing its prominence in the discipline and losing its connection to the mainstream core of sociological knowledge Pescosolido Kronenfeld 1995
