Reflections on the 2019 South African General Elections Joleen Steyn Kotze, Narnia Bohler-Muller, 2020-12-17 Reflections on the 2019 South African General Elections is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country's electoral democracy The volume engages questions on land election campaigns voter turnout voter apathy and how opposition parties will be forced to co exist in the context of declining electoral dominance the ANC once comfortably held An important reflection on the lessons of the 2019 South African General Elections the contributors ask Quo Vadis South Africa The 2019 General Elections marked a watershed in South Africa's political landscape The ANC under the banner of a narrative of regeneration and getting back on the moral path dipped below the 60 % mark for the first time in South Africa's democratic history This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature the erosion of its integrity and disillusionment with its performance as a governing party Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC Caught in their own factional battles and in

the midst of corruption scandals opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter Considering the future of South Africa's electoral democracy at 25 years of democracy Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies South Africa Governance and Elections The chapters in this book were originally published as a special issue of *Politikon South African Journal of Political Studies* The Condition of Democracy in Southern Africa Richard William Johnson, 2000 From Power Sharing to Democracy Sid Noel, 2005-09-22 *From Power Sharing to Democracy* examines the theoretical underpinnings of power sharing as a means of achieving sustainable democratic governance Contributors examine key areas including Afghanistan Cyprus Kosovo Macedonia and South Africa where power sharing constitutions and political institutions have been employed or proposed They provide an in depth exploration of consociationalism under which the previously warring ethnic communities are guaranteed a proportionate share of political offices and protection of their vital interests and federalism which provides for substantial territorial autonomy in cases where the communities are territorially segregated The Crisis of South African Foreign Policy Matthew Graham, 2015-09-28 The emergence of a new democratic South Africa under Nelson Mandela was regarded as a high watermark for international ideals of human rights and democracy Much was expected of the ANC in power particularly that it would be able to translate its ideals into a coherent foreign policy for the African continent Yet its foreign policy since 1994 has been mired in accusations of incoherence contradiction and failure Here based on extensive archival research and interviews Matthew Graham offers new ways of interpreting South Africa's foreign policy by investigating the continuities and discontinuities of the ANC's international relations from exile to political power Charting the political intrigues during the country's transition from apartheid and the subsequent influences on Presidents Mandela and Mbeki *The Crisis of South African Foreign Policy* makes a vital contribution to our understanding of why post apartheid South Africa has failed to lead Africa on the world stage

Reconstructing the Third Wave of Democracy Rita Kiki Edozie, 2009 Since the 1990s trends in African politics require the realization that the public policy practice and the theoretical analysis of democracy and democratization are becoming increasingly important tenets for understanding the contemporary political science of the region *Reconstructing the Third Wave of Democracy* explains these new political processes and ideas Author Rita Kiki Edozie identifies factors that Africans have encountered since the foundation of the modern African state and presents a critical analysis of African politics through the lenses of post colonial discourse by uniquely employing the ideas of democratic theory to guide an analysis of the Continent's democratic development and performance Edozie presents an intra regional comparative analysis of democratic politics in Africa in ways that few books on the same subject do for the continent Her methodology for examining democracy in Africa reveals the dynamism of several country cases and several more regime experiences with democracy encountered from the post World War II period to the current post Cold War period

Democracy and Institutions Markus M. L. Crepaz, Thomas Albert Koelble, David Wilsford, 2010-06-08 Institutions are the channels of political power This volume explores Arend Lijphart's life work the design of political institutions All the contributors to this volume share the fundamental insight that the design of political institutions matters in how democracies work The essays in this volume offer both theoretical insights into the context and implications of Lijphart's ideas and empirical exploration of the ideas Two chapters by Thomas Koelble and Andrew Reynolds examine and apply Lijphart's insights to South Africa while another study by Jack Nagel explores the fascinating institutional changes taking place in New Zealand Essays by Bernard Grofman and Rein Taagepera examine Lijphart's work from a theoretical perspective and place Lijphart's work in the wider neo institutionalist school of thought Milton Esman applies the principle of power sharing to mobilized communities not only in democratic societies but also to those which are governed by authoritarian rule Bingham Powell offers an empirical approach to the crucial question of the connection between political institutions and responsiveness of policy makers Markus M L Crepaz and Vicki Birchfield argue that in this age of globalization countries with consensual political institutions will not only systematically refract the

pressures of globalization but will be able to absorb the domestic consequences of globalization more successfully than majoritarian countries Finally Arend Lijphart responds to the arguments made in these essays extending and adding novel concepts and insights to his conceptual framework The book will be of interest to political scientists lawyers and sociologists who study institutions the impact of electoral systems and constitutional design In addition those who study globalization will be attracted by the relevance of domestic political institutions and their refractory effects as the tides of globalization wash against the domestic shores Markus M L Crepaz is Associate Professor of Political Science University of Georgia Thomas A Koelble is Associate Professor of Political Science University of Miami David Wilsford is President and Professor the Institute for American Universities

Popular Politics and the Path to Durable Democracy Mohammad Ali Kadivar, 2022-11-22 A groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization When protests swept through the Middle East at the height of the Arab Spring the world appeared to be on the verge of a wave of democratization Yet with the failure of many of these uprisings it has become clearer than ever that the path to democracy is strewn with obstacles Mohammad Ali Kadivar examines the conditions leading to the success or failure of democratization shedding vital new light on how prodemocracy mobilization affects the fate of new democracies Drawing on a wealth of new evidence Kadivar shows how the longest episodes of prodemocracy protest give rise to the most durable new democracies He analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010 showing how more robust democracies emerge from lengthier periods of unarmed mobilization Kadivar then analyzes five case studies South Africa Poland Pakistan Egypt and Tunisia to investigate the underlying mechanisms He finds that organization building during the years of struggle develops the leadership needed for lasting democratization and strengthens civil society after dictatorship Popular Politics and the Path to Durable Democracy challenges the prevailing wisdom in American foreign policy that democratization can be achieved through military or coercive interventions revealing how lasting change arises from sustained nonviolent grassroots mobilization
