Civil Society in Communist Eastern Europe Matt Killingsworth, 2024-10-31 As well as promoting debates about liberal democracy the dramatic events of 1989 also bought forth a powerful revival in the interest of the notion of civil society This revival was reflected mainly in two broad tracts of literature The first focused primarily on events surrounding the Solidarity movement in Poland and the tumultuous events of 1980-81 The second was concerned with the Velvet Revolutions more broadly Following the events of 1989 there appeared a number of works sharing the common central argument that civil society played a key role in the overthrow of these Communist regimes in 1989 Killingsworth s book presents three broad arguments all of which reject the way civil society has been applied in the analysis of opposition and dissent in totalitarian Czechoslovakia the GDR and Poland First it argues that the totalitarian nature of Soviet type regimes means that it was not possible for a genuine civil society to exist Second the civil society paradigm as it has been applied to opposition and dissent in Soviet type regimes in Eastern Europe lacks analytical rigour Thirdly the book argues that the dominant liberal interpretation of dissenting opposition in Soviet type regimes is politically and morally flawed

The Soviet-East German Military Alliance Douglas A. Macgregor, 1989 The German Democratic Republic s emergence as the key political player within the Warsaw Pact has intensified debates concerning the critical East German military role in Soviet strategy for the future of Eastern Europe Douglas Macgregor traces the origins of current collaboration to earlier forms of Russo German military alliance
