A Future for Regional Australia I. W. Gray, Geoffrey Lawrence, 2001-07-31 This book interprets the predicament faced by Australia's regional people from their own perspective and proposes a means by which they can act together to find a secure future under globalisation It argues that neoliberalism in combination with its real world effects in economic policy are driving regional Australia further into social environmental and economic decay The book will be of great interest to all concerned about the future of regional Australia and will make a lively and relevant text for students studying the social sciences in the countryside or in the major cities

Political Corruption in Australia Peter John Perry, 2017-10-05 This title was first published in 2001 Despite considerable expansion the scholarly literature on political corruption has remained fragmentary often polarized consisting either of sweeping systematic statements or case specific examples Perry bridges this gap and proves the need for further such study in this most worthwhile examination of the place of political corruption in Australia The Australian experience is paid thorough yet concise attention and then it is related to the concept of political corruption in its various and changing forms and interpretations Assuming no familiarity with the central intellectual issues Perry lucidly explores them in terms of their method practice and definition with particular reference to Australia Primarily suitable for academics interested in politics geography development studies history and sociology this book's accessible style also makes it of interest to a general audience

Rural Change in Australia John Connell, 2016-04-08 New twenty first century economic social and environmental changes have challenged and reshaped rural Australia They range from ageing populations youth out migration immigration policies that seek to place skilled migrants in rural Australia tree changers agricultural restructuring and new relationships with indigenous populations Challenges also exist around the patchwork economy and the wealth that the mining boom offers some areas while threatening regional economic decline in others Rural Australia is increasingly not simply a place of production of agriculture and minerals but an idea that individuals seek and are encouraged to consume The socio economic implications of drought water rights and changing farming practices have prefaced new social cultural and economic reforms This book provides a contemporary perspective on rapidly evolving population economic and environmental changes in rural and regional Australia itself a significant concept Bringing together a range of empirical studies the book builds on established rural studies themes such as population change economic restructuring and globalisation in agriculture but links such changes to environmental change culture class gender and ethnic diversity Presenting original and in depth interventions on these issues and their intersections this book assembles the best of contemporary research on rural Australia

Sustainability and Change in Rural Australia Chris Cocklin, Jacqui Dibden, 2005 By addressing themes such as social and economic

change government policy and gender relations this volume tackles the thematic complexities of sustainability It attempts to understand how small rural communities have survived in the past what factors shaped them and how these factors will impact on their future survival **Handbook of Rural Studies** Paul Cloke,Terry Marsden,Patrick Mooney,2006-01-26 This is a unique interpretation of rural issues that will become essential reference for students scholars politicians developers and rural activists Imre Kovach President European Society for Rural Sociology Research director Institute for Political Sciences Budapest **Land of Discontent** Bill Pritchard,Phil McManus,2000 This text examines the recent changes to the economic social and cultural landscapes of regional and rural Australia Issues it considers include the delivery of government services the closure of bank branches in rural areas and the restructuring of rural industries *Foucault and Family Relations* Malcolm Voyce,2019-05-14 Foucault and Family Relations Governing from a Distance in Australia analyzes how notions of property ownership were instrumental in maintaining family stability and continuity in rural Australia outlining how inheritance and divorce laws functioned to govern the internal relationships of families to assist the state to rule from a distance Using a selection of Foucault s ideas on the family sexuality race space and economics this books shows how property operated as a disciplinary device which was underpinned by technical ideas such as surveying and cartography This book uses legal judgments as a form of ethnography to show how property as a socio technical device allowed a degree of local freedom for owners This aspect of property allowed the state to stimulate ideas of local freedom to assist in ruling from a distance demonstrating how the rural family as a domestic unit became a key field of intervention for the state as the family represented a bridge to larger relationships of power Power and Politics in the City Janice Caulfield,John Wanna,1995 This study of community power in Brisbane analyses the challenges posed by growth and the shifting of the balance of power from the country to the city Consists of a series of case studies focusing on discrete policy issues and key areas and exploring topics such as relations between state and city governments and between public and private sectors and their impact on the Brisbane community Caulfield is a lecturer in public administration at the University of Queensland and Wanna is a senior lecturer in politics and public policy at Griffith University **Australian National Bibliography: 1992** National Library of Australia,1988 **Steel Town** Eklund, Erik,2013-05-24 The sun moves across the narrow coastal plain that borders the range to the north It shows once separate places now merged into one suburban entity a ribbon of residential commercial and industrial development There is a commercial centre whose tall metallic and glass structures reflect the light and celebrate an industrial heritage And to the south an area where a mass of industrial buildings converge around a large harbour This area stands as a telling symbol of the region s golden industrial age To most Australians Port Kembla is a grimy polluted industrial wasteland located down the coast from Sydney Such images were formed over fifty years ago when industrial development in the town was at its height and when the expanse of breathtaking coast had been colonised by the stacks and furnaces of heavy industry Yet the vision of stacks and pollution from furnaces was never the whole story there

was always more to Port Kembla Although these ideas persist even today they obscure the real experiences of the people of the port Steel Town illuminates our understanding of the processes of industrial and social change Port Kembla was unique in Australian terms an urban environment where industrial society shaped local life and politics like nowhere else This book explores the advent and implications of industrial society and the impact of economic decline and deindustrialisation In his comprehensive and persuasive account of local life Erik Eklund draws together themes of migration gender class and identity Using archival records oral history interviews and company documents Steel Town charts the relationship between economic change and the human experience of that change The story of Port Kembla is the story of the big issues of Australian history writ small on the lives of three generations of local people The legacy of industrial society is a mixed one its experiences and consequences are full of contradictions And that of course is the beauty of history

Governing Rural Development Lynda Cheshire, 2012-11-28 In recent decades the responsibility for initiating regeneration programmes has been placed firmly in the hands of rural communities with the rationale being that local people are best placed to know their own problems and consequently to develop their own solutions Despite the popularity of this approach the self help approach has its own problems and can be seen as an attempt by governments to reduce public spending This book provides a critical account of the discourses and practices of self help in contemporary rural development policies of Australia and other western nations Although it examines the problems of the self help approach it moves beyond a straightforward exposition of the impediments to self help Instead taking a Foucauldian governmentality perspective it puts forward a theoretical analysis of the self help concept assessing it as a means of governing rural development in an advanced liberal manner It argues that self help should not be regarded as either the empowerment or the abandonment of rural citizens by a shrinking state but rather the application of new ways of thinking about and acting upon rural development
