reality They taught a new anthropology Humans could ascend to a God like status Schabert analyzes the history of the project and its result a civilization in a perennial crisis Symptoms of the crisis have been exposed today mostly in ecological terms Schabert takes his material from many fields philosophy cosmology natural sciences literature social studies economics architecture and political thought While modernity is endlessly disrupted a world beyond modernity can be traced especially in the modern theory of constitutional government Constitutional governments are formed by limitations within a civilization that is meant to have no limits What appears to be paradoxical has its own logic as Baruch Spinoza John Locke Montesquieu John Adams the Federalist Papers John Stuart Mill Walter Bagehot and Woodrow Wilson have shown Schabert carefully explicates their constitutional thought It realized the limits through which modernity holds a promise
