Cultures and Politics of Global Communication: Volume 34, Review of International Studies Costas M. Constantinou, Oliver P. Richmond, Alison Watson, 2008-06-12 This special issue of Review of International Studies focuses on how International Relations IR communicates with the world and vice versa It opens up the discussion of the politics of communication within the discipline and beyond With a variety of different mediums ranging from media film memory music culture and emotions this book seeks to accentuate their importance for IR both as a source of knowledge and as an ideational exchange which shapes IR It examines the diverse ways that multidisciplinary thinkers try to understand and explain global routes mobilities cultures commodifications singularities discourses and aestheticisations This special issue specifically addresses three interrelated themes How international and global studies approach the question of communication how to conceptualise and respond to the globalisation of communication and how global problems get communicated within and across the institutional settings of the epistemic disciplines in general and the IR discipline in particular

The International Politics of Communication Alan Chong, 2025-03-18 In an era of globalization international communication constantly takes place across borders defying sovereign control as it influences opinion While diplomacy between states is the visible face of international relations this informal diplomacy is usually less visible but no less powerful Information politics can be found in propaganda Internet politics educational exchanges tourism and even popular film The International Politics of Communication examines this informational dimension of international politics investigating how information is generated conveyed through channels and directed specifically at audiences While citizens are often portrayed

as faithfully loyal supporters and beneficiaries of the modern nation state a fiction supported by passports identification papers and other notarized credentials they are subject to the pulls of loyalty from transnational tribal affiliations mythological and historical narratives of ethnicity as well as the transcendental claims of religion and philosophy Increasingly social media also enchants non state individuals providing new virtual communities as the center of loyalties rather than national affiliations By reinterpreting taken for granted concepts in journalism media political economy nationalism development and propaganda as information politics this book prepares serious minded scholars citizens politicians and social activists everywhere to understand the power plays in international communication and use alternatives to begin transforming power relations

The Handbook of

Global Media and Communication Policy Robin Mansell, Marc Raboy, 2011-04-12 The Handbook of Global Media and Communication Policy offers insights into the boundaries of this field of study assesses why it is important who is affected and with what political economic social and cultural consequences Provides the most up to date and comprehensive collection of essays from top scholars in the field Includes contributions from western and eastern Europe North and Central America Africa and Asia Offers new conceptual frameworks and new methodologies for mapping the contours of emergent global media and communication policy Draws on theory and empirical research to offer multiple perspectives on the local national regional and global forums in which policy debate occurs **Communication and Empire** Dwayne R.

Winseck, Robert M. Pike, 2007-07-17 Filling in a key chapter in communications history Dwayne R Winseck and Robert M Pike offer an in depth examination of the rise of the global media between 1860 and 1930 They analyze the connections between the development of a global communication infrastructure the creation of national telegraph and wireless systems and news agencies and the content they provided Conventional histories suggest that the growth of global communications correlated with imperial expansion an increasing number of cables were laid as colonial powers competed for control of resources Winseck and Pike argue that the role of the imperial contest while significant has been exaggerated They emphasize how much of the global media system was in place before the high tide of imperialism in the early twentieth century and they point to other factors that drove the proliferation of global media links including economic booms and busts initial steps toward multilateralism and international law and the formation of corporate cartels Drawing on extensive research in corporate and government archives Winseck and Pike illuminate the actions of companies and cartels during the late nineteenth century and early twentieth in many different parts of the globe including Africa Asia and Central and South America as well as Europe and North America The complex history they relate shows how cable companies exploited or transcended national policies in the creation of the global cable network how private corporations and government agencies interacted and how individual reformers fought to eliminate cartels and harmonize the regulation of world communications In Communication and Empire the multinational conglomerates regulations and the politics of imperialism and anti imperialism as well as the cries for reform of the late nineteenth century and early twentieth emerge as the obvious forerunners of today s global media **Communication, Development, and the Third World** Robert L. Stevenson, 1988

The first book to address two of the foremost issues in international communication the UNESCO debate over the New World of Information Order NWIO which attempted to reach a global consensus on the purpose of journalism and secondly the place of mass media and telecommunication in the development of third world countries It traces the growth of these issues from their beginnings in the sixties through the UNESCO declaration on mass media in 1978 into the present decade Key features of this text are the examination of the role communication plays in countries with differing systems of government and an explanation of the issues that brought UNESCO into the limelight in the eighties and its importance to the future

Originally published in 1988 by Longman **The Information Revolution and World Politics** Elizabeth C.

Hanson,2008-02-04 This readable and cogent book provides a much needed overview of the information revolution in a global context First tracing the historical evolution of communications since the development of the printing press Elizabeth C Hanson then explores the profound ways that new information and communication technologies are transforming international relations More people have access to more diverse sources of information than ever before as well as a greater capacity to influence national and international agendas More transcontinental channels of contact are available to more people in the world at far less cost than ever before in history Hanson illustrates how these dramatic changes have raised a set of key questions What is the impact of the information revolution on diplomacy foreign policymaking and the conduct of war How are these new technologies affecting the structure of the global economy and the distribution of the world s wealth How and to what extent are they affecting the nation state its centrality in the international system its sovereignty and its relationship to its citizens In answering these questions Hanson considers the controversies over the present and future impact of a radically new information and communications environment as part of larger debates over globalization and the role of technology in historical change Her carefully chosen case studies and judicious use of relevant research provide a firm basis for readers to evaluate competing arguments on this contentious issue **Politics of News** J. S. Yadava,1984

authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state of the art review that sets the agenda for future study. It is divided into five sections. Part One explores the macro level influences on political communication such as the media industry, new media technology and political systems. Part Two takes a grassroots perspective of the influences of social networks, real and online, on political communication. Part Three discusses methodological advances in political communication research. Part Four focuses on power and how it is conceptualized in political communication. Part Five provides an international, regional and comparative understanding of political communication in its various contexts. The SAGE Handbook of Political Communication is an essential benchmark publication for advanced students, researchers and practitioners in the fields of politics, media and communication, sociology and research methods.

Culture and Politics in the Information Age Frank Webster, 2002-01-04. This volume addresses these key issues through an analysis of important theoretical debates on issues such as digital democracy, cultural politics and transnational communities. Featuring contributors from both sides of the Atlantic, the book contains a series of case studies on new social movements including campaigns on the environment, gender, animal rights and human rights. It combines cutting edge research with theoretical material and makes an important contribution to this highly topical and rapidly growing area. This book will be invaluable reading for students in areas including Politics, Communications and IT, Sociology and Cultural Studies.

The Politics of the Internet in Third World Development Bert Hoffmann, 2004-10-01. This book examines the political and developmental implications of the new information and communication technologies (ICT) in the Third World. Whereas the concept of the digital divide tends to focus on technological and quantitative indicators, this work stresses the crucial role played by the political regime type, the pursued development model and the specific configuration of actors and decision making dynamics. Two starkly contrasting Third World countries, state socialist Cuba and the Latin America's show case democracy Costa Rica, were chosen for two in depth empirical country studies.
