Politics Of Postmodernity An Introduction To Contemporary Politics And Culture:

The Politics of Postmodernity John R Gibbins,Bo Reimer,1999-07-06 What happens to politics in the postmodern condition The Politics of Postmodernity is a political tour de force that addresses this key contemporary question Politics in postmodernity is carefully contextualized by relating its specific sphere the polity to those of the economic social technological and cultural The authors confront globalization and the notion of postmodernity as disorganized capitalism They analyze the role of the mass media the changing ways in which politics is used the role of the state and the progressive potential of politics in postmodern times Closing with a postscript on the future of the discipline of political science this book offers a profound yet highly accessible account

The 'Postmodern Turn' in the Social Sciences Simon Susen,2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century

Political Issues for the Twenty-First Century Mark Cowling,2017-07-05 Assembling accessible and informative essays on contemporary debates and future issues in politics this rewarding volume focuses on political developments in UK European and international issues and modern theoretical debates and problems Each essay establishes the historical context before providing a speculative analysis of possible future developments The collection presents a range of challenging and provocative accounts that deal with some of the most delicate complex and fundamental issues that affect people living in Western Europe in the twenty first century

China's Modernization I Georg Peter,Reuß-Markus Krauße,2015-09-09 The idea of only one way leading to a modern society seems to be hardly tenable But even if we agree to this our theories and terms describing modernization are gained on our own Western history So social science has to reconsider its basic terms to describe China s modernization and maybe even the understanding of modernization itself The first of two volumes on China s modernization collects articles by leading Chinese and Western scientists focusing on the main conflicts and differences this process involves In a first section Changing China Dealing with Diversity Bj rn Alperman analyses the terms Class Citizenship and Individualization in China s Modernization Andrew Kipnis analyses the Chinese Nation Building as Instead of and Before Globalization while John R Gibbins examines Principles for Cosmopolitan Societies Values for Cosmopolitan Places On Modernization Law Business and Economy in China the second section deals with Modernizing Chinese Law The Protection of Private Property in China by Sanzhu Zhu Chinese Organizations as Groups of People Towards a Chinese Business Administration by Peter J Peverelli and Income Gaps in Economic Development Differences among Regions Occupational Groups and Ethnic Groups by Ma Rong The last section Thinking Differentiations Chinese Origin and the Western Culture concentrates on the role of religion with articles by Richard Madsen Christianity and Hybrid Modernity in China and Thorsten Botz Bornstein Confucianism Puritanism and the Transcendental China and America Jeffrey N

Wasserstrom argues that Nathan Sharansky's test for free nations should take regional variations into account in China and the Town Square Test In Metaphor Poetry and Cultural Implicature Ying Zhang examines if the Western understanding of metaphor can be transferred to Chinese language and culture The additional rubric On Contemporary Philosophy involves three articles about the question Can Science Change our Notion of Existence by Jody Azzouni The Epistemological Significance of Practices by Alan Millar and On Cappelen and Hawthorne's Relativism and Monadic Truth by J Adam Carter Content and abstracts www.protosociology.de *Protest Cultures* Kathrin Fahlenbrach, Martin Klimke, Joachim Scharloth, 2016-03-01 Protest is a ubiquitous and richly varied social phenomenon one that finds expression not only in modern social movements and political organizations but also in grassroots initiatives individual action and creative works It constitutes a distinct cultural domain one whose symbolic content is regularly deployed by media and advertisers among other actors Yet within social movement scholarship such cultural considerations have been comparatively neglected *Protest Cultures A Companion* dramatically expands the analytical perspective on protest beyond its political and sociological aspects It combines cutting edge synthetic essays with concise accessible case studies on a remarkable array of protest cultures outlining key literature and future lines of inquiry **Elgar Encyclopedia of Political Sociology** Maria Grasso, Marco Giugni, 2023-12-11 This comprehensive and authoritative Encyclopedia featuring entries written by academic experts in the field explores the diverse topics within the discipline of political sociology By looking at both macro and micro components questions relating to nation states political institutions and their development and the sources of social and political change such as social movements and other forms of contentious politics are raised and critically analysed **The Citizen Marketer** Joel Penney, 2017-05-05 From hashtag activism to the flood of political memes on social media the landscape of political communication is being transformed by the grassroots circulation of opinion on digital platforms and beyond By exploring how everyday people assist in the promotion of political media messages to persuade their peers and shape the public mind Joel Penney offers a new framework for understanding the phenomenon of viral political communication the citizen marketer Like the citizen consumer the citizen marketer is guided by the logics of marketing practice but rather than being passive actively circulates persuasive media to advance political interests Such practices include using protest symbols in social media profile pictures strategically tweeting links to news articles to raise awareness about select issues sharing politically charged internet memes and viral videos and displaying mass produced T shirts buttons and bumper stickers that promote a favored electoral candidate or cause Citizens view their participation in such activities not only in terms of how it may shape or influence outcomes but as a statement of their own identity As the book argues these practices signal an important shift in how political participation is conceptualized and performed in advanced capitalist democratic societies as they casually inject political ideas into the everyday spaces and places of popular culture While marketing is considered a dirty word in certain critical circles particularly among segments of the left that have identified neoliberal market logics and

consumer capitalist structures as a major focus of political struggle some of these very critics have determined that the most effective way to push back against the forces of neoliberal capitalism is to co opt its own marketing and advertising techniques to spread counter hegemonic ideas to the public Accordingly this book argues that the citizen marketer approach to political action is much broader than any one ideological constituency or bloc Rather it is a means of promoting a wide range of political ideas including those that are broadly critical of elite uses of marketing in consumer capitalist societies The book includes an extensive historical treatment of citizen level political promotion in modern democratic societies connecting contemporary digital practices to both the 19th century tradition of mass political spectacle as well as more informal culturally situated forms of political expression that emerge from postwar countercultures By investigating the logics and motivations behind the citizen marketer approach as well as how it has developed in response to key social cultural and technological changes Penney charts the evolution of activism in an age of mediatized politics promotional culture and viral circulation

Image Politics in the Middle East Lina Khatib, 2012-10-22 Politics in the Middle East is now seen and the image is playing a central part in processes of political struggle This is the first book in the literature to engage directly with these changing ways of communicating politics in the region and particularly with the politics of the image its power as a political tool Lina Khatib presents a cross country examination of emerging trends in the use of visuals in political struggles in the Middle East from the Cedar Revolution in Lebanon to the Green Movement in Iran to the Arab Spring in Egypt Syria and Libya She demonstrates how states activists artists and people on the street are making use of television the social media and mobile phones as well as non electronic forms including posters cartoons billboards and graffiti to convey and mediate political messages She also draws attention to politics as a visual performance by leaders and citizens alike With a particular focus on the visual dynamics of the Arab Spring and based on case studies on the visual dimension of political protest as well as of political campaigning and image management by political parties and political leaders Image Politics in the Middle East shows how visual expression is at the heart of political struggle in the Middle East today It is a hard hitting enjoyable groundbreaking book challenging the traditional ways in which politics in the Middle East is conceived of and analysed

The Critical Turn in Tourism Studies Irena Ateljevic, Annette Pritchard, Nigel Morgan, 2007-03-15 New approaches to tourism study demonstrate a notable critical turn a shift in thought that emphasises interpretative and critical modes of tourism inquiry The chapters in this volume reflect this emerging critical school of tourism studies and represent a coordinated effort of tourism scholars whose work engages innovative research methodologies Since such work has been dispersed across a variety of tourism related and other research fields this book responds to a pressing need to consolidate recent advances in a single text Adopting a broad definition of criticality the contributors seek to find fresh ways of theorising tourism by locating the phenomenon in its wider political economic cultural and social contexts The collection addresses the power relations underpinning the production of academic knowledge presents a range of qualitative data

collection methods which confront the field's dominant post-positivist approaches foregrounds the emotional dynamics of research relations and explores the personal, the political and the situated nature of research journeys. The book has been divided into two parts with the essays in the first part establishing a context-specific framework for engaging philosophical and theoretical debates in contemporary tourism enquiry. The second set of essays then present, discuss and critique specific methodologies, research techniques, methods of interpretation and writing strategies, all of which are in some sense illustrative of critical tourism research. Contributors range from postgraduate students to established academics and are drawn from both the geopolitical margins and the powerbases of the tourism academy. Their various relationships with the English-speaking academy thus range from relative outsider to well-positioned insider and as a result their essays are reflective of a range of locations within the complexly spun web of academic power relations and social divisions.
