originals and their translations taking into account the available archival evidence from the files of Poland's Censorship Office as well as the wider social and historical context The book examines institutional censorship self censorship and such issues as national quotas of foreign literature the varying severity of the regime and criticism as a means to control literature However the emphasis remains firmly on how censorship affected the practice of translation Translators shaped Polish perceptions of foreign literature from Charlie Chan books to Ulysses and from The Wizard of Oz to Moby Dick But whether translators conformed or rebelled they were joined in this enterprise by censors and pulled into post war Poland's cultural power structures
