Polls And The Media In Canadian Elections Taking The Pulse:

Polls and the Media in Canadian Elections Guy Lachapelle, Canada. Royal Commission on Electoral Reform and Party Financing, 1991 This document presents a comprehensive overview of published campaign polls in many democratic countries It reports that while direct regulation of polls is rare there is growing concern about their influence It examines regulations now in place and others that have been proposed It also examines the professional codes of the World Association for Public Opinion Research and of many national organizations including those formulated by news organizations It discusses the attempts of polling organizations and the news media to establish mechanisms of self regulation *Media And Voters In Canadian Election Campaigns* Frederick J. Fletcher, 1991-01-01 Taken together the five studies provide a useful overview of the effectiveness of various forms of campaign communication in informing voters Much of the material presented here is not readily available elsewhere *Election Broadcasting In Canada* Frederick J. Fletcher, 1991-01-01 Election Broadcasting in Canada explores the role of media in Canadian politics David R Spencer David Hogarth Catherine M Bolan and others look at the history legal framework and difficulties in election broadcasting as well as the impact of new broadcasting services *Youth in Canadian Politics* Kathy Megyery, 2013-12-30 The studies in this volume uncover a wide range of opinion about young people and their involvement in politics *Politics, Society, and the Media, Second Edition* Paul Nesbitt-Larking, 2007-01-01 Politics Society and the Media is the first comprehensive political sociology of the media to be published in Canada Paul Nesbitt Larking draws upon a range of disciplines including cultural and media studies political economy social theory and political science to provide an analysis of the relationship between power and representation in Canada The framework for the book presents a model of the mutual interaction between politics and the media Attention is focused in the early chapters on how cultural ideological economic and governmental forces shape and condition the production of media in Canada Chapters on the work of Innis Grant McLuhan and their postmodern successors place the evolution of McLuhan s theoretical argument that the medium is the message at the heart of the book Canadian identity and how to understand Canadian media politically is the subject of a chapter on textual analysis Two extensive chapters follow on the media s influence and effects on politics In addition to standard topics on politics and the media this new edition offers much more an examination of the media on the politics of gender and aboriginal peoples the micro politics of the media workplace and an exploration of important media related considerations Throughout reference is made to relevant and compelling issues placed within the context of media theory **The Handbook of Election News Coverage Around the World** Jesper Strömbäck, Lynda Lee Kaid, 2009-09-10 The Handbook of Election Coverage Around the World focuses on the news coverage of national elections in democracies around the globe It brings together and compares election news coverage within a single framework offering a systematic consideration of various factors Considering the prominence and power of the press in the election process this volume will offer unique breadth in its global consideration of the topic The volume will

appeal to scholars in political communication political science mass media and society and others studying elections and media coverage around the world *Media, Elections, And Democracy: Royal Commission on Electoral Reform* Frederick J. Fletcher,1991-01-01 Media Elections and Democracy examines campaign communication in selected industrial democracies Klaus Schoenbach Karen Siune Doris Graber and a host of authors around the world contribute critical overviews of the systems in their countries The studies deal with a wide range of issues in modern communication including the principles and practices of news and public affairs coverage and the impact of new technologies *The Roles of Public Opinion Research in Canadian Government* Christopher Page,2006-01-01 The Roles of Public Opinion Research in Canadian Government demonstrates that opinion research has a greater variety of roles than is often recognized and that despite conventional wisdom its foremost impact is to help governments determine how to communicate with citizens

Interest Groups and Elections in Canada F. Leslie Seidle,1991-01-01 The two studies in Interest Groups and Elections in Canada explore the nature and influence of special interest groups They consider different aspects of the question In the context of the Canadian Charter of Rights and Freedoms how can the laws intended to secure a fair electoral process be reconciled with freedom of expression Janet Hiebert reviews the limits on interest groups adopted in 1974 and amended in 1983 profiles the groups involved in the 1988 federal election and discusses relevant legislation and jurisprudence in the provinces and abroad She concludes that spending limits for parties and candidates will only be effective if there are also restrictions on independent expenditures during elections by groups and individuals Brian Tanguay and Barry Kay assess the influence attributed to locally oriented interest groups including by members of Parliament and conclude that these organizations have less influence on the political process than is the popular view The authors conclude that dissatisfaction is a key variable explaining the role of these interest groups and their activities during elections

Voting Behaviour in Canada Cameron D. Anderson,Laura B. Stephenson,2011-01-01 The recent string of minority governments has reminded Canadians that voting behaviour has serious consequences on the composition of government as well as on the direction of public policy Understanding the underlying meaning of election results is a key issue for policy makers and for students and scholars of politics But can voting behaviour be explained given that each vote represents the influence of countless impressions decisions and attachments Voting Behaviour in Canada reveals the challenges of understanding election results as leading young scholars of political behaviour piece together a comprehensive portrait of the modern Canadian voter By systematically exploring long standing attachments short term influences and proximate factors campaign issues and poll results the contributors offer a multifaceted analysis of voting behaviour that incorporates the insights of theories developed to illuminate the influence of certain factors Theoretically grounded and methodologically advanced Voting Behaviour in Canada sheds new light on the choices we make as citizens and provides important insights into recent national developments

Comparative Issues in Party and Election Finance F. Leslie Seidle,1991-01-01 This book is one of 23

volumes of research commissioned by the Royal Commission on Electoral Reform and Party Financing and one of five volumes within this series dealing specifically with party and election finance **Women in Canadian Politics** Kathy Megyery,1991-01-01 Women are the most under represented social group in the elected assemblies of the world Women everywhere constitute more than one half of the population and rarely are more than a handful of the political elite The studies in this volume examine women's involvement in political parties both past and present Empirical studies identify the roles Canadian women play in parties the opportunities and barriers they face and their progress toward greater representation in the political process The questions addressed in this volume include What are the major barriers to women's entry into federal politics Janine Brodie Do large numbers of women remain confined to pink collar work at the expense of executive positions Sylvia Bashevkin What is the impact of the candidate selection process on the election of women to the House of Commons Lynda Erickson How does incumbency affect the number of women elected to federal office Lisa Young What is the influence of media coverage on women in politics Gertrude Robinson and Armande Saint Jean The authors agree that the under representation of women in politics undermines the democratic credibility of our governing institutions Nonetheless they are cautiously optimistic regarding the prospects for the third generation of women entering politics

Ethno-Cultural Groups and Visible Minorities in Canadian Politics Kathy Megyery,1996-08-08 The studies in this volume examine the nature and extent of their participation in Canadian politics in both political parties and the House of Commons While these groups feel marginalized they believe strongly in the objectives of democracy and want to participate in a Canada that realizes those ideals more successfully *Aboriginal Peoples and Electoral Reform in Canada* Robert A. Milen,1991-01-01 This volume features differing views of past present and possible future roles for Aboriginal people in the Canadian political and electoral system **The Measure of Democracy** Daniel J. Robinson,1999-04-24 Politicians government officials and public relations officers lean heavily on polling when fashioning public policy Proponents say this is for the best arguing that surveys bring the views of citizens closer to civic officials Critics decry polling's promotion of sycophantic politicians who pander to the whims of public sentiment or conversely the use of surveys by special interest groups to thwart the majority will Similar claims and criticisms were made during the early days of polling When George Gallup began polling Americans in 1935 he heralded it as a bold step in popular democracy The views of ordinary citizens could now be heard alongside those of organized interest groups When brought to Canada in 1941 the Gallup Poll promised similar democratic rejuvenation In actual practice traditionally disadvantaged constituencies such as women the poor French Canadians and African Americans were often heavily underrepresented in Gallup surveys Preoccupied with election forecasting Gallup pollsters undercounted social groups thought less likely or unable to vote leading to a considerable gap between the polling results of the sampled polity and the opinions of the general public Examining the origins and early years of public opinion polling in Canada Robinson situates polling within the larger context of its forerunners market research

surveys and American opinion polling and charts its growth until its first uses by political parties **Political**

Communication in a New Era Philippe Maarek, Gadi Wolfsfeld, 2005-08-18 This book seeks to provide readers with a cross national perspective concerning the art of political communication in a field increasingly affected by globalization fragmentation of political audiences and the rise of professional communications experts a field concerned not only with how leaders are chosen but also with how they govern Structured in two sections Political Communication in a New Era examines both methods of gathering and disseminating information in a time of technological transformation and developments in the uses of political communication across the globe Contributors offer perspectives from Canada France Germany Israel Italy and the United States *Issues in Party and Election Finance in Canada* F. Leslie Seidle, Canada. Royal Commission on Electoral Reform and Party Financing, 1991 This document contains papers on the following topics an evaluation of disclosure arrangements in Canadian political finance some evidence on the effects of incumbency in the 1988 Canadian federal election official agents in Canadian elections electoral competition campaign expenditure and incumbency advantage capital intensive politics public funding of political parties candidates and elections in Canada independent candidates in federal general elections large contributions to candidates in the 1988 federal election and the issues of undue influence and an economic analysis of the funding of political parties in Canada **The Law of Deliberative Democracy** Ron Levy, Graeme Orr, 2016-11-03 Laws have colonised most of the corners of political practice and now substantially determine the process and even the product of democracy Yet analysis of these laws of politics has been hobbled by a limited set of theories about politics Largely absent is the perspective of deliberative democracy a rising theme in political studies that seeks a more rational cooperative informed and truly democratic politics Legal and political scholarship often view each other in reductive terms This book breaks through such caricatures to provide the first full length examination of whether and how the law of politics can match deliberative democratic ideals Essential reading for those interested in either law or politics the book presents a challenging critique of laws governing electoral politics in the English speaking world Judges often act as spoilers vetoing or naively reshaping schemes meant to enhance deliberation This pattern testifies to deliberation's weak penetration into legal consciousness It is also a fault of deliberative democracy scholarship itself which says little about how deliberation connects with the actual practice of law Superficially the law of politics and deliberative democracy appear starkly incompatible Yet after laying out this critique The Law of Deliberative Democracy considers prospects for reform The book contends that the conflict between law and public deliberation is not inevitable it results from judicial and legislative choices An extended original analysis demonstrates how lawyers and deliberativists can engage with each other to bridge their two solitudes **Politics, Society, and the Media** Paul Wingfield Nesbitt-Larking, 2001 Nesbitt Larking challenges his readers to become critical consumers of media and provides a number of strategies to encourage them to do so Nick Baxter Moore Brock University *Reforming Electoral Democracy: What Canadians told us* Canada.
