Bursting the Limits of Time Martin J. S. Rudwick,2008-11-15 In 1650 Archbishop James Ussher of Armagh joined the long running theological debate on the age of the earth by famously announcing that creation had occurred on October 23 4004 B C Although widely challenged during the Enlightenment this belief in a six thousand year old planet was only laid to rest during a revolution of discovery in the late

eighteenth and early nineteenth centuries In this relatively brief period geologists reconstructed the immensely long history of the earth and the relatively recent arrival of human life Highlighting a discovery that radically altered existing perceptions of a human s place in the universe as much as the theories of Copernicus Darwin and Freud did *Bursting the Limits of Time* is a herculean effort by one of the world s foremost experts on the history of geology and paleontology to sketch this historicization of the natural world in the age of revolution Addressing this intellectual revolution for the first time Rudwick examines the ideas and practices of earth scientists throughout the Western world to show how the story of what we now call deep time was pieced together He explores who was responsible for the discovery of the earth s history refutes the concept of a rift between science and religion in dating the earth and details how the study of the history of the earth helped define a new branch of science called geology Rooting his analysis in a detailed study of primary sources Rudwick emphasizes the lasting importance of field and museum based research of the eighteenth and nineteenth centuries *Bursting the Limits of Time* the culmination of more than three decades of research is the first detailed account of this monumental phase in the history of science The Encyclopædia Britannica James Louis Garvin, Franklin Henry Hooper, Warren Earle Cox, 1929

Cox, 1929 The Last Days of Pompeii Victoria C. Gardner Coates, Kenneth D. S. Lapatin, Jon L. Seydl, Cleveland Museum of Art, Musée national des beaux-arts du Québec, 2012 Destroyed yet paradoxically preserved by the eruption of Mount Vesuvius in a d 79 Pompeii and other nearby sites are usually considered places where we can most directly experience the daily lives of ancient Romans This book explores Pompeii as a modern obsession in which the Vesuvian sites function as mirrors of the present It is a fascinating survey of the modern obsession with the destruction of Pompeii as seen through the eyes of artists Destroyed yet paradoxically preserved by the eruption of Mount Vesuvius in a d 79 Pompeii and other nearby sites are usually considered places where we can most directly experience the daily lives of ancient Romans Rather than present these sites as windows to the past *The Last Days of Pompeii* explores Pompeii as a modern obsession in which the Vesuvian sites function as mirrors of the present Through cultural appropriation and projection outstanding visual and literary artists of the last three centuries have made the ancient catastrophe their own expressing contemporary concerns in diverse media from paintings prints and sculpture to theatrical performances photography and film This lavishly illustrated volume featuring the works of artists such as Fragonard Kaufmann Duchamp Dali and Warhol surveys the legacy of Pompeii in the modern imagination Classical Art Caroline Vout, 2018-05-29 How did the statues of ancient Greece wind up dictating art history in the West How did the

material culture of the Greeks and Romans come to be seen as classical and as art What does classical art mean across time and place In this ambitious richly illustrated book art historian and classicist Caroline Vout provides an original history of how classical art has been continuously redefined over the millennia as it has found itself in new contexts and cultures All of this raises the question of classical art's future What we call classical art did not simply appear in ancient Rome or in the Renaissance or in the eighteenth century Academy Endlessly repackaged and revered or rebuked Greek and Roman artifacts have gathered an amazing array of values both positive and negative in each new historical period even as these objects themselves have reshaped their surroundings Vout shows how this process began in antiquity as Greeks of the Hellenistic period transformed the art of fifth century Greece and continued through the Roman empire Constantinople European court societies the neoclassical English country house and the nineteenth century up to the modern museum A unique exploration of how each period of Western culture has transformed Greek and Roman antiquities and in turn been transformed by them this book revolutionizes our understanding of what classical art has meant and continues to mean The Art-union, 1842

Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc William Jerdan, William Ring Workman, Frederick Arnold, John Morley, Charles Wycliffe Goodwin, 1823 **Gardens of the Roman World** Patrick Bowe, 2004 Romans loved their gardens whether they were the grand gardens of imperial country estates or the small private spaces tucked behind city houses They treasured gardens both as places for relaxation and as plots to grow ornamental plants as well as fruits and vegetables The soothing sound of bubbling fountains often added further to the pleasures of life in the garden Romans constructed gardens in every corner of their empire from Britain to North Africa and from Portugal to Asia Minor Long after their empire collapsed the gardens they had so carefully planted continued to exert influence in the farflung corners of their former world This book describes the variety of Roman gardens throughout the empire from the humblest to the most lavish including such well known places as Hadrian's Villa in Tivoli and the gardens of Pompeii and Herculaneum The continued influence of Roman gardens is traced through Arabic medieval and Renaissance gardens to the present day Many of the lavish illustrations were commissioned for this book **The London Literary Gazette and Journal of Belles Lettres, Arts, Sciences, Etc**, 1823
