Ponds Of Kalambayi An African Sojourn:

Ponds of Kalambayi Mike Tidwell, 2011-10-18 The hilarious and heart wrenching memoir from a Peace Corps volunteer in Zaire with a new introduction *The Cambridge Companion to Travel Writing* Peter Hulme, Tim Youngs, 2002-11-21 Table of contents **A Selected Bibliography--Sub-Saharan Africa** ,1991 **African, American** David Peterson del Mar, 2017-06-15 Africa has long gripped the American imagination From the Edenic wilderness of Edgar Rice Burroughs s Tarzan novels to the black Zion of Garvey s Back to Africa movement all manner of Americans whether white or black male or female have come to see Africa as an idealized stage on which they can fashion new more authentic selves In this remarkable panoramic work David Peterson del Mar explores the ways in which American fantasies of Africa have evolved over time as well as the role of Africans themselves in subverting American attitudes to their continent Spanning seven decades from the post war period to the present day and encompassing sources ranging from literature film and music to accounts by missionaries aid workers and travel writers African American is a fascinating deconstruction of Africa as it exists in the American mindset *The Peace Corps Experience* P. David Searles, 2021-12-14 For more than 35 years the Peace Corps has pursued John F Kennedy s vision of helping people of the Third World build a better life Yet with the exception of a few celebrations of its early years little effort has been made to document that organization s history Now a former deputy director of the Peace Corps offers a first hand look at life in the agency both in the field and at headquarters and a radical reinterpretation of its history during the Nixon and Ford administrations By the end of the 1960s the Peace Corps was in disarray Debate raged over its effectiveness and many new volunteers embraced the antiestablishment behavior of the day s youth When President Nixon appointed Joseph Blatchford as director in 1969 some insiders felt the agency s days were numbered especially when Blatchford set about re evaluating the Peace Corps mission and initiated a program called New Directions to reorient its work Many observers simply lump Blatchford s efforts with the failures and faults of the Nixon administration David Searles however contends that the new director s initiatives revitalized the Peace Corps and made it a more relevant organization Searles faithfully relates the history of these policies and their implementation in the field drawing on his personal experience as country director for the Peace Corps in the Philippines He shows how despite constant carping from veterans of the early Peace Corps and much furor at headquarters New Directions reenergized the agency and renewed and reaffirmed the Peace Corps mission Searles s descriptions of political maneuverings are incisively observed and his firsthand characterizations of Peace Corps life richly impart the joys and frustrations of volunteer work The Peace Corps Experience will give historians a new perspective on the agency and will also interest anyone who has served in the Peace Corps or who wants to understand it *Peace Corps, the Great Adventure* ,1999 Peace Corps Times ,1989 Peace Corps Times Peace Corps (U.S.), 1990 **Bayou Farewell** Mike Tidwell, 2007-12-18 The Cajun coast of Louisiana is home to a way of life as unique complex and beautiful as the terrain itself As award winning travel writer Mike Tidwell journeys

through the bayou he introduces us to the food and the language the shrimp fisherman the Houma Indians and the rich cultural history that makes it unlike any other place in the world But seeing the skeletons of oak trees killed by the salinity of the groundwater and whole cemeteries sinking into swampland and out of sight Tidwell also explains why each introduction may be a farewell as the storied Louisiana coast steadily erodes into the Gulf of Mexico Part travelogue part environmental expos Bayou Farewell is the richly evocative chronicle of the author s travels through a world that is vanishing before our eyes *To Touch the World* ,1995

Growing Up Different by Bonjenji Erva Zuckerman,2006-08 Born in 1918 at Bolenge in the Belgian Congo the daughter of American missionaries Bonjenji Erva Zuckerman experiences two very different worlds as she grows up in the era between two World Wars By the time she is twelve she will say goodbye to Africa and travel around the world arriving in Washington D C in 1931 Her parents look forward to going home but she is leaving the only home she has ever known her beloved Bolenge With clarity and simplicity Erva Zuckerman leads us through the amazing first twenty years of her long life from schoolwork on a screened porch by the Congo to social work in New York City On the epic journey from there to here her father a missionary doctor drove the family in a truck which broke down and was put back together it seems almost daily across Africa from west to east From there we follow the family around the world to America where Erva aspires to find her place as she comes of age during the Depression years Rich in detail and unaffected in its style the book reflects the personality of the author as aptly described in her high school yearbook Thoughtless of beauty she is beauty s self Martha Heyneman author of *The Breathing Cathedral* and *The Productions of Time*

The Ravaging Tide Mike Tidwell,2006-08-16 If like many Americans you believe the ongoing tragedy of Hurricane Katrina was a once in a lifetime fluke you need to read this book In the coming years and decades the safety of your region your town your home may depend on the warnings you ll encounter on these pages That s because the exact same conditions that created the Katrina catastrophe and destroyed New Orleans are being replicated right now along virtually every inch of U S coastline In *The Ravaging Tide* Mike Tidwell a renowned advocate for the environment and an award winning journalist issues a call to arms and confronts us with some unsettling facts Consider In the next seventy five years much of the Florida peninsula could lie under ocean water So could much of Lower Manhattan including all of the hallowed ground zero area Major hurricanes like Katrina scientists say are becoming much more frequent and more powerful Glacier National Park in Montana will have to change its name as it is rapidly losing all of its thirty five remaining glaciers The snows atop Mt Kilimanjaro in Africa so memorably evoked in the Hemingway story have already disappeared The fault Tidwell argues lies mostly with the U S government and the energy choices it has encouraged Americans to make over the decades Those policies are now actively bringing rising seas and gigantic hurricanes the lethal forces that killed the Big Easy crashing into every coastal city in the country and indeed the world The Bush administration s own reports and studies some of which it has tried to suppress explicitly predict more intense storms and up to three feet of sea level rise by 2100 due to planetary warming The danger is

clear Whether the land sinks three feet per century as in New Orleans over the past 100 years or sea levels rise three feet per century as in the rest of the world over the next 100 years the resulting calamity is the same Although Mike Tidwell sounds the clarion in *The Ravaging Tide* this is ultimately an optimistic book one that offers a clear path to a healthier and safer world for us and our descendants He writes of trend setting U S states like New York and California that are actively cutting greenhouse gases And he heeds his own words In one delightful personal chapter he takes us on a tour of his suburban Washington D C home and demonstrates how he and many of his neighbors have weaned themselves from the fossil fuel lifestyle Even when the government is slow to change there are steps we as families can take to yes change the world

When the World Calls Stanley Meisler,2012-02-07 *When the World Calls* is the first complete and balanced look at the Peace Corps s first fifty years Revelatory and candid journalist Stanley Meisler s engaging narrative exposes Washington infighting presidential influence and the Volunteers unique struggles abroad He deftly unpacks the complicated history with sharp analysis and memorable anecdotes taking readers on a global trek starting with the historic first contingent of Volunteers to Ghana on August 30 1961 In the years since in spite of setbacks the ethos of the Peace Corps has endured largely due to the perseverance of the 200 000 Volunteers themselves whose shared commitment to effect positive global change has been a constant in one of our most complex and valued institutions
