Artificial Intelligence and Competition Georgios I. Zekos,2024-02-01 This book

examines the impact of artificial intelligence on competition and antitrust in today's global digital economy. It scrutinizes the economic and legal ramifications of Artificial Intelligence (AI) addressing the challenges it presents to competition and the law. Beginning with an analysis of AI's developments across various economic sectors, the book highlights the need for updated legislation. It focuses on the digital economy, emphasizing digital platforms' role in shaping competition. Econometric investigations and a novel index assess competition's influence on foreign direct investment and multinational enterprises. Comparing competition practices across jurisdictions like the EU, US, Germany, and China, the book uncovers commonalities and differences in competition law principles. It also explores various theories on competition and competition law, seeking convergence or divergence. This book is an essential resource for scholars, legal professionals, policymakers, and anyone seeking a better understanding of how AI is reshaping competition and antitrust in the digital age.

Reinventing Management, Julian Birkinshaw, 2012-04-25

The economic crisis was not just caused by a failure of regulation or economic policy; it was a story of the failure of management in a fundamental sense: a deeply flawed approach to management that encouraged bankers to pursue opportunities without regard for their long-term consequences and to put their own interests ahead of those of their employers and their shareholders. The revised edition of this best-selling book shows convincingly that many of today's major economic problems in the west can be traced to a failure of management. In this updated edition, the author draws our attention to new examples of failed management from Rupert Murdoch's News Corp and the disaster at BP to the ongoing problems in financial services companies such as UBS and RBS. Throughout the book, the references and statistics have been updated to make this a current
