Protecting The Bosnian Peace Lessons From A Decade Of Nation Building:

The Prevention and Intervention of Genocide Samuel Totten, 2017-09-08 Over the last twenty years the world has witnessed four major genocides There was the genocide in Iraq 1988 in Rwanda 1994 in Srebrenica 1995 and in Darfur 2003 and continuing Most observers agree there is an urgent need to assess the international community's efforts to prevent genocide and to intervene once a genocide is under way in an effective and timely manner This volume the latest in a widely respected series on the subject of genocide provides an overview of a host of issues germane to this task The book begins with a cogent discussion of the issues of prevention and intervention during the Cold War years The second chapter discusses the abject failures and moderate though in some cases highly controversial successes at prevention and intervention carried out in the 1990s and early 2000s Further chapters examine latest efforts to develop an effective genocide early warning system and examine the complexity of and barriers to prevention The pros and cons of sanctions and the problems of enforcement and evaluation their effectiveness are then discussed Conflicts between state sovereignty and the protection of threatened populations are examined both in historical context and by incorporating the latest thinking Later chapters treat the issue of intervention why and how it has met with only limited success Concentrating on Rwanda and Srebrenica chapter 8 discusses various peace operations that were abject failures and those that were moderately successful The concept of an anti genocide regime is examined in terms of progress in developing such a regime as well as what the international community must do in order to implement it Chapters discuss key issues related to post genocidal periods those that need to be addressed in order to establish stability in a wounded land and populace as well as to prevent future genocides The final chapter asks whether bringing perpetrators to justice has any impact in breaking impunity ensuring deterrence and bringing about reconciliation The contributors to the volume are all noted scholars some of whom specialize in the study of genocide and others who specialize in such areas as early warning peacekeeping and sanctions *Bosnian Security After Dayton* Michael A. Innes, 2006-09-27 Featuring fresh contributions from leading scholars this new volume considers a varied range of post war post Dayton and post 9 11 problems and issues reminding readers that Dayton is not the only challenge to the safety stability and long term viability of the post war Bosnian state Drawing together all the latest research this book covers new ground in its discussion of post 9 11 security concerns and in its leading edge analyses of crime corruption and terror in a transitional state It takes Bosnia Herzegovina seriously as a subject of regional and international affairs and is a critically important contribution to scholarship showing how redefined global security concerns have heavily altered international and domestic security priorities in Bosnia Herzegovina with corresponding implications for post war justice and identity politics foreign intervention and state level institution building This is essential reading for scholars of the Balkans peacebuilding and reconstruction European politics and of security studies in general **The Routledge Handbook of Terrorism Research** Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic

formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism

Peace without Politics? Ten Years of State-Building in Bosnia David Chandler, 2013-09-13 Ten years on from the signing of the Dayton Peace Agreement in November 1995 the legacy of the Bosnian war still shapes every aspect of the political social and economic environment of the tiny state This state of affairs is highlighted by the fact that Bosnia is still under international control with the Office of the International High Representative regularly using its powers to dismiss elected presidents prime ministers and MPs and to impose legislation over the resistance of elected legislatures at national regional and local level What has changed in the ten years since Dayton Is international regulation helping to establish a sustainable peace in Bosnia What lessons can be learned for nation building in Bosnia This volume was previously published as a special issue of the leading journal *International Peacekeeping*

International State Building and Reconstruction Efforts Joachim Krause, Charles King Mallory IV, 2010-03-17 State Building Post conflict related efforts by the international community towards state re building and reconstruction of society and economy have become a more or less regular feature of international affairs since the early 1990s It seems that the demand for such international efforts is rather rising than diminishing All have in common that the establishment of sound state structures and liveable economies in a given state are considered by a sizeable and powerful group of states as something that is furthering international peace and stability The purpose of this book is to address the strategic and policy dimensions of these international state building and reconstruction efforts The chapters take up issues relating to the economic security related and institutional aspects The authors strike a balance and attempt to formulate recommendations

Bosnia and the Destruction of Cultural Heritage Helen Walasek, contributions by Richard Carlton, Amra Hadžimuhamedović, Valery Perry, Tina Wik, 2016-03-03 The massive intentional destruction of cultural heritage during the 1992 1995 Bosnian War targeting a historically diverse identity provoked global condemnation and became a seminal marker in the discourse on cultural heritage It prompted an urgent reassessment of how cultural property could be protected in times of conflict and led to a more definitive recognition in international humanitarian law that destruction of a people s cultural heritage is an aspect of genocide Yet surprisingly little has been published on the subject This wide ranging book provides the first comprehensive overview and critical analysis of the destruction of Bosnia Herzegovina s cultural heritage and its far reaching impact Scrutinizing the responses of the international community during the war including bodies like UNESCO and the Council of Europe the volume also analyses how after the conflict ended external agendas impinged on heritage reconstruction to the detriment of the broader peace process and refugee return It assesses implementation of Annex 8 of the Dayton Peace Agreement a unique attempt to address the devastation to Bosnia s cultural heritage and examines the treatment of war crimes involving cultural property at the International Criminal Tribunal for the former Yugoslavia ICTY With numerous case studies and plentiful illustrations this important volume considers questions which have

moved to the foreground with the inclusion of cultural heritage preservation in discussions of the right to culture in human rights discourse and as a vital element of post conflict and development aid **Peace Without Politics?** David Chandler, 2006 This edited collection brings together policy specialists and academics from the UK Europe the US and Canada to assess and analyse lessons from ten years of nation building in Bosnia

The Responsibility to Protect Gareth Evans, 2009-08-01 Never again the world has vowed time and again since the Holocaust Yet genocide ethnic cleansing and other mass atrocity crimes continue to shock our consciences from the killing fields of Cambodia to the machetes of Rwanda to the agony of Darfur Gareth Evans has grappled with these issues firsthand As Australian foreign minister he was a key broker of the United Nations peace plan for Cambodia As president of the International Crisis Group he now works on the prevention and resolution of scores of conflicts and crises worldwide The primary architect of and leading authority on the Responsibility to Protect R2P he shows here how this new international norm can once and for all prevent a return to the killing fields The Responsibility to Protect captures a simple and powerful idea The primary responsibility for protecting its own people from mass atrocity crimes lies with the state itself State sovereignty implies responsibility not a license to kill But when a state is unwilling or unable to halt or avert such crimes the wider international community then has a collective responsibility to take whatever action is necessary R2P emphasizes preventive action above all That includes assistance for states struggling to contain potential crises and for effective rebuilding after a crisis or conflict to tackle its underlying causes R2P's primary tools are persuasion and support not military or other coercion But sometimes it is right to fight faced with another Rwanda the world cannot just stand by R2P was unanimously adopted by the UN General Assembly at the 2005 World Summit But many misunderstandings persist about its scope and limits And much remains to be done to solidify political support and to build institutional capacity Evans shows compellingly how big a break R2P represents from the past and how with its acceptance in principle and effective application in practice the promise of Never
