Capes, 2025-05-20 Students in seminary or graduate theology programs learn that some books in the Bible are anonymous Their professors will make the point that many Pauline letters have disputed authorship and may in fact not be written by Paul Students will also learn about the practice of pseudonymity in the world of the Bible and how some Gospels or letters are written under a false name Now for those who become pastors or church leaders what are they to do with what they learn Do they teach their congregants about these authorship questions Do they ignore that part of their training as irrelevant to the task Do they avoid teaching or reading publicly from disputed books Do these questions not matter in the end because the church settled on the canon This book aims to address these pastoral challenges An international group of scholars from universities seminaries and graduate theology programs convened to discuss these matters at the Lanier Theological Library in May 2022 These essays represent how many faculty are wrestling with the pastoral implications of anonymity and pseudonymity in the New Testament

apostle for the life of the church will be appreciated all the more from the Foreword

Scriptural Figures and the Fringes of the New Testament Canon Kelsie G. Rodenbiker, 2025 The formation of the Christian biblical canon remains a contested and mysterious subject complicated by the dating of ancient texts disagreement among ancient writers and questions of the authenticity or not of various scriptural works The Catholic Epistles James 1 and 2 Peter 1 2 3 John and Jude are a significant wrench in the gears of the process that formed the New Testament collection not least because of issues like authorship and references to other Jewish and Christian scriptures This book explores the use of characters in the Catholic letters originating from the Jewish and Christian scriptural pasts who serve as both exemplary models of behaviour and authorial mouthpieces Such figures and their textual afterlives maintain links to both now canonical works and noncanonical tradition

Liars, Brutes, and Gluttons Isaiah Allen, 2025-01-31 Did the author of Titus consider Cretans to be liars brutes and gluttons or was he confronting bigotry head on Isaiah Allen revisits long held conventional interpretations of Titus 1 12 that maintain that the author using Paul s name considered Cretans to be crude vicious and worthy of rebuke Based on insights from the cognitive linguistics approach of relevance theory Allen contends that the way Titus s original first century audience would have engaged the text is quite different from how many modern interpreters read it Additionally Allen proposes that the letter s context corresponds more closely to the situation of the early church during the lifetime of Paul than many conventional interpretations suggest Allen concludes that Paul was not participating in bigotry but instead exposed and rebuked it in his letter to Titus Allen examines linguistic evidence that reveals an ancient biblical antibigotry message that presages modern sensibilities about ethnic prejudice and racism
