PSYCHETYPES

By Michael Malone

Psychetypes A New Way Of Exploring Personality

**Michael T. Matteson, John M.
Ivancevich**

Psychetypes A New Way Of Exploring Personality:

Psychetypes Michael Malone,1977 **A Midsummer Night's Dream: Shakespeare's Syzygy of Meaning ,**

Shakespeare and Jungian Typology Kenneth Tucker,2010-06-28 The reader of Shakespeare has always been curious about the Bard's actual religion, opinions, sexual orientation and relationships. We would like to ask him why his Hamlet is so indecisive, whether Henry V is his ideal ruler and whether he himself fell in love with Rosalind. The Jungian theories of psychology used in literary interpretation have almost always involved a broader theory of archetypes rather than concentrating on more specific psychological types, despite Jung's belief that an understanding of these types is vital to self-realization. Jung's typological theories applied to literary studies may illuminate the personalities of fictional characters and indeed of the author himself. The psychological type of a writer's character can be understood as a projection of the author's own personality. Iago can show Shakespeare's rational function, whereas Othello embodies the expression of the dramatist's capacity to experience emotion. Thus Jungian typology initiates a quasi-biographical approach to understanding writers and their works. Instead of directing attention toward an author's education, class, prejudices and so on, it leans toward important emotional undercurrents within the writings, which in turn express similar currents within the author's psyche. Jungian psychetypology is long overdue in gaining recognition as a tool for literary analysis, and this work applies these theories to the full spectrum of Shakespeare's plays in detailed individual readings and comparisons. Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1979 **Jung and the Jungians on Myth** Steven Walker,2014-04-08 Carl Gustav Jung 1875-1961 was never more insightful and intriguing than when he discussed mythology. The key to understanding the Jungian approach to mythology lies in the concept of the image, which provides the basis for his theory of the unconscious. By emphasizing the image over the word, Jungian psychology distinguishes itself dramatically from Freudian, Lacanian and other psychologies that stress the task of interpreting the language of the unconscious. In *Jung and the Jungians on Myth*, Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts. Whether one is sympathetic toward Jung's ideas or critical of them, one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology. Jung and the Jungians on Myth Steven F. Walker,2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth. He defines key terms and distinguishes dream from fantasy in psychological experience. He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology. By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition, Walker fills a conspicuous gap in the current literature on Jung. From back cover **Signature for Success** Arlyn Imberman,June Rifkin,2003 In *Signature for Success*, Imberman shares analysis techniques for readers to gain better insight into themselves, co-workers and their family and thus create/improve

and understand their relationships This useful volume even includes handwriting samples and analysis of the famous infamous and everyday people *Cross-currents of Jungian Thought* Donald R. Dyer,1991 **The Educator** ,2008

American Book Publishing Record ,1978 *Social Style/Management Style* Robert Bolton,Dorothy Grover Bolton,1984-10-25 What is social style and how can you make it work for you in a business situation Your success at any management level depends largely on your ability to deal with other people In this business oriented approach to interpersonal relationships management experts Robert Bolton and Dorothy Grover Bolton show you how to assess various behavior patterns and how to use that knowledge to capitalize on your strengths minimize your weaknesses and get the results you want from others Are you predominantly an Amiable an Analytical an Expressive or a Driver Nearly everyone according to Boltons extensive research uses one of the four basic social styles more often than the others No style is better than any other but each does bring with it a unique pattern of strengths and weaknesses This book shows you not only how to recognize your style but also how to use that knowledge to manage others more effectively set appropriate life goals and career paths plan a sound self improvement plan increase your creativity and more The best managers excel at being what they are rather than trying to be what they are not If you feel that your effectiveness at work could be increased by better interpersonal skills but are tired of theories that want you to overhaul yourself to fit some uncomfortable impersonal management style then let Social Style Management Style improve your dealings with others and still let you be yourself
