## **Raising Money For Education A Guide To The Property Tax:**

Raising Money for Education David H. Monk, Brian O. Brent, 1997-09-09 How can we create a funding system that's fair to every school and every taxpayer Or is this an impossible goal That's the issue Monk and Brent raise The authors offer an overview of the current trends in school funding sources They explain how the property tax system works They examine the elements necessary to fair taxation and explore tax reform options that could bring in more dollars for education Consider these pertinent questions about any proposed future public education tax Is the tax fair Does it generate money efficiently Is there a potential growth of the tax base Will this tax be a stable source of revenue for schools How hard will it be to administer this tax Will the public comply with this tax The authors offer real insights into the issues surrounding how we get and how we spend the money for our schools The book also looks at alternative ways to raise funds such as taxes based on income sales and lotteries It delivers thoughtful well researched information for anyone who's interested in the future of public education and how we will fund it

**Cutting Costs and Generating Revenues in Education** Tim L. Adsit, George R. Murdock, 2011 At no time in the history of public education has there been such a dramatic discrepancy between accelerated standards and expectations and adequate funding for our schools Much has been written about how to achieve new expectations in the realm of student achievement Much has also been written about the need for accountability and the restructuring of how education dollars are spent Unfortunately most of the input regarding the need for belt tightening is unaccompanied by any tangible solutions or suggestions and results only in hollow rhetoric or convenient political sound bytes Tim Adsit and George Murdock's journey into meaningful avenues for cost savings in public education is clearly an exception In this book readers will find many practical ideas for saving money which can be readily implemented

*Handbook of Education Policy Research* Gary Sykes, Barbara Schneider, David N. Plank, 2012-09-10 Co published by Routledge for the American Educational Research Association AERA Educational policy continues to be of major concern Policy debates about economic growth and national competitiveness for example commonly focus on the importance of human capital and a highly educated workforce Defining the theoretical boundaries and methodological approaches of education policy research are the two primary themes of this comprehensive AERA sponsored Handbook Organized into seven sections the Handbook focuses on 1 disciplinary foundations of educational policy 2 methodological perspectives 3 the policy process 4 resources management and organization 5 teaching and learning policy 6 actors and institutions and 7 education access and differentiation Drawing from multiple disciplines the Handbook's over one hundred authors address three central questions What policy issues and questions have oriented current policy research What research strategies and methods have proven most fruitful And what issues questions and methods will drive future policy research Topics such as early childhood education school choice access to higher education teacher accountability and testing and measurement cut across the 63 chapters in the volume The politics surrounding these and other issues are objectively analyzed by authors and

commentators Each of the seven sections concludes with two commentaries by leading scholars in the field The first considers the current state of policy design and the second addresses the current state of policy research This book is appropriate for scholars and graduate students working in the field of education policy and for the growing number of academic government and think tank researchers engaged in policy research For more information on the American Educational Research Association please visit <http://www.aera.net>
