Rameau's Nephew / D'alembert's Dream Denis

Diderot, 1766-07-29 One of the key figures of the French Enlightenment Denis Diderot was a passionate critic of conventional morality society and religion Among his greatest and most well known works these two dialogues are dazzling examples of his radical scientific and philosophical beliefs In Rameau's Nephew the eccentric and foolish nephew of the great composer Jean Philippe Rameau meets Diderot by chance and the two embark on a hilarious consideration of society music literature politics morality and philosophy Its companion piece D'Alembert's Dream outlines a material atheistic view of the universe expressed through the fevered dreams of Diderot's friend D'Alembert Unpublished during his lifetime both of these powerfully controversial works show Diderot to be one of the most advanced thinkers of his age and serve as fascinating testament to the philosopher's wayward genius Denis Diderot 'Rameau's Nephew' - 'Le Neveu de Rameau' Marian

Diderot, 2006-11-09 In Diderot's brilliant and witty dialogue two acquaintances discuss art music education and society. A key work of the French Enlightenment in this sparkling new translation it is paired with Diderot's First Satire providing context for Rameau's Nephew, the second satire unless you know everything you really know nothing. Diderot's brilliant and witty dialogue begins with a chance encounter in a Paris caf e between two acquaintances. Their talk ranges broadly across art music education and the contemporary scene as the nephew of composer Rameau, amoral and bohemian alternately

shocks and amuses the moral bourgeois figure of his interlocutor Exuberant and highly entertaining the dialogue exposes the corruption of society in Diderot's characteristic philosophical exploration The debates of the French Enlightenment speak to us vividly in this sparkling new translation which also includes the First Satire a related work that provides the context for Rameau's Nephew Diderot's second satire *Rameau's Nephew, and Other Works* Denis Diderot, Wilfrid Jackson (Mrs.), Curwen Press, 1926

The Analysis of Virtue in Alasdair MacIntyre and His View of "The Enlightenment Project" Benjamin Okon MSP, 2016-04-15 MacIntyre is greatly discontented with the nature of contemporary morality which according to him has a form i.e. what appears like morality but lacks essential content He argues that the most common feature of contemporary ethical discourse is that much of it is used to express individual preferences which leads to disagreements among philosophers and eventually results in debates that are interminable in character MacIntyre attributes the cause of this situation to the activities of the enlightenment philosophers of the 17th and 18th centuries who in an attempt to find rational justification for morality repudiated those essential elements that define the essence of morality and give it its contents Such elements include historical narrative tradition teleology and divine law In MacIntyre's opinion morality so constructed was destined for failure since it was not founded on the true nature of the human person The obvious consequences of this failure were the birth of diverse post enlightenment ethical theories and a substantial change in the conception of virtue In order to remedy this deplorable condition of contemporary ethics MacIntyre along with other virtue ethicists advocates a certain renaissance of ethical principles that are founded on the true nature of the human person characterized by historical narrative tradition and teleology all grounded on divine legislation Morality thus reconstructed finds its fullest expression in the theory of human character traits i.e. virtues This is what has motivated MacIntyre's construction of virtue theory which has brought him into confrontation with the enlightenment philosophers Our study and analysis of MacIntyre's theory of virtue reveals that his account of virtue is inadequate This inadequacy is what has motivated our own project of reconstructing MacIntyre's theory of virtue in view of offering an account of virtue that is adequate In this way our own project complements that of MacIntyre Reconstructing Social Theory, History and Practice Harry F. Dahms, Eric R. Lybeck, 2016-12-05 Taken from papers presented at the 2015 International Social Theory Consortium ISTC this volume focusses on Reconstruction dedicated to taking account of and interrogating the possibility of picking up the pieces

Unfinished Music Richard Kramer, 2012-07-12 Unfinished Music explores with subtle insight the uneasy relationship between the finished work and the elusive provocative traces of the profound labors buried in its past The Haydn Economy Nicholas Mathew, 2022-08-30 Analyzing the final three decades of Haydn's career this book uses the composer as a prism through which to examine urgent questions across the humanities In this far reaching work of music history and criticism Nicholas Mathew reimagines the world of Joseph Haydn and his contemporaries with its catastrophic upheavals and thrilling sense of potential In the process Mathew tackles critical questions of particular moment how we tell

the history of the European Enlightenment and Romanticism the relation of late eighteenth century culture to incipient capitalism and European colonialism and how the modern market and modern aesthetic values were and remain inextricably entwined The Haydn Economy weaves a vibrant material history of Haydn s career extending from the sphere of the ancient Esterhazy court to his frenetic years as an entrepreneur plying between London and Vienna to his final decade as a venerable musical celebrity during which he witnessed the transformation of his legacy by a new generation of students and acolytes Beethoven foremost among them Ultimately Mathew asserts Haydn s historical trajectory compels us to ask what we might retain from the cultural and political practices of European modernity whether we can extract and preserve its moral promise from its moral failures And it demands that we confront the deep histories of capitalism that continue to shape our beliefs about music sound and material culture

Hegel's Ladder H. S. Harris, 1997-03-10 A two volume set Print edition available in cloth only Awarded the Nicholas Hoare Renaud Bray Canadian Philosophical Association Book Prize 2001 From the Preface Hegel s Ladder aspires to be a literal commentary on Die Phänomenologie des Geistes It was the conscious goal of my thirty year struggle with Hegel to write an explanatory commentary on this book and with its completion I regard my own working career as concluded The prevailing habit of commentators is founded on the general consensus of opinion that whatever else it may be Hegel s Phenomenology is not the logical Science that he believed it was This is the received view that I want to overthrow But if I am right then an acceptably continuous chain of argument paragraph by paragraph ought to be discoverable in the text

Utopianism for a Dying Planet Gregory Claeys, 2024-12-10 How the utopian tradition offers answers to today s environmental crises In the face of Earth s environmental breakdown it is clear that technological innovation alone won t save our planet A more radical approach is required one that involves profound changes in individual and collective behavior Utopianism for a Dying Planet examines the ways the expansive history of utopian thought from its origins in ancient Sparta and ideas of the Golden Age through to today s thinkers can offer moral and imaginative guidance in the face of catastrophe The utopian tradition which has been critical of conspicuous consumption and luxurious indulgence might light a path to a society that emphasizes equality sociability and sustainability Gregory Claeys unfolds his argument through a wide ranging consideration of utopian literature social theory and intentional communities He defends a realist definition of utopia focusing on ideas of sociability and belonging as central to utopian narratives He surveys the development of these themes during the eighteenth and nineteenth centuries before examining twentieth and twenty first century debates about alternatives to consumerism Claeys contends that the current global warming limit of 1.5C (2.7F) will result in cataclysm if there is no further reduction in the cap In response he offers a radical Green New Deal program which combines ideas from the theory of sociability with proposals to withdraw from fossil fuels and cease reliance on unsustainable commodities An urgent and comprehensive search for antidotes to our planet s destruction Utopianism for a Dying Planet asks for a revival of utopian ideas not as an escape from reality but as a powerful means of changing it

The

Films of Charles and Ray Eames Eric Schuldenfrei, 2014-12-05 The Films of Charles and Ray Eames traces the history of the Eameses work examining their evolution away from the design of mass produced goods and toward projects created as educational experiences Closely examining how the Eameses described their work reveals how the films and exhibitions they generated were completely at odds with the earlier objectives exemplified in their furniture designs Shifting away from promoting the consumer culture they turned their attention to the presentation of complex sets of scientific artistic and philosophical ideas During a critical period from the late 1950s to the early 1960s there was a moment of introspective self reflection in the West stemming from the events of the Cold War This moment of uncertainty was crucial for it provided the incentive to question the values and concerns of society as a whole In turn designers began to question their own sense of purpose temporarily expanding the purview of design to a broader field of inquiry In the case of the Eameses they identified an overriding problem related to consumerism and excess in America and sought to resolve the issue by creating a network of communication between universities governments institutions and corporations The solution of promoting greater education experiences as an alternative to consumerism in America required that different sectors of society functioned in unison to address political social economic and educational concerns The Films of Charles and Ray Eames reconsiders how design intersects with humanity culture and the sciences
